*Clerk to the Board*

December 15, 2025

### **To the Citizens of Fluvanna County, Virginia To the Honorable Members of the Board of Supervisors of Fluvanna County**

We are pleased to submit to you the Annual Comprehensive Financial Report (ACFR) for the County of Fluvanna (the "County") for the fiscal year ended June 30, 2025. The *Code of Virginia* requires that local governments publish, within six months of the close of each fiscal year, a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants. This report has been prepared by the Department of Finance in accordance with the standards of financial reporting as prescribed by the Governmental Accounting Standards Board (GASB), the Financial Accounting Standards Board (FASB) where applicable, and the Auditor of Public Accounts (APA).

This report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and fairness of presentation of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed to ensure compliance with applicable laws, regulations and County policies, to safeguard the County's assets, and to compile sufficient reliable information for the preparation of the County financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and accurate in all material respects, and presents fairly the financial position and results of operations of the various funds and component units of the County.

This report is intended to provide informative and relevant financial information for the citizens of the County, the Board of Supervisors (the Board), investors, creditors and other concerned readers. All are encouraged to contact the Department of Finance with any comments or questions concerning this report.

The County's financial statements have been audited by Robinson, Farmer, Cox, Associates, L.L.P., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2025, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation.

The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the County's financial statements for the fiscal year ended June 30, 2025 are fairly presented in all material respects, in conformity with GAAP. The auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the County's compliance with the financial and administrative requirements applicable to each of the County's major federal programs. These reports are available in the Compliance Section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

## ***PROFILE OF THE COUNTY***

The County was established in 1777 after several divisions from other counties with the final division from Albemarle County. Fluvanna County was once part of Henrico County, one of the original shires of the Virginia Colony. In 1727, Henrico County was divided and Fluvanna County became a part of Goochland County. Goochland County was divided in 1744 and Fluvanna became a part of Albemarle County. In 1777, Albemarle County was divided to create Fluvanna County. The County was named for the Fluvanna River, the name given to the James River west of Columbia. Fluvanna is Latin for "Anne's River" – in honor of Queen Anne of England. Palmyra was made the county seat in 1828 and remains the county seat today. It quickly became a thriving town after the courthouse was completed in 1830. While Palmyra has changed and modernized over the years, it still possesses an aura of tranquility.

The County operates under the traditional board form of government as defined under Virginia law. The governing body of the County is the Board of Supervisors, which establishes policies for the administration of the County. The Board of Supervisors consists of five members representing the five electoral districts in the County: Columbia, Cunningham, Fork Union, Palmyra, and Rivanna. The Board of Supervisors appoints a County Administrator to serve as the administrative manager of the County. The County Administrator serves at the pleasure of the Board of Supervisors, carries out the policies established by the Board of Supervisors, and directs business and administrative procedures within the County government. The County has taxing powers subject to statewide restriction and tax limits.

## ***PROFILE OF THE COUNTY (CONTINUED)***

Fluvanna County is centrally located in the heart of Virginia, 120 miles south of Washington, D.C., 60 miles west of Richmond, Virginia, and 25 miles southeast of Charlottesville, Virginia. The location of the County can be described as the Piedmont Plateau Physiographic Province and is characterized by gently rolling hills. The County encompasses a land area of 282 square miles. Two U.S. primary and two State primary routes traverse the County. The County is bounded, in effect, by Interstate 64 to the north and by the James River to the south. The Rivanna River, the Commonwealth's first designated "Scenic River", bisects the county and joins the James at the historic town of Columbia. Agriculture remains important in Fluvanna's economy. Two-thirds of the county's land is forested with most open land devoted to farming and grazing.

In addition to the elected Board of Supervisors, five constitutional officers are elected. These officers include the Clerk of the Circuit Court, the Sheriff, the Commonwealth's Attorney, the Treasurer, and the Commissioner of the Revenue. Two officials are elected to serve as County representatives on the Thomas Jefferson Soil & Water Conservation District Board. Five officials are elected to serve as the Fluvanna County School Board.

The departments of the Board of Supervisors, County Administrator, County Attorney, Commissioner of the Revenue, Treasurer, Information Technology, Finance, Registrar, and Human Resources constitute the general government administration of the County. The County Administrator, Constitutional officers, along with the Directors of the various departments, implement the laws and policies of the County by developing and executing the procedures that are necessary in order to provide general support services to County residents.

The Court system is made up of the Circuit Court, General District Court, Juvenile and Domestic Relations Court, Clerk of the Circuit Court, Court Services, and Commonwealth's Attorney. The public safety operations of the County include the Sheriff, Emergency Communications, Emergency Management, Fire and Rescue Squads, Emergency Services, Animal Control, Building Inspections, Blue Ridge Juvenile Detention, and Central Virginia Regional Jail.

Public Works is comprised of the departments of Facilities, Utilities, and Public Works which administers capital projects of the County and oversees solid waste management, Sewer, the Zion Crossroads Water and Sewer System and the Fork Union Sanitary District.

The Department of Social Services determines eligibility for public assistance programs, which are mandated by federal and state law. The Community Services Board provides mental health, mental retardation, and substance abuse services. In addition, it provides adult services, group home services, and supervised living services. Fluvanna is served by the Thomas Jefferson Health District along with Charlottesville, and Albemarle, Greene, Louisa, and Nelson counties.

Parks and Recreation provides and promotes leisure services including park activities, educational and hobby programs, senior citizen activities, youth programs, adult athletic leagues, special events, and other activities for County residents. The Fluvanna County Library provides public library service to the County.

The Planning and Zoning Department provides numerous services that relate to the well-being and orderly development of the community. Primary areas of responsibility include the Comprehensive Plan, current and long range planning, and code enforcement. This Department also maintains the geographic information system (GIS) for developing, maintaining, and distributing geographic related data sets and applications. The Economic Development Department has responsibility for attracting and retaining high quality business and industry.

## ***PROFILE OF THE COUNTY (CONTINUED)***

The County provides education through its own school system administered by the Fluvanna County School Board (the School Board). The County promotes commerce through the Economic Development Authority of Fluvanna County, Virginia (the EDA). These agencies have been classified as discretely presented component units in the financial reporting entity because they are legally separate entities for which the County is financially accountable. The EDA has the power to issue tax-exempt industrial development revenue bonds on behalf of qualifying enterprises wishing to utilize that form of financing, as well as to finance County facilities. Those bonds do not constitute a debt or pledge of the faith and credit of the County, but represent limited obligations of the EDA payable solely from the revenue and receipts derived from the projects funded with the proceeds.

The School Board administers its own appropriations within the categories defined by the Commonwealth of Virginia. The Board of Supervisors' financial accountability over the School Board is also limited to approving transfers to the education funds and authorizing school debt issuances. The Fluvanna County Public Schools is the single largest service provided by the County. The elected School Board is composed of five members who represent the five electoral districts. The School Board appoints a Superintendent to administer the policies of the School Board. The school system is comprised of one high school, one middle school, and three elementary schools. The K-12 End-of-Year Membership as of June 2025 totaled 3,317 students. The Fluvanna High School Completion Rate is 95.14% (VA On-Time Graduation Rate) with 63.9% of graduates seeking higher education.

Virginia law requires the County to maintain a balanced budget in each fiscal year. The annual budget serves as the foundation of the County's financial planning and control. These budgetary controls ensure compliance with provisions embodied in the annual appropriated budget approved by the Board of Supervisors. Activities of the general fund and capital projects fund are included in the annual appropriated budget. All agencies and departments of the County are required to submit requests for appropriation to the County Administrator by the date established in the budget calendar. The County Administrator uses these requests as the starting point for developing a proposed budget. Then, the County Administrator presents the proposed budget to the Board who begin a series of work sessions. The Board is required to hold a public hearing on the proposed budget and to adopt a final budget by no later than June 30<sup>th</sup>, the close of the County's fiscal year, as required by 15.2-2503, Code of Virginia of 1950, as amended. A budget is not required for fiduciary funds. The appropriated budget is prepared by fund and function (e.g., public safety) with the appropriations resolution adopted by the Board placing legal restrictions on expenditures at the fund and function level.

When necessary, the Board of Supervisors approves amendments to the adopted budget in accordance with 15.2-2507, Code of Virginia of 1950, as amended. Budgetary compliance is monitored and reported at the department level. The budget is implemented through appropriations that the Board makes annually, with supplemental appropriations made as required. These appropriations, except those to incur mandated expenditures, may be greater or less than contemplated in the budget.

## FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which Fluvanna County operates.

### Local Economy

Based on available economic data, the annual local unemployment rate for 2024 was 2.4%, 0.1% decrease than the 2.5% annual local unemployment rate for 2023. The local unemployment rate compares favorably to the state and national rate of 2.9% and 4.0%, respectively. The predominant industries are government, education, administrative and support services, health care, and retail trade. As of June 2025, monthly unemployment data reflects rates trending upward at 3.4%.

Source: Virginia Employment Commission, Local Area Unemployment Statistics - Annual, Not Seasonally Adjusted

Sales tax revenue can also be an indicator of the overall condition of the County's economy. As seen in the chart below, there has been strong growth in the Local Option Sales Tax revenue in Fluvanna County over the past five years. Local Option Sales Tax revenue has increased 3.46% over the previous year and 64.9% from 2018 to 2024. In contrast, Virginia has seen a 45.4% increase during the same time period. Within the last ten years, Fluvanna County experienced its highest single year increase from 2019 to 2020 at 18.4%. This can be directly attributed to changes implemented from the Commonwealth for online retailers making more than \$100,000 in annual gross sales to collect and pay sales tax starting July 1, 2019. Another reason for the Local Option Sales Tax increase is due to residents shopping locally and having additional options.

**FACTORS AFFECTING FINANCIAL CONDITION (CONTINUED)**

Source: Virginia Department of Taxation, Revenue Forecasting – Annual

The population growth in the County has increased over the years due to competitively priced housing, a rural setting, and approximation to major urban centers, including Charlottesville and Richmond. Fluvanna County saw an increase of 28.2% in population growth between the 2000 and the 2010 census. However, population growth has moderated from the 2010 to 2020 census at a rate of 6.1%. The population growth has increased an estimated 1.0% from 2023 to 2024.

Source: Weldon Cooper Center for Public Service, Demographics & Workforce Group - July 1st Estimates

## ***FACTORS AFFECTING FINANCIAL CONDITION (CONTINUED)***

### **Financial Policies**

Fluvanna continues to adhere to a conservative fund balance policy that maintains unassigned fund balance at a minimum of 12% of General Fund revenues plus Component Unit School Fund revenues, less the operating transfer from the General Fund.

### ***MAJOR INITIATIVES***

For fiscal year 2025, following the priorities established by the County of Fluvanna Board of Supervisors, and with the assistance and guidance of the County Administrator, County staff and agencies implemented and continued a number of specific projects designed to provide County residents with cost efficient government while enhancing their home and employment environment. Major initiatives begun, continued, or completed during this fiscal year are:

- The Zion Crossroads water and sewer system provides water and sewer infrastructure for Fluvanna County's growth corridor in Zion Crossroads from the intersection of Route 250 and Route 15, going west approximately 2.5 miles on Route 250 towards Charlottesville and going south approximately 1 mile on Route 15. The Board of Supervisors appropriated \$775,000 for the design of the Zion Crossroads water and sewer system. In August 2017, a water and sewer Revenue Bond was issued, providing \$8.6 million in project funds. In June 2020, an additional water and sewer Revenue Bond was issued, providing \$2.8 million in project funds. The project became operational in October 2022. The County has been working on punch list items pertaining to the project and is expected to issue an Invitation For Bid (IFB) to complete those items in spring 2026.
- The Pleasant Grove Park and Commons Blvd. complex water and sewer system expansion Preliminary Engineering Report (PER) continued in fiscal year 2025, which will provide options for necessary infrastructure for Pleasant Grove Park current and future amenities. This evaluation will also provide options for consolidated water and sewer infrastructure for the Commons Blvd. complex, which is the current location of the Sheriff's Office and Library, as well as the future site for a new Government Center Building. The PER is anticipated to be completed December 2025.
- The County continued the work on a Preliminary Engineering Report (PER) with the Virginia Department of Corrections - Fluvanna Women's Correctional Center for an expansion of their wastewater treatment plant for future County uses. This report will provide the County options for long-term sewer capacity in Zion Crossroads. The PER is anticipated to be completed January 2026.
- The James River Water Authority (JRWA) water system is supported 50/50 and created by Fluvanna and Louisa County. This project will construct a raw water intake system and pipeline from the James River to serve the 50 year water supply needs of Fluvanna and Louisa County. The pipeline from the water intake system will terminate around Route 6 in the southeast corner of Fluvanna County. Both County's will have access to the water system, with an ultimate water withdrawal of 8.57 million gallons per day. In May 2016, a Revenue Bond was issued, providing \$9.6 million in project funds. In May 2024, an additional Revenue Bond was issued, providing \$48.1 million in project funds. The project is currently under construction, with an anticipated completion date of October 2027.

