BOARD OF ZONING APPEALS STAFF REPORT

To: Board of Zoning Appeals
Case: BZA 23:02 Variance
Date: January 16, 2024

From: Jason Overstreet, Senior Planner
District: Columbia Election District
Tax Map: 33 Section 11 Parcel 1

General Info:

The Board of Zoning Appeals is scheduled to hear this request on Tuesday, January 16, 2024 at 7:00 pm in the Morris Room of the County Administration Building.

Applicant:

Liberty Homes VA Inc.

Owner:

Liberty Homes VA Inc.

Request:

Liberty Homes – BZA 23:02 - requests a ten (10) foot Variance to Section 22-4-3 (E) (2) to allow for the reduction of the minimum front setback from one hundred twenty-five (125) feet to one hundred fifteen (115) feet for an as-built, single-family detached dwelling on Tax Map 33 Section 11 Parcel 1. The subject property is zoned A-1, Agricultural, General District and is known as 4305 Cedar Lane Road and is located in the Rural Preservation Area and the Columbia Election District.

Code Section:

Fluvanna County Code Sec. 22-4-3. (E) (2) of the Zoning Ordinance

Location:

The subject property is located in the Columbia Election District on the east side of Route 659, Cedar Lane Road.

Existing Zoning:

A-1, Agricultural, General

Existing Land Use:

Residential, Single-family Detached Dwelling

Adjacent Land Use:

Vacant or Residential

Comprehensive Plan:

Rural Preservation Planning Area

Analysis:

Sec. 22-4-3. – Residential density; minimum lot size; dimensional requirements.

(E) Minimum setback required (as measured from edge of right-of-way):

(2) All other public roads: 125 feet

A single-family dwelling has been constructed by the applicant on TMP 33-11-1. The location of the house site was inadvertently moved 11 feet towards the front setback which resulted in it being constructed within the front setback. The attached plat indicates that the house and covered porch encroach six feet (6ft') into the setback. The applicant is requesting a variance of ten feet (10') to the front setback requirement. If approved, a certificate of occupancy will be permitted as the house will no longer be in violation of Sec. 22-4-3.

As stated in Section 22-18-2(B) of the Fluvanna County Code, the Board of Zoning Appeals must consider certain statutory considerations when reviewing a variance request.

The Board may grant a variance if the evidence shows that the strict application of the terms of the ordinance would unreasonably restrict the utilization of the property or that the granting of the variance would alleviate a hardship due to a physical condition relating to the property or improvements thereon at the time of the effective date of the ordinance, and:

- i. the property interest for which the variance is being requested was acquired in good faith and any hardship was not created by the applicant for the variance;
- ii. the granting of the variance will not be of substantial detriment to adjacent property and nearby properties in the proximity of that geographical area;
- iii. the condition or situation of the property concerned is not of so general or recurring a nature as to make reasonably practicable the formulation of a general regulation to be adopted as an amendment to the ordinance;
- iv. the granting of the variance does not result in a use that is not otherwise permitted on such property or a change in the zoning classification of the property; and
- v. the relief or remedy sought by the variance application is not available through a special exception process or the process for modification of a zoning ordinance at the time of the filing of the variance application.

The Board must make each of the above findings in order to grant a variance as required by the Code of Virginia. Approval of a variance that does not meet each finding would be unlawful. The Board may impose, as part of an approval, conditions regarding the location, character, and other features of the proposed structure or use as it may deem necessary in

the public interest and may require a guarantee or bond to ensure that the conditions imposed are being and will continue to be complied with.

After evaluation of the above factors, staff has the following comments:

The property interest for which the variance is being requested was acquired in good faith and any hardship was not created by the applicant for the variance:

The property was acquired in good faith and the setback violation, while technically created by the applicant, is due to a mistake made during construction. The mistake was not discovered until after the house was built.

The granting of the variance will not be of substantial detriment to adjacent property and nearby properties in the proximity of that geographical area:

The granting of the variance will have no impact on the adjacent and nearby properties.

The condition or situation of the property concerned is not of so general or recurring a nature as to make reasonably practicable the formulation of a general regulation to be adopted as an amendment to the ordinance:

The encroachment of a structure into the setback for new construction is extremely rare.

The granting of the variance does not result in a use that is not otherwise permitted on such property or a change in the zoning classification of the property:

Granting of the requested variance would not result in a change to the zoning classification nor would it result in a use that is not permitted.

The relief or remedy sought by the variance application is not available through a special exception process or the process for modification of a zoning ordinance at the time of the filing of the variance application:

A special use permit remedy is not available for this violation. No zoning ordinance amendment has been proposed nor is there one in process for this section of the ordinance.