## **MAJOR INITIATIVES (CONTINUED)**

- In June 2021, Dominion Energy proffered to the County \$49.6 million for water supply improvements in the Fork Union Sanitary District and a public amenity/recreation and green infrastructure payment. The proffer is associated with the rezoning for the Dominion Energy Bremo Power Station Coal Combustion Residual remediation project in Fluvanna County. This proposed project will provide a water treatment plant and finished waterlines to the existing Fork Union Sanitary District. The raw water for this project will be sourced from the James River Water Authority allocation for Fluvanna County. A Preliminary Engineering Report (PER) was completed in 2025 as the first step to this important project and the engineering design for the system began in August 2026.
- Broadband expansion has been a priority for the County the last five years and funding of \$2.2 million (Virginia Telecommunication Initiative grant, CARES Act, ARPA and General Fund) has been committed to advance this utility necessity for the community. In 2021, the County partnered with Central Virginia Electric Cooperative (CVEC) and its wholly owned subsidiary Firefly Fiber Broadband, and Dominion Energy to deploy high speed internet to all homes and businesses in the County. Currently, the County has 90% fiber connectivity and it is projected that the County will have 100% broadband coverage by Spring 2026.
- In September 2022, the County commissioned a Historic Structures Report for the Fluvanna County Historic Courthouse, which entails a condition assessment, develop treatment recommendations, create a maintenance schedule, and prepare a corresponding report. The report identified the significant restoration efforts required for the building, which lead to seeking Board of Supervisors funding and grants for the restoration. To date for this project, the County has appropriated \$1,112,832 and also received grants from the state for \$1,095,504. In FY25, the architectural and engineering work commenced, with completion in November 2025. An Invitation for Bid for the significant restoration project will be completed in December 2025.
- The County has encountered space constraints in many of its buildings for years. To better understand the long-term space needs for the County, a Space Study and Conceptual Evaluation for future Fluvanna County government buildings began in the spring of 2025. The final report will be completed in December 2025, with the goal of proceeding to design phase services based upon the recommendations.
- The County received a \$480,000 state grant in 2017 for a Live Fire Training Structure. After many unsuccessful Invitation For Bid attempts from bid costs being too high, the County decided to change the structure type in FY25 from a Prototype II to a Prototype IV, to achieve lower bid results. To date, in addition to the \$480,000 state grant, the County has appropriated \$1,203,320 for this project. The current Invitation For Bid results will be known in December 2025.

## **FUTURE BUDGET CONSIDERATIONS**

For fiscal year 2026, the Board of Supervisors approved an Operating Budget of \$117.8 million, inclusive of a General Fund budget of \$68.1 million and a Capital Improvement budget of \$10.2 million. The Board of Supervisors decreased the tax rate to 0.750 per \$100 of assessed value for calendar year 2025, due to strong real estate value increases.

Below is the real estate tax rate history for 15 years.

## **AWARDS AND ACKNOWLEDGMENTS**

The Governmental Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting (ACFR) to the County of Fluvanna for its comprehensive annual financial report for the fiscal year ended June 30, 2024. This is the fourteenth year that the County has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the cooperation and dedication of the staff of the Fluvanna County Finance Department, Robinson Farmer Cox Associates, and all County agencies and departments that assisted and contributed to the preparation of this Report. Credit also must be given to the Board of Supervisors for their unwavering support for maintaining the highest standards of professionalism in the management of Fluvanna County's finances.

Respectfully submitted,

Eric M. Dahl  
County Administrator

## Independent Auditors' Report

---

**To the Honorable Members of the Board of Supervisors  
County of Fluvanna, Virginia**

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Fluvanna, Virginia, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Fluvanna, Virginia, as of and for the year ended June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County of Fluvanna, Virginia, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Change in Accounting Principles***

As described in Note 24 to the financial statements, in 2025, the County adopted new accounting guidance, GASB Statement No. 101, *Compensated Absences*. Our opinions are not modified with respect to this matter.

#### ***Restatement of Beginning Balances***

As described in Note 24 to the financial statements, in 2025, the County restated beginning balances to reflect the requirements of GASB Statement No. 101. Our opinions are not modified with respect to this matter.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about County of Fluvanna, Virginia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the *Specifications for Audits of Counties, Cities, and Towns* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the *Specifications for Audits of Counties, Cities, and Towns*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of County of Fluvanna, Virginia's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about County of Fluvanna, Virginia's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules related to pension and OPEB funding as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise County of Fluvanna, Virginia's basic financial statements. The accompanying combining and individual fund financial statements and schedules and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2025, on our consideration of County of Fluvanna, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of County of Fluvanna, Virginia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Fluvanna, Virginia's internal control over financial reporting and compliance.

*Robinson, Fournel, Cox Associates*

Charlottesville, Virginia

December 10, 2025

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

**To the Honorable Members of the Board of Supervisors  
To the Citizens of Fluvanna County  
County of Fluvanna, Virginia**

The management of the County of Fluvanna, Virginia presents the following discussion and analysis as an overview of the County's financial activities for the fiscal year ended June 30, 2025. We encourage readers to read this discussion and analysis in conjunction with the transmittal letter in the Introductory Section of this report, and the County's financial statements which follow this discussion and analysis.

### **Financial Highlights**

- The assets and deferred outflows of the County exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$75.6 million (net position). Of this amount, \$46.5 million (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- The County's total net position decreased by \$1.2 million, of which the governmental activities decrease by \$1.2 million and business-type activities remained the same at \$9.8 million.
- As of the close of fiscal year 2025, the County's governmental funds reported combined ending fund balances of \$42.4 million. Approximately 62.0% of this amount (\$26.2 million) is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, unrestricted fund balance (the total of committed, assigned, and unassigned components of fund balance) for the general fund was \$41.7 million, or approximately 67.0% of total general fund expenditures.
- The total long-term obligations for Primary Government decreased by \$6.4 million during fiscal year 2025 (Note 7). This net decrease was the result of retirements on existing debt and a slight increase due to OPEB and compensated absences.

### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

1. Government-wide financial statements,
2. Fund financial statements, and
3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

## **Overview of the Financial Statements (Continued)**

### **Government-Wide Financial Statements**

The *government-wide financial statements* (Exhibits 1 and 2) are designed to report information about the County as a whole using accounting methods similar to those found in the private sector. They also report the County's net position and how it has changed during the fiscal year. These statements provide both short-term and long-term information about the County's overall financial status.

The *statement of net position* (Exhibit 1) presents information on all of the County's assets, liabilities, and deferred inflows/outflows of resources including governmental activities, business-type activities, and component unit activities. Net position is the difference between assets and deferred outflows and liabilities and deferred inflows, which provides a measure of the County's financial health, or financial condition. Over time increases or decreases in the net position may serve as an indicator of whether the County's financial condition is improving or deteriorating. Other non-financial factors will also need to be considered, such as changes in the County's property tax base and the condition of the County's facilities.

The *statement of activities* (Exhibit 2) presents information using the accrual basis of accounting, and shows how the County's net position changed during the fiscal year. All of the current year's revenues and expenses are shown in this statement, regardless of when cash is received or paid. The Statement of Activities presents expenses before revenues to emphasize that the government's revenue is generated for the express purpose of providing services.

In the government-wide financial statements, the County's activities are divided into three categories:

*Governmental activities:* Most of the County's basic services are reported here, including general governmental; judicial administration; public safety; public works; health and welfare; education; parks, recreation and cultural; and community development. These activities are financed primarily by property taxes, other local taxes, and Federal and State grants.

*Business-type activities:* The County charges fees to users to cover all, or a significant portion, of the costs associated with the provision of certain services. These business-type activities of Fluvanna County are intended to be self-supporting and include the Fork Union Sanitary District, Palmyra Sewer and the Zion Crossroads Water and Sewer System.

*Component units:* The County has two component units, the Fluvanna County Public Schools (School Board) and the Economic Development Authority of Fluvanna County, which are included in this annual financial report. Although legally separate, the discretely presented component units are important because the County is financially accountable for them. A primary government is accountable for an organization if the primary government is able to impose its will on the organization or the organization is capable of imposing specific financial burdens on the primary government. The County approves debt issuances to finance School Board assets and provides significant funding for its operation. Additional information on the component units can be found in Note 1 of the Notes to Financial Statements section of this report.

### **Fund Financial Statements**

These statements focus on individual parts of the County's government, reporting the County's operations in more detail than the government-wide statements. Funds are used to ensure compliance with finance-related legal requirements and are to keep track of specific sources of revenue and expenses for particular purposes. The County has three kinds of funds:

*Governmental funds* – Most of the County's basic services are included in governmental funds, which focus on (1) the in flows and out flows of cash and other financial assets that can be readily converted to cash, and (2) the balances remaining at year-end that are available for spending. The governmental funds financial statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. Because this information does not encompass the additional long-term focus of

## **Overview of the Financial Statements (Continued)**

### **Fund Financial Statements (Continued)**

the government-wide statements, additional information is provided with the fund financial statements to explain the relationship (or differences). The County has two major funds, the General Fund and the Capital Projects Fund. The General fund is the main operating account of the County and therefore, the largest of the governmental funds. The Capital Projects Fund is used to account for major capital projects, primarily construction related. It provides control over resources that have been segregated for specific capital projects. All other governmental funds, which include special revenue funds, are collectively referred to as non-major governmental funds.

The County adopts an annual appropriated budget for its Governmental funds. A budgetary comparison statement has been provided for the General Fund and Capital Projects Fund to demonstrate compliance with this budget.

*Proprietary funds* – The County currently only maintains Enterprise Funds as a Proprietary Fund. Enterprise funds are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for its water and sewer programs. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewer activities, which are considered to be major funds of the County.

*Fiduciary funds* – The County is the trustee, or fiduciary, for the County's *agency funds*. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. The County excludes these activities from the County's government-wide financial statements because the County cannot use these assets to finance its operations. Agency funds are County custodial funds used to provide accountability of client monies for which the County is custodian.

Notes to the financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information - In addition to the basic financial statement and accompanying notes, this report also presents certain *required supplementary information* for budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit School Board. The School Board does not issue separate financial statements.

## **Government-wide Overall Financial Analysis**

### **Statement of Net Position**

Table 1 summarizes the Statement of Net Position (Exhibit 1 in the Financial Section of the Annual Comprehensive Financial Report) for the primary government as of June 30, 2025 and 2024.

As noted earlier, net position over time may serve as a useful indicator of a County's financial position. The County's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$75.6 million at the close of the most recent fiscal year. The County's overall net position decreased \$1.2 million from the prior year. The reasons for the overall decrease are discussed in the following sections for governmental and business-type activities.

## Government-wide Overall Financial Analysis (Continued)

### Statement of Net Position (Continued)

The County's investment in capital assets of \$27.8 million, or 37.0% of total net position, reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, vehicles, and infrastructure) less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens, like schools, libraries, law enforcement, fire and emergency medical services. Consequently, these assets are *not* available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities (i.e., the County's investment in capital assets is of a permanent nature, as assets acquired are generally not sold or otherwise disposed of during their useful life).

The remaining \$47.8 million balance of net position contains \$46.5 million unrestricted, which may be used to meet the County's ongoing obligations to citizens and creditors, and \$1.3 million restricted, due to an assets liability.

## Government-wide Overall Financial Analysis (Continued)

### Statement of Activities (Continued)

The net position for governmental activities decreased \$700,000 for the current fiscal year, for an ending balance of \$65.8 million. Generally, net asset changes are the result of the difference between revenues and expenses. Total revenues exceeded expenses by \$400,000 in the current fiscal year and transfers of \$1.1 million reduced the net position to \$700,000. Revenues for fiscal year 2025 decreased by \$2.5 million over the previous year and the key revenue elements include:

- General Property Taxes are the largest source of County revenue, totaling \$45.6 million for fiscal year 2025, an increase of \$1.0 million, in comparison to fiscal year 2024. The County continues to experience steady new residential growth and the reassessments completed in FY25 increased taxable values by 23.0%.
- Operating grants and contributions decreased \$3.7 million from the previous fiscal year, mainly due to ARPA revenue.

**Governmental Activities - Revenues by Source  
For the Fiscal Year Ended June 30, 2025**

For the fiscal year June 30, 2025, the expenses for governmental activities totaled \$67.2 million, an increase of \$6.7 million compared to the prior fiscal year. Key expense elements include:

- Public Safety increased \$1.2 million mainly from the purchase of capital expenditures.
- Education expenses increased by \$4.2 million over the previous fiscal year from increased salaries due to a recently completed compensation study and additional capital expenditures.
- Health and welfare increased by \$1.0 million over the previous fiscal year due to an increase in services for Children Services Act program and public assistance and welfare administration.
- Parks, Recreation, and Cultural saw significant increase in FY25 for capital expenditures.

## Government-wide Overall Financial Analysis (Continued)

### Statement of Activities (Continued)

The following graph illustrates the County's expenses for each functional area comprising its governmental activities. Education continues to be the County's largest program and highest priority, with Public Safety and Health and Welfare the County's next two largest functional expenses.

#### **Governmental Activities - Functional Expenses For the Fiscal Year Ended June 30, 2025**

Business-Type Activities – For the County's business-type activities, the net position for the current fiscal year decreased \$2.5 million for an ending balance of \$7.3 million. Expenses exceeded revenues by \$1.1 million for fiscal year 2025. In fiscal year 2024, the County received a \$2.1 million proffer for future capital expenditures. In fiscal year 2025, less revenues were received, therefore reducing net position.

## **Financial Analysis of the Governmental Funds**

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources.

### **Governmental Funds**

At June 30, 2025, the County's governmental funds reported combined ending fund balances of \$42.4 million (Exhibit 3), decreasing in comparison with the prior year by \$5.1 million. Of the \$42.4 million fiscal year 2025 fund balance: \$1.2 million is classified as restricted to indicate that it can only be spent for specific purposes as stipulated by external resource providers such as debt covenants; \$15.1 million is classified as committed to indicate that it has been set aside for specific purposes by the County's Board of Supervisors; and \$26.2 million is unassigned or available for any purpose, but maintained at targeted levels in accordance with sound financial management practices.

The General Fund is the main operating fund of the County. The fund balance of the General Fund decreased by \$1.9 million (Exhibit 4) at \$41.7 million during fiscal year 2025; of which \$15.0 million is committed, \$26.6 million is unassigned and \$84,900 remains restricted. The excess of revenues over expenditures was \$6.1 million, offset by \$8.0 million of interfund transfers for the Capital Improvements Fund, Zion Crossroads Water and Sewer Fund and the Sewer Fund. General Fund revenues saw an increase over the budgeted amount by \$2.9 million; mainly from general property taxes, revenue from use of money and miscellaneous sources. General Fund expenditures came in below budget by \$3.0 million; with \$302,853 in savings from General Government, \$295,669 from Judicial Administration, \$345,177 from Public Safety, \$510,383 from Public Works, \$261,987 from Education, \$328,250 from Community Development, and \$843,550 in Debt Service. As a measure of the General Fund's liquidity, it may be useful to compare unassigned fund balance to total General Fund revenues. Unassigned fund balance represents 39.0% of General Fund revenues for fiscal year 2025. The Board of Supervisors uses a policy to maintain unassigned General Fund balance at a minimum of 12% of the total General Fund revenues and component unit – school board operating revenues, reduced by the General Fund contribution. The unassigned fund balance policy minimum for June 30, 2025 is \$12.0 million and the unassigned General Fund balance exceeds this policy by \$14.6 million.

The fund balance in the Capital Projects Fund decreased by \$4.1 million, to a balance of \$700,000 for fiscal year 2025 due to reduction in nonspendable items and restricted funds.

### **Proprietary Funds**

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Operations of the proprietary funds were included in the discussion of business-type activities.

### **General Fund Budgetary Highlights**

General fund budget amendments resulted in a net increase of \$1,468,435 between the original budget and the final budget. Significant changes included:

- \$517,421 increase – Judicial Administration
  - Increase due to Drug Court Department
  - Increase due to Commonwealth Attorney salary and personnel cost adjustments
- \$591,322 – increase in Public Safety
  - Increase due to all Public Safety salary and personnel cost adjustments
- \$312,810 - increase in Community Development
  - Increase due to Economic Development Department project development agreement

## Capital Asset and Debt Administration

### Capital assets

The County's investment in capital assets as of June 30, 2025 totals \$90.2 million, net of accumulated depreciation. This represents an increase of \$100,000, or 1.0% above fiscal year 2024. Capital assets are illustrated in Table 3 below.

**Table 3**

## **Capital Asset and Debt Administration (Continued)**

### **Long-term debt (Continued)**

The County has adopted two debt ratios as a management tool. The first ratio adopted limits the annual general governmental debt service to no more than 12% of total General Fund revenues. In fiscal year 2025, the County's debt service to revenue ratio was 11.82%, which decreased from the previous fiscal year (Table 11). The second ratio is the net general obligation of debt to assessed value which should not exceed 3.5%. This ratio measures the relationship between County's tax-supported debts to the taxable value of property in the County. In fiscal year 2025, this ratio decreased 0.73%, to 1.29% (Table 11).

Additional information on the County's long-term obligations can be found in Note 7 of this report.

## **Economic Factors and Next Year's Budgets and Rates**

### **Economic Factors**

The annual local unemployment rate was 2.4% for calendar year 2024, which is a 0.1% decrease from 2.5% for calendar year 2023. The local unemployment rate compares favorably to the State's rate of 2.9% and national rate of 4.0% for calendar year 2024.

### **Fiscal Year 2026 Budget and Rates**

For the fiscal year ending June 30, 2026, the adopted total budget is \$117.8 million, an increase of \$10.3 million from fiscal year 2025. This increase over the previous fiscal year was primarily the result of the following:

- \$3.9 million increase for County operations
- \$1.5 million increase in County contributions for Education
- \$4.1 million increase in Capital Improvement Plan

For calendar year 2025, the real estate tax rate decreased from \$0.844 to \$0.750 per \$100 of assessed value.

Key factors that are expected to impact future budgets include:

- Continued gradual increases in assessed property values
- Options for new revenue sources and enhancing existing sources
- State mandates on the localities
- Economic Development opportunities for Zions Crossroads and the County as a whole
- Maintenance, repair and replacement of County government and school buildings
- Increases for Public Safety services, personnel, vehicles and equipment
- Providing competitive salary and benefits for County employees

## **Requests for Information**

This financial report is designed to provide a general overview of the County of Fluvanna, Virginia's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance, 132 Main Street, Fluvanna, Virginia 22963.

Detailed explanation of adjustments from fund statements to government-wide statement of net position:

|                                                                                                                                                                                                                                                                                                                             |                      |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|
| When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets among the assets of the County as a whole. | \$ 74,029,659        |
| The net OPEB asset is not an available resource and, therefore, is not reported in the funds.                                                                                                                                                                                                                               | 351,705              |
| The net pension asset is not an available resource and, therefore, is not reported in the funds.                                                                                                                                                                                                                            | 636,402              |
| Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due.                                                                                                                                                                                                       | (894,919)            |
| Because the focus of governmental funds is on short-term financing, some assets will not be available to pay current-period expenditures. Those assets (for example, receivables) are offset by unavailable revenues in the governmental funds and thus are not included in the fund balance.                               |                      |
| Unavailable revenue - property taxes                                                                                                                                                                                                                                                                                        | 5,166,091            |
| Unavailable revenue - opioid settlement                                                                                                                                                                                                                                                                                     | 273,069              |
| Deferred inflows - pension deferrals                                                                                                                                                                                                                                                                                        | (915,308)            |
| Deferred inflows - OPEB deferrals                                                                                                                                                                                                                                                                                           | (172,334)            |
| Deferred outflows - Pension deferrals                                                                                                                                                                                                                                                                                       | 2,171,167            |
| Deferred outflows - OPEB deferrals                                                                                                                                                                                                                                                                                          | 222,270              |
| Long-term liabilities applicable to the County's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities--both current and long-term--are reported in the statement of net position.                                                    | (57,460,904)         |
| Net position of General Government Activities                                                                                                                                                                                                                                                                               | <u>\$ 65,829,471</u> |

The accompanying notes to financial statements are an integral part of this statement.

Statement of Revenues, Expenditures and Changes in Fund Balances -  
Governmental Funds  
Year Ended June 30, 2025

The accompanying notes to financial statements are an integral part of this statement.

Reconciliation of Statement of Revenues, Expenditures and Changes in Fund Balances  
to the Statement of Activities - Governmental Funds  
For the Year Ended June 30, 2025

|                                                                                                                                                                                                                                                                                                                                                                   |                    | <b>Primary<br/>Government<br/>Governmental<br/>Funds</b> |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|----------------------------------------------------------|
| Amounts reported for governmental activities in the Statement of Activities are different because:                                                                                                                                                                                                                                                                |                    |                                                          |
| Net change in fund balances - total governmental funds                                                                                                                                                                                                                                                                                                            | \$                 | (6,069,411)                                              |
| Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period. The following details support this adjustment.          |                    |                                                          |
| Capital outlay                                                                                                                                                                                                                                                                                                                                                    | \$ 7,878,397       |                                                          |

| Net position - ending                                          | \$ 3,305,015                                    | \$ 289,030                           |

The notes to the financial statements are an integral part of this statement.

## COUNTY OF FLUVANNA, VIRGINIA

### Notes to Financial Statements At June 30, 2025

---

#### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

The County of Fluvanna, Virginia is governed by an elected five member Board of Supervisors. The Board of Supervisors is responsible for appointing the County Administrator. The County provides a full range of services for its citizens. These services include sheriff and volunteer fire protection, recreational activities, cultural events, education, and social services.

The financial statements of the County of Fluvanna, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

#### Government-wide and Fund Financial Statements

##### Government-wide Financial Statements

The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its components unit. For the most part, the effect of interfund activity has been removed from these statements. However, interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

##### Statement of Net Position

The Statement of Net Position is designed to display the financial position of the primary government (governmental and business-type activities) and its discretely presented component units. Governments report all capital assets in the government-wide Statement of Net Position and report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government is broken down into three categories: 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

##### Statement of Activities

The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)**

**Statement of Activities: (Continued)**

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

**Fund Financial Statements**

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**Budgetary Comparison Schedules**

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Governments provide budgetary comparison information in their annual reports, including the requirement to report the government's original budget in addition to the comparison of final budget and actual results.

**A. Financial Reporting Entity**

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Fluvanna, Virginia (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the government-wide financial statements to emphasize it is both legally and substantively separate from the government.