Suggested Motion:

I move to (Approve/deny/defer) the resolution approving variance case number BZA 23:02 – a request for a ten (10) foot Variance to Section 22-4-3 (E) (2) to allow for the reduction of the minimum front setback from one hundred twenty-five (125) feet to one hundred fifteen (115) feet for an as-built, single-family detached dwelling on Tax Map 33 Section 11 Parcel 1.

UNNECESSARY HARDSHIP

Describe here how the literal interpretation and enforcement of Section 22-4-3.E.2 of the Zoning Ordinance would effectively prohibit or unreasonably restrict the use or intended use or development of the properties involved by the applicant.

The house was mistakenly constructed 11' from the location shown on the building permit plan. This mistake was not discovered until a survey was performed after the house was completed. A copy of the survey is attached. The house cannot obtain an occupancy permit with the porch 6' into the front setback.

ADJACENT PROPERTY

Describe the effects of this variance on adjacent property and the surrounding neighborhood. How will adjoining property owners be protected.

The adjoining property owners will not be affected by the 120' setback variance. The 6' encroachment into the front setback can only be determined by a physical survey of the property.

RESOLUTION APPROVING VARIANCE CASE NUMBER BZA 23:02

BE IT RESOLVED BY THE BOARD OF ZONING APPEALS OF FLUVANNA COUNTY, VIRGINIA, that the strict terms of the Fluvanna County Zoning Ordinance be varied with respect to the property described as set forth in the application for case number BZA 23:02 in the following respects:

A request for a ten (10) foot Variance to Section 22-4-3 (E) (2) to allow for the reduction of the minimum front setback from one hundred twenty-five (125) feet to one hundred fifteen (115) feet for an as-built, single-family detached dwelling on Tax Map 33 Section 11 Parcel 1

The Board, having considered the evidence presented to it as reflected in the record of this case, finding as facts that the strict application of the terms of the ordinance would unreasonably restrict the utilization of the property or that the granting of the variance would alleviate a hardship due to a physical condition relating to the property or improvements thereon at the time of the effective date of the ordinance, and:

- i. the property interest for which the variance is being requested was acquired in good faith and any hardship was not created by the applicant for the variance;
- ii. the granting of the variance will not be of substantial detriment to adjacent property and nearby properties in the proximity of that geographical area;
- iii. the condition or situation of the property concerned is not of so general or recurring a nature as to make reasonably practicable the formulation of a general regulation to be adopted as an amendment to the ordinance;
- iv. the granting of the variance does not result in a use that is not otherwise permitted on such property or a change in the zoning classification of the property; and
- v. the relief or remedy sought by the variance application is not available through a special exception process or the process for modification of a zoning ordinance at the time of the filing of the variance application.

PROVIDED, HOWEVER, that the said variance be subject to the following conditions:

BOARD OF ZONING APPEALS STAFF REPORT

To: Board of Zoning Appeals
Case: BZA 23:03 Variance
Date: January 16, 2024

From: Jason Overstreet, Senior Planner
District: Fork Union Election District
Tax Map: 59 Section A Parcel 79

General Info:

The Board of Zoning Appeals is scheduled to hear this request on Tuesday, January 16, 2024 at 7:00 pm in the Morris Room of the County Administration Building.

Applicant:

Samuel Ross Jr.

Owner:

Samuel Ross Jr.

Request:

BZA 23:03 – Samuel Ross Jr – requests a one hundred forty foot (140) Variance and a one hundred fifty foot (150) Variance to the minimum lot width of three hundred (300) feet at the minimum required setback under Section 22-4-3 (D); requests an eighty foot (80) Variance and a one hundred fifty foot (150) Variance to the minimum required three hundred foot (300) frontage under Section 22-4-3 (C) (b) for residential use on Tax Map 59 Section A Parcel 79. The subject property is zoned A-1, Agricultural, General District and is known as 2953 Bremono Road and is located in the Rural Preservation Area and the Fork Union Election District.

Code Section:

Fluvanna County Code Sec. 22-4-3. (C), (D) of the Zoning Ordinance

Location:

The subject property is located in the Fork Union Election District on the north side of Route 656, Bremono Road

Existing Zoning:

A-1, Agricultural, General

Existing Land Use:

Vacant

Adjacent Land Use:

Vacant or Residential

Comprehensive Plan: Rural Preservation Planning Area

Analysis:

The subject parcel was created in its current configuration in June of 1968 when a 2.5 acre parcel (TMP 59-A-80) was divided from it. This division effectively split the subject parcel into two lots which are referenced as Parcel A and Parcel B on a 2018 boundary survey plat included with this report. Parcel B previously had a dwelling that has since been removed although a septic system remains. Parcel B has approximately 224 feet of road frontage and the width of the lot at setback is approximately 163 feet. Parcel A has approximately 115 feet of road frontage and the width of the lot at setback is approximately 154 feet.