**B. Individual Component Unit Disclosures**

*Blended component Units:*

The County has no blended component units.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)**

**B. Individual Component Unit Disclosures: (Continued)**

*Discretely Presented Component Units:*

School Board: The School Board operates the County Public School System. Members are currently elected by popular vote. The School Board adopts an annual budget for the schools. The School Board submits an appropriation request to the Board of Supervisors. The Board of Supervisors can decline to fund the entire appropriation which they adopt (as modified) in the annual County Budget. A separate financial report for the School Board is not prepared.

Economic Development Authority: The Economic Development Authority of Fluvanna County, Virginia (the EDA) was established by the Fluvanna County Board of Supervisors pursuant to the Industrial Development and Revenue Bond Act (Chapter 33, Title 15.1, Code of Virginia of 1950, as amended) so that such authorities may be able to promote industry and develop trade in the Commonwealth. The County appoints the board members of the EDA. The County may significantly influence the fiscal affairs of the Authority. The EDA does not issue separate financial statements.

*Other Related Organizations included in the County's ACFR:* None

**C. Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of recognition in the financial statements of various kinds of transactions or events.

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)**

**C. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized when they have been earned and they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service principal and interest expenditures on general long-term debt, including lease liabilities, as well as expenditures related to compensated absences, claims and judgments, postemployment benefits, and environmental obligations are recognized later based on specific accounting rules applicable to each, generally when payment is due. General capital asset acquisitions, including entering into contracts giving the government the right to use lease assets, are reported as expenditures in the governmental funds. Issuance of long-term debt and financing through leases are reported as other financing sources.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)**

**C. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)**

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The government reports the following major governmental funds:

a. General Fund

The General Fund is the primary operating fund of the County. This fund is used to account for and report all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board.

b. Capital Projects Fund

The Capital Projects Fund (Capital Improvements) accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments.

2. Proprietary Funds

Proprietary Funds account for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is based upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of Enterprise Funds and Internal Service Funds.

Enterprise Funds

Enterprise Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Enterprise funds consist of Fork Union Sanitary District (F.U.S.D.), Sewer, Zion Crossroads Water and Sewer.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)**

**C. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)**

**3. Fiduciary Funds (Trust and Custodial Funds)**

Fiduciary Funds (Trust and Custodial Funds) account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Custodial Funds. These funds utilize the accrual basis of accounting. Fiduciary funds are not included in the government-wide financial statements. The County's only Custodial Fund is the Special Welfare Fund. The County's only Trust Fund is the Other Post Employment Benefits Fund.

**D. Budgets and Budgetary Accounting**

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain citizen comments.
3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
4. The Appropriations Resolution places legal restrictions on expenditures at the function level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; and the School Board is authorized to transfer budgeted amounts within the school system's categories.
5. Formal budgetary integration is employed as a management control device during the year for the General Fund and the Capital Project Fund. The School Fund is integrated only at the level of legal adoption.
6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
7. Appropriations lapse on June 30, for all County units.
8. All budgetary data presented in the accompanying financial statements is the original to the current comparison of the final budget and actual results.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)**

**E. Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government. For purposes of the statement of cash flows, the government’s proprietary funds consider their demand deposits and all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

**F. Investments**

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit, other nonparticipating investments, and external investment pools are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased are stated at fair value. Fair value is the price that would be received to sell an investment in an orderly transaction at year end. All other investments are stated at fair value which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents. Investments consist of assets held by a trustee. Bond proceeds are maintained to comply with the provisions of the Internal Revenue Tax Code and various bond indentures. Bond proceeds are deposited in the State Non-Arbitrage Program (SNAP). Values of shares in the SNAP reflect fair value. Lease proceeds are held in escrow and deposited in money market funds.

State statutes authorize the County government and the School Board to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the Local Government Investment Pool.

**G. Receivables and Payables**

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) All other outstanding balances between funds are reported as “advances to/from other funds.” (i.e. the noncurrent portion of interfund loans).

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$420,579 at June 30, 2025 and is comprised of the following:

|                              |    |                |
|------------------------------|----|----------------|
| Fork Union Sanitary District | \$ | 11,131         |
| Sewer                        |    | 3,884          |
| Property Taxes               |    | 405,564        |
| Total                        | \$ | <u>420,579</u> |

**Property Tax Calendar**

The County collects real and personal property taxes semiannually. Real and personal property taxes are levied as of January 1 for a calendar year and are due on June 5 and December 5; penalties and interest accrue on all unpaid balances as of these dates. Unpaid real and personal property taxes constitute a lien against the property as of the due date of the tax. The County bills and collects its own property taxes.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)**

**H. Prepaid Items**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The County records prepaids using the consumption method.

**I. Capital Assets**

Capital assets, which include property, plant and equipment, and infrastructure are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, road registered vehicles, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of five years. Such assets are recorded at historical cost (except for intangible right-to-use lease assets, the measurement of which is discussed in more detail below) or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset’s life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment and infrastructure of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives:

| <u>Assets</u>          | <u>Years</u> |
|------------------------|--------------|
| Buildings              | 40 to 50     |
| Building improvements  | 30 to 40     |
| Vehicles and equipment | 5 to 10      |
| Lease equipment        | 5 to 10      |
| Water and sewer system | 20 to 50     |
| Buses                  | 12           |

**J. Compensated Absences**

The County recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled (for example paid in cash to the employee or payment to an employee flex spending account) during or upon separation from employment. Based on the criteria listed, two types of leave qualify for liability recognition for compensated absences – vacation and sick leave. The liability for compensated absences includes salary related benefits, where applicable.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)**

**J. Compensated Absences: (Continued)**

Vacation - All County and School Board full-time employees earn annual leave based on years of service. Accumulated annual leave vests immediately. County and School Board employees are paid for unused annual leave, at their normal rate of pay, at termination. Annual leave termination payments are limited only by maximum accumulation policies.

Sick - All County and School Board Component Unit full-time employees also earn eight hours of sick leave per month. Maximum accumulation is unlimited. Employees of the County are entitled to the lesser of 100% of accrued sick leave or \$5,000 upon termination providing the employee has 5 years of service. Employees of the Department of Social Services are entitled to the lesser of 25% of accrued sick leave or \$5,000 upon termination providing the employee has 5 years of service. Employees of the School Board are entitled to the lesser of 25% of accrued sick leave or \$10,000 upon termination providing the employee has 25 years of service. However, a liability for estimated value of sick leave that will be used by employees as time off was considered in the liability for compensated absences.

**K. Long-term Obligations**

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, during the current period. The face amount of debt issued, and premiums are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

**L. Fund Balances**

Financial Policies

The Board of Supervisors meets on a monthly basis to manage and review cash financial activities and to ensure compliance with established policies. It is the County's policy to fund current expenditures with current revenues and the County's mission is to strive to maintain a diversified and stable revenue stream to protect the government from problematic fluctuations in any single revenue source and provide stability to ongoing services. The County's unassigned General Fund balance will be maintained to provide the County with sufficient working capital and a margin of safety to address local and regional emergencies without borrowing.

Fund balances are required to be reported according to the following classifications:

Nonspendable fund balance – amounts that are either not in spendable form (such as inventory and prepaids) or are legally or contractually required to be maintained intact (corpus of a permanent fund);

Restricted fund balance – Constraints placed on the use of these resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors or other governments; or are imposed by law (through constitutional provisions or enabling legislation).

Committed fund balance – Amounts that can only be used for specific purposes because of a formal action (resolution) by the government's highest level of decision-making authority.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)****L. Fund Balances: (Continued)**Financial Policies: (Continued)

Assigned fund balance – Amounts that are constrained by the County’s intent to be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body, another body (such as a Finance Committee), or by an official to whom that authority has been given. With the exception of the General Fund, this is the residual fund balance classification for all governmental funds with positive balances.

Unassigned fund balance – This is the residual classification of the General Fund. Only the General Fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification, as the result of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When fund balance resources are available for a specific purpose in more than one classification, it is the County’s policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the County’s highest level of decision-making authority. The Board of Supervisors is the highest level of decision-making authority for the County that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as committed. The Board of Supervisors may also assign fund balance as it does through the adoption or amendment of the budget as intended for specific purposes. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment. Please see details of County’s Fund Balances on the following page.

| Category                                        | General Fund     | Capital Projects Fund | Component Unit School Board |
|-------------------------------------------------|------------------|-----------------------|-----------------------------|
| <b>Restricted:</b>                              |                  |                       |                             |
| Unexpended Bond Proceeds - VPSA 2021            | \$ -             | \$ 1,089,507          | \$ -                        |
| Unexpended Note Proceeds - JPM 2021             | -                | -                     | -                           |

**M. Net Position**

For government-wide reporting as well as in proprietary funds, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called net position. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

- Net investment in capital assets consists of capital assets, net of accumulated depreciation/ amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.
- Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Assets are reported as restricted when constraints are placed on asset use either by external parties or by law through constitutional provision or enabling legislation.
- Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two preceding categories.

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County’s policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

**N. Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)**

**O. Component Unit – School Board Capital Asset and Debt Presentation**

By law, the School Board does not have taxing authority and, therefore, it cannot incur debt through general obligation bonds to fund the acquisition, construction or improvement of its capital assets. That responsibility lies with the County who issues the debt on behalf of the School Board. However, the Code of Virginia requires the School Board to hold title to the capital assets (buildings and equipment) due to their responsibility for maintaining the asset.

In the Statement of Net Position, this scenario presents a dilemma for the County. Debt issued on behalf of the School Board is reported as a liability of the primary government, thereby reducing the net position of the County. The corresponding capital assets are reported as assets of the Component Unit-School Board (title holder), thereby increasing its net position.

The Virginia General Assembly amended the Code of Virginia to allow a tenancy in common with the School Board whenever the locality incurs a financial obligation which is payable over more than one fiscal year for any school property. The tenancy in common terminates when the associated debt has been paid in full. For financial reporting purposes, the legislation permits the locality to report the portion of the school property related to any outstanding financial obligation, thus eliminating a potential deficit from financing capital assets with debt.

**P. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has multiple items that qualify for reporting in this category. One item is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding resulted from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other item is comprised of certain items related to pension and OPEB. For more detailed information on these items, reference the related notes.

In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. Deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has multiple items that qualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30, 2nd half installments levied during the fiscal year but due after June 30th and amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, 2nd half installments levied during the fiscal year but due after June 30th and amounts prepaid on the 2nd half installments are reported as deferred inflows of resources. In addition, certain items related to pension, OPEB, opioid settlement, and leases are reported as deferred inflows of resources. For more detailed information on these items, reference the related notes.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)**

**Q. Pensions**

For purposes of measuring the net pension asset or liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's and School Board's Retirement Plan and the additions to/deductions from the County's School Board's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**R. Other Postemployment Benefits (OPEB)**

For purposes of measuring the net VRS related OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to the OPEB, and OPEB expense, information about the fiduciary net position of the VRS GLI, HIC, and Teacher HIC OPEB Plans and the additions to/deductions from the VRS OPEB Plans' net fiduciary position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**S. Leases**

The County leases various assets requiring recognition. A lease is a contract that conveys control of the right to use another entity's nonfinancial asset. Lease recognition does not apply to short-term leases, contracts that transfer ownership, leases of assets that are investments, or certain regulated leases.

*Lessor*

The County recognizes leases receivable and deferred inflows of resources in the government-wide and governmental fund financial statements. At commencement of the lease, the lease receivable is measured at the present value of lease payments expected to be received during the lease term, reduced by any provision for estimated uncollectible amounts. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is measured at the initial amount of the lease receivable, less lease payments received from the lessee at or before the commencement of the lease term (less any lease incentives). Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

*Lessee*

The County recognizes lease liabilities and intangible right-to-use lease assets (lease assets) with an initial value of \$5,000, individually or in the aggregate, in the government-wide financial statements. At the commencement of the lease, the lease liability is measured at the present value of payments expected to be made during the lease term (less any lease incentives). Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is measured at the initial amount of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. Subsequently, the lease asset is amortized over the shorter of the lease term or the useful life of the underlying asset.

*Key Estimates and Judgements*

Lease accounting includes estimates and judgments for determining the (1) rate used to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)**

**S. Leases: (Continued)**

*Key Estimates and Judgments (Continued)*

- The County uses the interest rate stated in lease contracts. When the interest rate is not provided or the implicit rate cannot be readily determined, the County uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease and certain periods covered by options to extend to reflect how long the lease is expected to be in effect, with terms and conditions varying by the type of underlying asset.
- Fixed and certain variable payments as well as lease incentives and certain other payments are included in the measurement of the lease liability (lessee) or lease receivable (lessor).

The County monitors changes in circumstances that would require a remeasurement or modification of its leases. The County will remeasure the lease receivable and deferred inflows of resources (lessor) or the lease asset and liability (lessee) if certain changes occur that are expected to significantly affect the amount of the lease liability or lease receivable.

**NOTE 2 – DEPOSITS AND INVESTMENTS:**

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the “Act”), Section 2.2-4400 et. Seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper that has received at least two of the following ratings: P-1 by Moody’s Investors Service, Inc.; A-1 by Standard & Poor’s; or F1 by Fitch Ratings, Inc. (Section 2.2-4502), banker’s acceptances, repurchase agreements, and the State Treasurer’s Local Government Investment Pool (LGIP).

Credit Risk of Debt Securities

The County limits the investment of funds in Debt Securities to those with credit ratings of at least Aa3/AA-.

| Total                                   | <u>\$ 39,177,541</u> | <u>\$ 38,652,876</u>    | <u>\$ 524,665</u>  |

#### **Custodial Credit Risk**

The County's investments are all insured, registered in the County's name and held in an account in the County's name, or invested in an external investment pool.

#### **Fair Value Measurements:**

Fair value of the Virginia Investment Pool is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The County has measured the fair value of the above investments at the net asset value (NAV). There are no withdrawal limitations or restrictions imposed on participants.

#### **External Investment Pool:**

The fair values of the positions in the SNAP are the same as the value of the pool shares. As these pools are not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. SNAP is amortized cost basis portfolios. There are no withdrawal limitations or restrictions imposed on participants.

**Tenancy in Common** – State legislation enacted in 2002, Section 15.2-1800.1 of the Code of Virginia, (1950), as amended, granted the County a tenancy in common with the School Board when the County incurs a financial obligation for school property which is payable over more than one fiscal year. For financial reporting purposes, the net book value of School capital assets financed by the County guaranteed debt is shown under the County up to the amount of outstanding debt. At June 30, 2025, the School component unit capital assets financed by the outstanding County guaranteed debt with a book value of \$44,442,295 were reported in the Primary Government as tenant in common with the School Board.

### Direct Borrowings and Placements

In the event of default for any general obligation bond, the Commonwealth of Virginia may withhold state aid from the locality until such time that the event of default is cured in accordance with Section 15.2-2659 of the Code of Virginia, 1950 as amended.

Revenue bonds totaling \$14,045,201 contain a provision that, in the event of default, the Lender may declare the entire unpaid principal and interest on the issuance as due and payable.

### USDA Revenue Bond

Under the terms of the USDA Revenue Bonds, the County is required to establish a reserve equal to 10% of the monthly installments of principal and interest until an amount equal to twelve monthly installments has been established. The funds are not required to be held in a separate bank account. The County has established this reserve and has a balance of \$59,520. The reserve had been reflected as restricted fund balance in the General Fund in the accompanying financial statements.

**NOTE 9 - PENSION PLAN:**

All full-time, salaried permanent employees of the County and (nonprofessional) employees of public school divisions are automatically covered by a VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

***Benefit Structures***

The System administers three different benefit structures for covered employees – Plan 1, Plan 2 and Hybrid. Each of these benefit structures has different eligibility criteria, as detailed below.

- a. Employees hired before July 1, 2010, vested as of January 1, 2013, and have not taken a refund, are covered under Plan 1, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced retirement benefit beginning at age 65 with at least 5 years of service credit or age 50 with at least 30 years of service credit. Non-hazardous duty employees may retire with a reduced benefit as early as age 55 with at least 5 years of service credit or age 50 with at least 10 years of service credit. Hazardous duty employees (law enforcement officers, firefighters, and sheriffs) are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- b. Employees with a membership date from July 1, 2010 to December 31, 2013, that have not taken a refund or employees with a membership date prior to July 1, 2010 and not vested before January 1, 2013, are covered under Plan 2, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit or when the sum of their age plus service credit equals 90. Non-hazardous duty employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. a. Hazardous duty employees are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- c. Non-hazardous duty employees with a membership date on or after January 1, 2014 are covered by the Hybrid Plan combining the features of a defined benefit plan and a defined contribution plan. Plan 1 and Plan 2 members also had the option of opting into this plan during the election window held January 1 – April 30, 2014 with an effective date of July 1, 2014. Employees covered by this plan are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit, or when the sum of their age plus service credit equals 90. Employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. For the defined contribution component, members are eligible to receive distributions upon leaving employment, subject to restrictions.

**NOTE 9 - PENSION PLAN: (CONTINUED)*****Average Final Compensation and Service Retirement Multiplier***

The VRS defined benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the employee's average final compensation multiplied by the employee's total service credit. Under Plan 1, average final compensation is the average of the employee's 36 consecutive months of highest compensation and the multiplier is 1.70% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under Plan 2, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the retirement multiplier is 1.65% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under the Hybrid Plan, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the multiplier is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

***Cost-of-Living Adjustment (COLA) in Retirement and Death and Disability Benefits***

Retirees with an unreduced benefit or with a reduced benefit with at least 20 years of service credit are eligible for an annual COLA beginning July 1 after one full calendar year from the retirement date. Retirees with a reduced benefit and who have less than 20 years of service credit are eligible for an annual COLA beginning on July 1 after one calendar year following the unreduced retirement eligibility date. Under Plan 1, the COLA cannot exceed 5.00%. Under Plan 2 and the Hybrid Plan, the COLA cannot exceed 3.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

***Employees Covered by Benefit Terms***

As of the June 30, 2023 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

|                                                                      | <b>Primary<br/>Government</b> | <b>Component Unit<br/>School Board<br/>Nonprofessional</b> |
|----------------------------------------------------------------------|-------------------------------|------------------------------------------------------------|
| Inactive members or their beneficiaries currently receiving benefits | 115                           | 51                                                         |
| Inactive members:                                                    |                               |                                                            |
| Vested inactive members                                              | 53                            | 19                                                         |
| Non-vested inactive members                                          | 80                            | 54                                                         |
| Inactive members active elsewhere in VRS                             | 115                           | 36                                                         |
| Total inactive members                                               | 248                           | 109                                                        |
| Active members                                                       | 170                           | 81                                                         |
| Total covered employees                                              | 533                           | 241                                                        |

**NOTE 9 - PENSION PLAN: (CONTINUED)**

***Contributions***

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The County's contractually required contribution rate for the year ended June 30, 2025 was 9.18% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the County were \$1,127,468 and \$885,580 for the years ended June 30, 2025 and June 30, 2024, respectively.

The Component Unit School Board's contractually required contribution rate for nonprofessional employees for the year ended June 30, 2024 was 2.60% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Component Unit School Board's nonprofessional employees were \$79,389 and \$49,915 for the years ended June 30, 2025 and June 30, 2024, respectively.

The defined contributions component of the Hybrid plan includes member and employer mandatory and voluntary contributions. The Hybrid plan member must contribute a mandatory rate of 1% of their covered payroll. The employer must also contribute a mandatory rate of 1% of this covered payroll, which totaled \$51,510 and \$17,376 for the County and School Board, respectively, for the year ended June 30, 2025. Hybrid plan members may also elect to contribute an additional voluntary rate of up to 4% of their covered payroll; which would require the employer a mandatory additional contribution rate of up to 2.5%. This additional employer mandatory contribution totaled \$53,101 and \$14,680 for the County and School Board, respectively, for the year ended June 30, 2025. The total Hybrid plan participant covered payroll totaled \$5,151,042 and \$1,737,626 for the County and School Board, respectively, for the year ended June 30, 2025.

***Net Pension Liability (Asset)***

The net pension liability (asset) (NPA) is calculated separately for each employer and represents that employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. The County's and Component Unit School Board's (nonprofessional) net pension liability/asset were measured as of June 30, 2024. The total pension liabilities used to calculate the net pension liability/asset were determined by an actuarial valuation performed as of June 30, 2023, and rolled forward to the measurement date of June 30, 2024.

**NOTE 9 - PENSION PLAN: (CONTINUED)**

***Actuarial Assumptions – General Employees***

The total pension liability for General Employees in the County’s and Component Unit School Board’s (nonprofessional) Retirement Plan was based on an actuarial valuation as of June 30, 2023 using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

|                                       |                                                                     |
|---------------------------------------|---------------------------------------------------------------------|
| Inflation                             | 2.50%                                                               |
| Salary increases, including inflation | 3.50% – 5.35%                                                       |
| Investment rate of return             | 6.75%, net of pension plan investment expenses, including inflation |

***Actuarial Assumptions – Public Safety Employees with Hazardous Duty Benefits***

The total pension liability for Public Safety employees with Hazardous Duty Benefits in the County’s Retirement Plan was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

|                                       |                                                                     |
|---------------------------------------|---------------------------------------------------------------------|
| Inflation                             | 2.50%                                                               |
| Salary increases, including inflation | 3.50% – 4.75%                                                       |
| Investment rate of return             | 6.75%, net of pension plan investment expenses, including inflation |

**NOTE 9 - PENSION PLAN: (CONTINUED)*****Long-Term Expected Rate of Return***

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| <b>Asset Class (Strategy)</b>         | <b>Long-Term<br/>Target<br/>Asset<br/>Allocation</b> | <b>Arithmetic<br/>Long-term<br/>Expected<br/>Rate of Return</b> | <b>Weighted<br/>Average<br/>Long-term<br/>Expected<br/>Rate of Return*</b> |
|---------------------------------------|------------------------------------------------------|-----------------------------------------------------------------|----------------------------------------------------------------------------|

| Expected arithmetic nominal return**  |                                                      |                                                                 | <u>7.07%</u>                                                               |

\*The above allocation provides a one-year expected return of 7.07% (includes 2.50% inflation assumption). However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.10%, including expected inflation of 2.50%.