The current zoning ordinance requires that lots in the A-1 zoning district have 300' of contiguous road frontage and that the lot width at the setback line be equal to the required frontage. Due to the lot's dimensions, it is considered nonconforming when applying the requirements of the current zoning ordinance.

Sec. 22-4-3. – Residential density; minimum lot size; dimensional requirements.

(C) Minimum frontage required:

(b) All other public roads:300 feet

(D) Minimum lot width at minimum required setback shall be equal to the minimum required frontage.

The applicant is requesting a variance to these current dimensional requirements which, if approved, would allow the lot to be subdivided without meeting the current frontage and setback requirements of the zoning ordinance. If approved, Parcel A would have 115 feet of frontage and the lot width would be approximately 155 feet at the setback. If approved, Parcel B would have 224 feet of frontage and the lot width would be approximately 163 feet at the setback.

Since the advertisement of the public hearing notice it has been determined that a mistake was made by staff in incorrectly listing the amount of the variance to the width of Parcel A in the public hearing notice. The width of this variance should be 190 feet and not 150 feet as advertised.

Section 22-16-7 of the zoning ordinance prohibits the creation of lots below width and area requirements for the zoning district in which the lot is located.

Sec. 22-16-7. - Prohibition against creation of lots below width and area requirements for district.

No lot or parcel or portion thereof shall be used or sold in a manner diminishing compliance with lot width and area requirements established in each district by this ordinance, nor shall any division be made which creates a lot with width or area below the requirements in each district established by this ordinance.

As stated in Section 22-18-2(B) of the Fluvanna County Code, the Board of Zoning Appeals must consider certain statutory considerations when reviewing a variance request.

The Board may grant a variance if the evidence shows that the strict application of the terms of the ordinance would unreasonably restrict the utilization of the property or that the granting of the variance would alleviate a hardship due to a physical condition relating to the property or improvements thereon at the time of the effective date of the ordinance, and:

- i. the property interest for which the variance is being requested was acquired in good faith and any hardship was not created by the applicant for the variance;
- ii. the granting of the variance will not be of substantial detriment to adjacent property and nearby properties in the proximity of that geographical area;
- iii. the condition or situation of the property concerned is not of so general or recurring a nature as to make reasonably practicable the formulation of a general regulation to be adopted as an amendment to the ordinance;
- iv. the granting of the variance does not result in a use that is not otherwise permitted on such property or a change in the zoning classification of the property; and
- v. the relief or remedy sought by the variance application is not available through a special exception process or the process for modification of a zoning ordinance at the time of the filing of the variance application.

The Board must make each of the above findings in order to grant a variance as required by the Code of Virginia. Approval of a variance that does not meet each finding would be unlawful. The Board may impose, as part of an approval, conditions regarding the location, character, and other features of the proposed structure or use as it may deem necessary in the public interest and may require a guarantee or bond to ensure that the conditions imposed are being and will continue to be complied with.

After evaluation of the above factors, staff has the following comments:

The property interest for which the variance is being requested was acquired in good faith and any hardship was not created by the applicant for the variance:

The subject property was purchased in its current dimensional configuration which consists of two parts (Parcel A & Parcel B).

The granting of the variance will not be of substantial detriment to adjacent property and nearby properties in the proximity of that geographical area:

The division of this lot should not be of substantial detriment to the adjacent properties as the land use will still maintain its rural nature as intended by the Comprehensive Plan.

The condition or situation of the property concerned is not of so general or recurring a nature as to make reasonably practicable the formulation of a general regulation to be adopted as an amendment to the ordinance:

This lot's nonconforming condition existed when the lot was originally created. However, in addition to this lot there are many existing lots within the county that were made nonconforming when new dimensional requirements were codified through updates to the zoning ordinance. Often these nonconforming conditions can be addressed through other means such as boundary line adjustments. In this particular case it is not possible to adjust the boundaries in order to bring the lot into compliance with current requirements.

The granting of the variance does not result in a use that is not otherwise permitted on such property or a change in the zoning classification of the property:

Granting of the requested variances would not result in a change to the zoning classification nor would it result in a use that is not permitted.

The relief or remedy sought by the variance application is not available through a special exception process or the process for modification of a zoning ordinance at the time of the filing of the variance application:

A special use permit process is not available to the applicant. No zoning ordinance amendment has been proposed nor is there one in process for this section of the ordinance.

Suggested Motion:

I move to (approve/deny/defer) the resolution approving variance case number BZA 23:03 - request for a one hundred forty foot (140) Variance and a one hundred fifty foot (150) Variance to the minimum lot width of three hundred (300) feet at the minimum required setback under Section 22-4-3 (D); request for an eighty foot (80) Variance and a one hundred fifty foot (150) Variance to the minimum required three hundred foot (300) frontage under Section 22-4-3 (C) (b) for residential use on Tax Map 59 Section A Parcel 79.