\*\*On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75% which was roughly at the 45<sup>th</sup> percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements  
At June 30, 2025 (Continued)

**NOTE 9 - PENSION PLAN: (CONTINUED)**

**Discount Rate**

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. For the year ended June 30, 2024, the employer contribution rate was 100% of the actuarially determined employer contribution rate from the June 30, 2023 actuarial valuations. Through the fiscal year ended June 30, 2024, the rate contributed by the school division for the VRS Teacher Retirement Plan was subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 112% of the actuarially determined contribution rate. From July 1, 2024 on, participating employers and school divisions are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

***Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate***

The following presents the net pension liability (asset) of the County and Component Unit School Board (nonprofessional) using the discount rate of 6.75%, as well as what the County's and Component Unit School Board's (nonprofessional) net pension liability (asset) would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

|                                               | Rate         |                |                |
|-----------------------------------------------|--------------|----------------|----------------|
|                                               | (5.75%)      | (6.75%)        | (7.75%)        |
| County                                        |              |                |                |
| Net Pension Liability (Asset)                 | \$ 3,841,583 | \$ (636,402)   | \$ (4,293,429) |
| Component Unit School Board (nonprofessional) |              |                |                |
| Net Pension Liability (Asset)                 | \$ (56,357)  | \$ (1,153,230) | \$ (2,058,574) |

**NOTE 9 - PENSION PLAN: (CONTINUED)**

***Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

For the year ended June 30, 2025, the County and Component Unit School Board (nonprofessional) recognized pension expense of \$540,031 and (\$137,774), respectively. At June 30, 2025, the County and Component Unit School Board (nonprofessional) reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|                                                                                  | Primary Government             |                               | Component Unit School Board (nonprofessional) |                               |
|----------------------------------------------------------------------------------|--------------------------------|-------------------------------|-----------------------------------------------|-------------------------------|
|                                                                                  | Deferred Outflows of Resources | Deferred Inflows of Resources | Deferred Outflows of Resources                | Deferred Inflows of Resources |
| Differences between expected and actual experience                               | \$ 1,043,699                   | \$ -                          | \$ 132,370                                    | \$ 15,959                     |
| Change in assumptions                                                            | -                              | -                             | -                                             | -                             |
| Net difference between projected and actual earnings on pension plan investments | -                              | 915,308                       | -                                             | 263,242                       |
| Employer contributions subsequent to the measurement date                        | 1,127,468                      | -                             | 79,389                                        | -                             |
| Total                                                                            | <u>\$ 2,171,167</u>            | <u>\$ 915,308</u>             | <u>\$ 211,759</u>                             | <u>\$ 279,201</u>             |

\$1,127,468 and \$79,389 reported as deferred outflows of resources related to pensions resulting from the County's and Component Unit School Board's (nonprofessional) contributions, respectively, subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

| Year ended June 30 | Primary Government | Component Unit School Board (nonprofessional) |
|--------------------|--------------------|-----------------------------------------------|
| 2026               | \$ (154,238)       | \$ (138,989)                                  |
| 2027               | 665,371            | 100,351                                       |

| 2029               | (198,329)          | (56,225)                                      |
| 2030               | -                  | -                                             |
| Thereafter         | -                  | -                                             |

***Pension Plan Data***

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2024 Annual Comprehensive Financial Report (Annual Report). A copy of the 2024 VRS Annual Report may be downloaded from the VRS website at <https://www.varetire.org/pdf/publications/2024-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

**NOTE 9 - PENSION PLAN: (CONTINUED)**

**Component Unit School Board (professional)**

***Plan Description***

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Retirement Plan upon employment. This is a cost-sharing multiple employer plan administered by the Virginia Retirement System (the system). Additional information regarding the plan description can be found in the first section of this note.

***Contributions***

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Each school division's contractually required employer contribution rate for the year ended June 30, 2025 was 14.21% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the school division were \$3,596,499 and \$3,951,893 for the years ended June 30, 2025 and June 30, 2024, respectively.

The defined contributions component of the Hybrid plan includes member and employer mandatory and voluntary contributions. The Hybrid plan member must contribute a mandatory rate of 1% of their covered payroll. The employer must also contribute a mandatory rate of 1% of this covered payroll, which totaled \$110,802 for the year ended June 30, 2025. Hybrid plan members may also elect to contribute an additional voluntary rate of up to 4% of their covered payroll; which would require the employer a mandatory additional contribution rate of up to 2.5%. This additional employer mandatory contribution totaled \$143,864 for the year ended June 30, 2025. The total Hybrid plan participant covered payroll totaled \$11,080,244 for the year ended June 30, 2025.

In June 2023, the Commonwealth made a special contribution of approximately \$147.5 million to the VRS Teacher Retirement Plan. This special payment was authorized by Chapter 2 of the Acts of Assembly of 2022, Special Session I, as amended by Chapter 769, 2023 Acts of Assembly Reconvened Session, and is classified as a non-employer contribution. The school division's proportionate share is reflected in the operating grants and contributions section of Exhibit 2 in the financial statements.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

At June 30, 2025, the school division reported a liability of \$21,994,799 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2024 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation performed as of June 30, 2023, and rolled forward to the measurement date of June 30, 2024. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2024, relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2024, the school division's proportion was .23431% as compared to .22594% at June 30, 2023.

**NOTE 9 - PENSION PLAN: (CONTINUED)**

**Component Unit School Board (professional) (Continued)**

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)***

For the year ended June 30, 2025, the school division recognized pension expense of \$1,839,216. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions. Beginning with the June 30, 2022 measurement date, the difference between expected and actual contributions is included with the pension expense calculation.

At June 30, 2025, the school division reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|                                                                                                               | <u>Deferred Outflows<br/>of Resources</u> | <u>Deferred Inflows<br/>of Resources</u> |
|---------------------------------------------------------------------------------------------------------------|-------------------------------------------|------------------------------------------|
| Differences between expected and actual experience                                                            | \$ 3,815,788                              | \$ 452,888                               |
| Change in assumptions                                                                                         | 399,235                                   | -                                        |
| Net difference between projected and actual earnings on pension plan investments                              | -                                         | 3,027,598                                |
| Changes in proportion and differences between employer contributions and proportionate share of contributions | 646,691                                   | 618,833                                  |
| Employer contributions subsequent to the measurement date                                                     | <u>3,596,499</u>                          | <u>-</u>                                 |
| Total                                                                                                         | <u>\$ 8,458,213</u>                       | <u>\$ 4,099,319</u>                      |

\$3,596,499 reported as deferred outflows of resources related to pensions resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

| <u>Year ended June 30</u> |                |
|---------------------------|----------------|
| 2026                      | \$ (1,569,528) |
| 2027                      | 1,902,158      |
| 2028                      | 592,154        |
| 2029                      | (162,389)      |
| Thereafter                | -              |

***Actuarial Assumptions***

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

|                                       |                                                                     |
|---------------------------------------|---------------------------------------------------------------------|
| Inflation                             | 2.50%                                                               |
| Salary increases, including inflation | 3.50% – 5.95%                                                       |
| Investment rate of return             | 6.75%, net of pension plan investment expenses, including inflation |

Mortality rates:

Pre-Retirement:

Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males

Post-Retirement:

NOTE 9 - PENSION PLAN: (CONTINUED)

Component Unit School Board (professional) (Continued)

Actuarial Assumptions: (Continued)

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2021. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

|                                                                         |                                                                                                                                                                  |
|-------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020           |
| Retirement Rates                                                        | Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all |
| Withdrawal Rates                                                        | Adjusted rates to better fit experience at each age and service decrement through 9 years of service                                                             |
| Disability Rates                                                        | No change                                                                                                                                                        |
| Salary Scale                                                            | No change                                                                                                                                                        |
| Discount Rate                                                           | No change                                                                                                                                                        |

Net Pension Liability

The net pension liability (NPL) is calculated separately for each system and represents that particular system’s total pension liability determined in accordance with GASB Statement No. 67, less that system’s fiduciary net position. As of June 30, 2024, NPL amounts for the VRS Teacher Employee Retirement Plan is as follows (amounts expressed in thousands):

|                                                                               |    |                                             |
|-------------------------------------------------------------------------------|----|---------------------------------------------|
|                                                                               |    | <b>Teacher Employee<br/>Retirement Plan</b> |
| Total Pension Liability                                                       | \$ | 60,622,260                                  |
| Plan Fiduciary Net Position                                                   |    | 51,235,326                                  |
| Employer’s Net Pension Liability (Asset)                                      | \$ | 9,386,934                                   |
| Plan Fiduciary Net Position as a Percentage<br>of the Total Pension Liability |    | 84.52%                                      |

NOTE 9 - PENSION PLAN: (CONTINUED)

Component Unit School Board (professional) (Continued)

Net Pension Liability: (Continued)

The total pension liability is calculated by the System’s actuary, and each plan’s fiduciary net position is reported in the System’s financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System’s notes to the financial statements and required supplementary information.

Long-Term Expected Rate of Return

The long-term expected rate of return and discount rate information previously described also apply to this plan.

Sensitivity of the School Division’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the school division’s proportionate share of the net pension liability using the discount rate of 6.75%, as well as what the school division’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

|                                                                                                                 | Rate          |                  |              |
|-----------------------------------------------------------------------------------------------------------------|---------------|------------------|--------------|
|                                                                                                                 | 1% Decrease   | Current Discount | 1% Increase  |
|                                                                                                                 | (5.75%)       | (6.75%)          | (7.75%)      |
| School division's proportionate share of the VRS Teacher Employee Retirement Plan Net Pension Liability (Asset) | \$ 40,862,025 | \$ 21,994,799    | \$ 6,543,141 |

Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement Plan’s Fiduciary Net Position is available in the separately issued VRS 2024 Annual Comprehensive Financial Report (Annual Report). A copy of the 2024 VRS Annual Report may be downloaded from the VRS website at <http://www.varetire.org/pdf/publications/2024-annual-report.pdf>, or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

**NOTE 10 - COMPENSATED ABSENCES:**

The County has accrued the liability arising from outstanding claims and judgments and compensated absences.

The County employees earn vacation and sick leave based on years of service at the rate of eight hours per month for each full-time employee with less than 5 years of service. Twenty-five percent of the unused sick leave or \$2,500 for County or \$5,000 for Social Services, whichever is less, will be paid to an employee who leaves county employment after five or more years of service. Accumulated vacation is paid upon termination based on length of employment as defined in the County's personnel policy. The County has accrued vacation and sick leave pay as follows:

|                             |              |
|-----------------------------|--------------|
| Governmental Activities     | \$ 1,469,818 |
| Component Unit School Board | \$ 5,423,567 |

**NOTE 11 - SELF INSURANCE/RISK MANAGEMENT:**

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County contracts with the Virginia Association of Counties Municipal Liability Pool to provide insurance coverage for these risk losses. The County pays an annual premium to the association for its general workers compensation insurance coverage. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County continues to carry commercial insurance for all other risks of loss, including general liabilities and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

**NOTE 12 - DEFERRED/UNAVAILABLE/UNEARNED REVENUE:**

Deferred revenue /unavailable revenue represent amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Under the accrual basis, assessments for future periods are deferred.

|                                                                                                                                                                                                                            | <b>Government-wide<br/>Statements<br/>Governmental<br/>Activities</b> | <b>Balance<br/>Sheet<br/>Governmental<br/>Funds</b> |

**NOTE 13 - CONTINGENT LIABILITIES:**

Federal assistance programs in which the County and its component units participate were audited in accordance with the provisions of the Uniform Guidance. Pursuant to the above provisions, major and nonmajor programs were tested for compliance with applicable grant requirements. While there are no items of noncompliance, as noted in the compliance report, the federal government may subject grant programs to additional compliance testing which may result in disallowances of current grant program expenditures. However, management believes that if any of these expenditures were disallowed it would be immaterial to the overall general-purpose financial statements.

**NOTE 14 - LITIGATION:**

At June 30, 2025, there were no matters of litigation involving the County which would materially affect the County’s financial position should any court decisions on pending matters not be favorable to the County.

**NOTE 15 - LANDFILL CLOSURE AND POSTCLOSURE CARE COST:**

The County of Fluvanna, Virginia owns and operates a landfill site. State and federal laws and regulations require the County to place a final cover on each phase of its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste. The County reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. The \$508,860 reported as a landfill closure and postclosure care liability at June 30, 2025, represents the cumulative amount reported based on the use of 100% of the estimated capacity used of the landfill. The County has closed the landfill. These amounts are based on what it would cost to perform all closures and postclosure care in 2026. Actual closure and postclosure care costs may be higher due to inflation, changes in technology, or changes in regulations.

The County has demonstrated financial assurance requirements for closure and postclosure care and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

The County plans to meet all federal laws, regulations and tests of financial assurance related to the financing of closure and postclosure care when they become effective.

**NOTE 16 - SURETY BONDS:**

Fidelity and Deposit Company of Maryland - Surety:

|                                                 |            |

**NOTE 17 - MEDICAL, DENTAL, AND LIFE INSURANCE (OPEB PLAN):**

**County and School Board**

***Plan Description***

The County Post-Retirement Medical Plan (CPRMP) is a single-employer defined benefit healthcare plan which offers health insurance for retired employees. Retirees are eligible for postretirement medical coverage if they are a full-time employee who retires directly from the County and is eligible for retirement from VRS. The County's post-retirement medical plan does not issue a separate, audited GAAP basis report.

The School Board Post-Retirement Medical Plan (SBPRMP) is a single-employer defined benefit healthcare plan which offers health insurance for retired employees. Retirees are eligible for postretirement medical coverage if they are a full-time employee who retires directly from the County and is eligible for retirement from VRS. The School Board's Post-Retirement Medical Plan does not issue a separate, audited GAAP basis report.

Management of the CPRMP is vested in the County Finance Board, which consists of three members-the Chairman of the Board of Supervisors, the County Treasurer, and a Citizen of the County of proven integrity and business ability appointed by the current Court of the County.

***Benefits Provided***

The County of Fluvanna has established an irrevocable trust pursuant to Section 15.2-1544 of the Code of Virginia, as amended for the purpose of accumulated and investing assets to fund Other Postemployment Benefits (OPEB) and to participate in the Virginia Pooled OPEB Trust Fund and has established a Local Finance Board to become a Participating Employer in the Trust Fund. The Trust Fund provides administrative, custodial and investment services to the Participating Employers in the Trust Fund. The County participates in the Virginia Pooled OPEB Trust Fund, an irrevocable trust established for the purpose of accumulating assets to fund postemployment benefits other than pensions. The Trust Fund issues a separate report, which can be obtained by requesting a copy from the plan administrator, Virginia Municipal League (VML) at P.O. Box 12164, Richmond, Virginia 23241.

Postemployment benefits are provided to eligible retirees include Medical, Dental, and Life insurance. The benefits that are provided for active employees are the same for eligible retirees, spouses and dependents of eligible retirees. All permanent employees of the County who meet eligibility requirements of the pension plan are eligible to receive postemployment health care benefits. Retirees pay 100% of premiums. Coverage ceases when retirees reach the age of 65. Surviving spouses are not allowed access to the plan.

Postemployment benefits are provided to eligible retirees include Medical, Dental, and Life insurance. The benefits that are provided for active employees are the same for eligible retirees, spouses and dependents of eligible retirees. The School Board Post-Retirement Medical Plan (SBPRMP) is a single-employer defined benefit healthcare plan which offers health insurance for retired employees. Retirees are eligible for postretirement medical coverage if they are a full-time employee who retires directly from the School Board and is eligible for retirement from VRS.

**NOTE 17 - MEDICAL, DENTAL, AND LIFE INSURANCE (OPEB PLAN): (CONTINUED)**

**County and School Board: (Continued)**

***Plan Membership***

At June 30, 2025 (measurement date), the following employees were covered by the benefit terms:

|                                      | <b>Primary<br/>Government</b> | <b>School<br/>Board</b> |
|--------------------------------------|-------------------------------|-------------------------|
| Total active employees with coverage | 168                           | 498                     |
| Total retirees with coverage         | -                             | 10                      |
| Total                                | 168                           | 508                     |

Chapter 2 of the County Code grants the authority to establish and amend the contribution requirements of the County and plan members to the County Finance Board. The Board establishes rates based on an actuarially determined rate. For the year ended June 30, 2025, the County and School Board's average contribution rate was 0.33% percent of covered-employee payroll. For the year ended June 30, 2025 the County and School Board contributed \$6,852 and \$2,034, respectively, to the Plan. Plan members are not required to contribute to the plan.

***Investment Policy***

The County and School Board’s policy in regard to the allocation of invested assets is established and may be amended by the County Finance Board by a majority vote of its members. It is the policy of the County Finance Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. FCRBP's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2025:

| <b>Asset Class</b>          | <b>Target Percentage</b> |
|-----------------------------|--------------------------|
| Core Fixed Income           | 20.00%                   |
| Large Cap US Equities       | 21.00%                   |
| Small Cap US Equities       | 10.00%                   |
| Developed Foreign Equities  | 13.00%                   |
| Emerging Market Equities    | 5.00%                    |
| Real Estate (REITS)         | 15.00%                   |
| Hedge Funds/Absolute Return | 6.00%                    |
| Private Equity              | 10.00%                   |
| Total                       | 100.00%                  |

**NOTE 17 - MEDICAL, DENTAL, AND LIFE INSURANCE (OPEB PLAN): (CONTINUED)**

**County and School Board: (Continued)**

***Rate of Return***

For the year ended June 30, 2025, the annual money-weighted rate of return on investments, net of investment expense, was 8.84 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

***Schedule of Investment Returns***

| <b>Annual Money-Weighted Rate of Return<br/>Net of Investment Expense</b> |        |
|---------------------------------------------------------------------------|--------|
| 6/30/2017                                                                 | 12.89% |
| 6/30/2018                                                                 | 9.58%  |

| 6/30/2020                                                                 | 3.06%  |
| 6/30/2021                                                                 | 30.08% |
| 6/30/2022                                                                 | -9.23% |
| 6/30/2023                                                                 | 7.63%  |
| 6/30/2024                                                                 | 9.48%  |
| 6/30/2025                                                                 | 8.84%  |

*The chart is intended to show information for 10 years. More data will be added as it becomes available.*

***Net/Total OPEB Liability***

The County and School Board’s net OPEB liability was measured as of June 30, 2025. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of July 1, 2023.

***Actuarial Assumptions***

The total OPEB liability in the July 1, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

|                           |           |
|---------------------------|-----------|
| Inflation                 | 2.50%     |
| Salary Increases          | No change |
| Discount Rate             | 6.50%     |
| Investment Rate of Return | 6.50%     |

Mortality rates were based on the RP-2000 Healthy Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

**NOTE 17 - MEDICAL, DENTAL, AND LIFE INSURANCE (OPEB PLAN): (CONTINUED)**

**County and School Board: (Continued)**

The actuarial assumptions used in the June 30, 2025 valuation report were based on the results of an actuarial experience study with valuation date of July 1, 2023.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, 2025 (see the discussion of FCRBP's investment policy) are summarized in the following table:

| <b>Asset Class</b>                       | <b>Long-Term Expected<br/>Geometric Real Rate<br/>of Return</b> |
|------------------------------------------|-----------------------------------------------------------------|
| Core Fixed Income                        | 2.20%                                                           |
| Large Cap US Equities                    | 3.78%                                                           |
| Small Cap US Equities                    | 4.22%                                                           |
| Developed Foreign Equities               | 4.79%                                                           |
| Emerging Market Equities                 | 5.73%                                                           |
| Real Estate (REITS)                      | 4.57%                                                           |
| Private Equity                           | 6.22%                                                           |
| Hedge Fund of Funds                      | 1.95%                                                           |
| Assumed Inflation - mean                 | 2.28%                                                           |
| Assumed Inflation - standard deviation   | 1.47%                                                           |
| Portfolio Real Mean Return               | 4.74%                                                           |
| Portfolio Nominal Mean Return            | 7.13%                                                           |
| Portfolio Standard Deviation             | 13.32%                                                          |
| <b>Long-Term Expected Rate of Return</b> | <b>6.50%</b>                                                    |

***Discount Rate***

*Discount rate.* The discount rate used to measure the total OPEB liability was 6.50 percent. The projection of cash flows used to determine the discount rate assumed that County contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

The SBPRMP's Plan Fiduciary net position was 135.18% of the total OPEB liability.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements  
At June 30, 2025 (Continued)

**NOTE 17 - MEDICAL, DENTAL, AND LIFE INSURANCE (OPEB PLAN): (CONTINUED)**

**County and School Board: (Continued)**

***Sensitivity of the Net OPEB Liability (Asset) to Changes in the Discount Rate***

The following amounts present the net OPEB liability (*asset*) of the County and School Board, as well as what the net OPEB liability (*asset*) would be if it were calculated using a discount rate that is one percentage point lower (5.50%) or one percentage point higher (7.50%) than the current discount rate:

|                    | Rate                   |                                  |                        |
|--------------------|------------------------|----------------------------------|------------------------|
|                    | 1% Decrease<br>(5.50%) | Current Discount<br>Rate (6.50%) | 1% Increase<br>(7.50%) |
| Primary Government | \$ (256,115)           | \$ (290,631)                     | \$ (321,295)           |
| School Board       | \$ (641,986)           | \$ (770,159)                     | \$ (889,650)           |

***Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates***

The following presents the net OPEB liability (*asset*) of the County and School Board, as well as what the net OPEB liability (*asset*) would be if it were calculated using healthcare cost trend rates that are one percentage point lower (5.30%) or one percentage point higher (7.30%) than the current healthcare cost trend rates:

|                    | Rates                  |                                  |                        |
|--------------------|------------------------|----------------------------------|------------------------|
|                    | 1% Decrease<br>(5.30%) | Healthcare Cost Trend<br>(6.30%) | 1% Increase<br>(7.30%) |
| Primary Government | \$ (335,065)           | \$ (290,631)                     | \$ (238,393)           |
| School Board       | \$ (958,597)           | \$ (770,159)                     | \$ (554,663)           |

***OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources***

For the year ended June 30, 2025, the County and School Board recognized OPEB expense in the amount of (\$24,326) and \$29,882, respectively. At June 30, 2025, the County and School Board reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|                                                                               | Primary Government                   |                                     | School Board                         |                                     |
|-------------------------------------------------------------------------------|--------------------------------------|-------------------------------------|--------------------------------------|-------------------------------------|

| 2030                      | -                             | (8,149)                 |
| Thereafter                | -                             | -                       |

Additional disclosures on changes in net OPEB liability (*asset*), related ratios, and employer contributions can be found in the required supplementary information following the notes to the financial statements.

**NOTE 18 - HEALTH INSURANCE CREDIT (HIC) PLAN:**

***Plan Description***

The Political Subdivision Health Insurance Credit (HIC) Plan was established pursuant to §51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of participating political subdivisions are automatically covered by the VRS Political Subdivision HIC Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The HIC is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree’s death.

The specific information about the Political Subdivision HIC Plan OPEB, including eligibility, coverage and benefits is described below:

**NOTE 18 - HEALTH INSURANCE CREDIT (HIC) PLAN: (CONTINUED)**

***Eligible Employees***

The Political Subdivision Retiree HIC Plan was established July 1, 1993 for retired political subdivision employees of employers who elect the benefit and retire with at least 15 years of service credit. Eligible employees include full-time permanent salaried employees of the participating political subdivision who are covered under the VRS pension plan. These employees are enrolled automatically upon employment.

***Benefit Amounts***

The Political Subdivision Retiree HIC Plan is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired political subdivision employees of participating employers. For employees who retire, the monthly benefit is \$1.50 per year of service per month with a maximum benefit of \$45.00 per month. For employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is \$45.00 per month.

***HIC Plan Notes***

The monthly HIC benefit cannot exceed the individual premium amount. There is no HIC for premiums paid and qualified under LODA; however, the employee may receive the credit for premiums paid for other qualified health plans. Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the HIC as a retiree.

***Employees Covered by Benefit Terms***

As of the June 30, 2023 actuarial valuation, the following employees were covered by the benefit terms of the HIC OPEB plan:

|                                                                      | <u>Primary<br/>Government</u> | <u>Component Unit<br/>School Board<br/>Nonprofessional</u> |
|----------------------------------------------------------------------|-------------------------------|------------------------------------------------------------|
| Inactive members or their beneficiaries currently receiving benefits | <u>64</u>                     | <u>46</u>                                                  |
| Inactive members:                                                    |                               |                                                            |

**NOTE 18 - HEALTH INSURANCE CREDIT (HIC) PLAN: (CONTINUED)**

***Contributions***

The contribution requirements for active employees is governed by §51.1-1402(E) of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. The County’s contractually required employer contribution rate for the year ended June 30, 2024 was 0% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the County to the Health Insurance Credit Plan were \$0 and \$5,068 for the years ended June 30, 2025 and June 30, 2024, respectively. The School Board’s contractually required contribution rate for the year ended June 30, 2024 was 0.90% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the School Board to the Health Insurance Credit Plan were \$27,481 and \$27,750 for the years ended June 30, 2024 and June 30, 2023, respectively.

***Net HIC OPEB Liability***

The County’s net Health Insurance Credit OPEB liability was measured as of June 30, 2024. The total Health Insurance Credit OPEB liability was determined by an actuarial valuation performed as of June 30, 2023, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

***Actuarial Assumptions***

The total HIC OPEB liability was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

|                                        |                                                           |
|----------------------------------------|-----------------------------------------------------------|
| Inflation                              | 2.50%                                                     |
| Salary increases, including inflation: |                                                           |
| Locality - General employees           | 3.50%-5.35%                                               |
| Locality - Hazardous Duty employees    | 3.50%-4.75%                                               |
| Investment rate of return              | 6.75%, net of investment expenses,<br>including inflation |

**NOTE 18 - HEALTH INSURANCE CREDIT (HIC) PLAN: (CONTINUED)*****Long-Term Expected Rate of Return***

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| <b>Asset Class (Strategy)</b>         | <b>Long-term<br/>Target<br/>Asset<br/>Allocation</b> | <b>Arithmetic<br/>Long-term<br/>Expected<br/>Rate of Return</b> | <b>Weighted<br/>Average<br/>Long-term<br/>Expected<br/>Rate of Return*</b> |
|---------------------------------------|------------------------------------------------------|-----------------------------------------------------------------|----------------------------------------------------------------------------|
| Public Equity                         | 32.00%                                               | 6.70%                                                           | 2.14%                                                                      |
| Fixed Income                          | 16.00%                                               | 5.40%                                                           | 0.86%                                                                      |

| Expected arithmetic nominal return*   |                                                      |                                                                 | <u>7.07%</u>                                                               |

\*The above allocation provides a one-year return of 7.07% (includes 2.5% inflation assumption). However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.10%, including expected inflation of 2.50%.

\*\* On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75% which was roughly at the 45<sup>th</sup> percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

**NOTE 18 - HEALTH INSURANCE CREDIT (HIC) PLAN: (CONTINUED)**

**Discount Rate:**

The discount rate used to measure the total HIC OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ended June 30, 2024, the rate contributed by the entity for the HIC OPEB was 100% of the actuarially determined contribution rate. From July 1, 2024 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the HIC OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total HIC OPEB liability.

**Changes in Net HIC OPEB Liability (Asset)**

***Health Insurance Credit Plan Data***

Information about the VRS Political Subdivision HIC Plan is available in the separately issued VRS 2024 Annual Comprehensive Financial Report (Annual Report). A copy of the 2024 VRS Annual Report may be downloaded from the VRS website at <http://www.varetire.org/pdf/publications/2024-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

**NOTE 19 - TEACHER EMPLOYEE HEALTH INSURANCE CREDIT (HIC) PLAN (OPEB PLAN):**

***Plan Description***

The Virginia Retirement System (VRS) Teacher Employee Health Insurance Credit (HIC) Plan was established pursuant to §51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Employee HIC Plan. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The HIC is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information for the Teacher HIC OPEB, including eligibility, coverage, and benefits is described below:

***Eligible Employees***

The Teacher Employee Retiree HIC Plan was established July 1, 1993 for retired Teacher Employees covered under VRS who retire with at least 15 years of service credit. Eligible employees include full-time permanent (professional) salaried employees of public school divisions covered under VRS. These employees are enrolled automatically upon employment.

***Benefit Amounts***

The Teacher Employee HIC Plan is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired teachers. For Teacher and other professional school employees who retire with at least 15 years of service credit, the monthly benefit is \$4.00 per year of service per month with no cap on the benefit amount. For Teacher and other professional school employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is either: \$4.00 per month, multiplied by twice the amount of service credit, or \$4.00 per month, multiplied by the amount of service earned had the employee been active until age 60, whichever is lower.

***HIC Plan Notes***

The monthly HIC benefit cannot exceed the individual premium amount. Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the HIC as a retiree.

**NOTE 19 - TEACHER EMPLOYEE HEALTH INSURANCE CREDIT (HIC) PLAN (OPEB PLAN): (CONTINUED)**

***Contributions***

The contribution requirements for active employees are governed by §51.1-1401(E) of the Code of Virginia, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Each school division's contractually required employer contribution rate for the year ended June 30, 2025 was 1.21% of covered employee compensation for employees in the VRS Teacher Employee HIC Plan. This rate was the final approved General Assembly rate, which was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the school division to the VRS Teacher Employee HIC Plan were \$306,469 and \$301,340 for the years ended June 30, 2025 and June 30, 2024, respectively.

***Teacher Employee HIC OPEB Liabilities, Teacher Employee HIC OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Teacher Employee HIC Plan OPEB***

At June 30, 2025, the school division reported a liability of \$2,686,302 for its proportionate share of the VRS Teacher Employee HIC Net OPEB Liability. The Net VRS Teacher Employee HIC OPEB Liability was measured as of June 30, 2024 and the total VRS Teacher Employee HIC OPEB liability used to calculate the Net VRS Teacher Employee HIC OPEB Liability was determined by an actuarial valuation performed as of June 30, 2023 and rolled forward to the measurement date of June 30, 2024. The school division's proportion of the Net VRS Teacher Employee HIC OPEB Liability was based on the school division's actuarially determined employer contributions to the VRS Teacher Employee HIC OPEB plan for the year ended June 30, 2024, relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2024, the school division's proportion of the Net VRS Teacher Employee HIC OPEB Liability was based on the school division's actuarially determined employer contributions to the VRS Teacher Employee HIC OPEB plan for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2024, the school division's proportion of the VRS Teacher Employee HIC was 0.2345% as compared to 0.2253% at June 30, 2023.

For the year ended June 30, 2025, the school division recognized VRS Teacher Employee Health Insurance Credit Plan OPEB expense of \$205,034. Since there was a change in proportionate share between measurement dates, a portion of the VRS Teacher Employee HIC Net OPEB expense was related to deferred amounts from changes in proportionate share and differences between actual and expected contributions.

***Teacher Employee Health Insurance Credit Plan OPEB Liabilities, Teacher Employee Health Insurance Credit Plan OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Teacher Employee Health Insurance Credit Plan OPEB: (Continued)***

At June 30, 2025, the school division reported deferred outflows of resources and deferred inflows of resources related to the VRS Teacher Employee HIC Plan OPEB from the following sources:

|                                                                                           | <u>Deferred Outflows<br/>of Resources</u> | <u>Deferred Inflows<br/>of Resources</u> |
|-------------------------------------------------------------------------------------------|-------------------------------------------|------------------------------------------|
| Differences between expected and actual experience                                        | \$ -                                      | \$ 127,271                               |
| Net difference between projected and actual earnings on Teacher HIC OPEB plan investments | -                                         | -                                        |
| Change in assumptions                                                                     | 46,277                                    | 9,555                                    |
| Change in proportion                                                                      | 76,270                                    | 123,823                                  |
| Employer contributions subsequent to the measurement date                                 | <u>306,469</u>                            | <u>-</u>                                 |
| Total                                                                                     | \$ <u>429,016</u>                         | \$ <u>260,649</u>                        |

\$306,469 reported as deferred outflows of resources related to the Teacher Employee HIC OPEB resulting from the school division’s contributions subsequent to the measurement date will be recognized as a reduction of the Net Teacher Employee HIC OPEB Liability in the fiscal year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the Teacher Employee HIC OPEB will be recognized in the Teacher Employee HIC OPEB expense in future reporting periods as follows:

| <u>Year Ended June 30</u> |             |
|---------------------------|-------------|
| 2026                      | \$ (48,807) |
| 2027                      | (35,964)    |
| 2028                      | (35,283)    |
| 2029                      | (22,530)    |
| 2030                      | (1,671)     |
| Thereafter                | 6,153       |

**NOTE 19 - TEACHER EMPLOYEE HEALTH INSURANCE CREDIT (HIC) PLAN (OPEB PLAN): (CONTINUED)**

***Actuarial Assumptions***

The total Teacher Employee HIC OPEB liability for the VRS Teacher Employee HIC Plan was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

|                                                             |                                                           |
|-------------------------------------------------------------|-----------------------------------------------------------|
| Inflation                                                   | 2.50%                                                     |
| Salary increases, including inflation:<br>Teacher employees | 3.50%-5.95%                                               |
| Investment rate of return                                   | 6.75%, net of investment expenses,<br>including inflation |

**Mortality Rates – Teachers**

- Pre-Retirement:
  - Pub-2010 Amount Weighted Teacher Employee Rates projected generationally; 110% of rates for males
- Post-Retirement:
  - Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females
- Post-Disablement:
  - Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females
- Beneficiaries and Survivors:
  - Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally
- Mortality Improvement Scale:
  - Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

NOTE 19 - TEACHER EMPLOYEE HEALTH INSURANCE CREDIT (HIC) PLAN (OPEB PLAN): (CONTINUED)

Actuarial Assumptions: (Continued)

Mortality Rates – Teachers: (Continued)

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

|                                                                         |                                                                                                                                                                  |
|-------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020           |
| Retirement Rates                                                        | Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all |
| Withdrawal Rates                                                        | Adjusted rates to better fit experience at each year age and service through 9 years of service                                                                  |
| Disability Rates                                                        | No change                                                                                                                                                        |
| Salary Scale                                                            | No change                                                                                                                                                        |
| Discount Rate                                                           | No change                                                                                                                                                        |

Net Teacher Employee HIC OPEB Liability

The net OPEB liability (NOL) for the Teacher Employee HIC Plan represents the plan’s total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2024, NOL amounts for the VRS Teacher Employee HIC Plan is as follows (amounts expressed in thousands):

|                                                                                                 |    |                                               |
|-------------------------------------------------------------------------------------------------|----|-----------------------------------------------|
|                                                                                                 |    | <b>Teacher<br/>Employee HIC<br/>OPEB Plan</b> |
| Total Teacher Employee HIC OPEB Liability                                                       | \$ | 1,478,105                                     |
| Plan Fiduciary Net Position                                                                     |    | 322,457                                       |
| Teacher Employee net HIC OPEB Liability (Asset)                                                 | \$ | 1,155,648                                     |
|                                                                                                 |    |                                               |
| Plan Fiduciary Net Position as a Percentage<br>of the Total Teacher Employee HIC OPEB Liability |    | 21.82%                                        |

The total Teacher Employee HIC OPEB liability is calculated by the System’s actuary, and the plan’s fiduciary net position is reported in the System’s financial statements. The net Teacher Employee HIC OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System’s notes to the financial statements and required supplementary information.

**NOTE 19 - TEACHER EMPLOYEE HEALTH INSURANCE CREDIT (HIC) PLAN (OPEB PLAN): (CONTINUED)**

***Long-Term Expected Rate of Return***

The long-term expected rate of return on the VRS System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of VRS System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| <b>Asset Class (Strategy)</b>         | <b>Long-Term<br/>Target<br/>Asset<br/>Allocation</b> | <b>Arithmetic<br/>Long-term<br/>Expected<br/>Rate of Return</b> | <b>Weighted<br/>Average<br/>Long-term<br/>Expected<br/>Rate of Return*</b> |
|---------------------------------------|------------------------------------------------------|-----------------------------------------------------------------|----------------------------------------------------------------------------|

\*The above allocation provides a one-year return of 7.07% (includes 2.50% inflation assumption). However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.10%, including expected inflation of 2.50%.

\*\*On June 15, 2023, the VRS Board elected a long-term rate of 6.75% which was roughly at the 45<sup>th</sup> percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

**NOTE 19 - TEACHER EMPLOYEE HEALTH INSURANCE CREDIT (HIC) PLAN (OPEB PLAN): (CONTINUED)**

**Discount Rate**

The discount rate used to measure the total Teacher Employee HIC OPEB was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ended June 30, 2024, the rate contributed by each school division for the VRS Teacher Employee HIC Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2024 on, all agencies are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the Teacher Employee HIC OPEB plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total Teacher Employee HIC OPEB liability.

**Sensitivity of the School Division’s Proportionate Share of the Teacher Employee HIC Net OPEB Liability to Changes in the Discount Rate**

The follow presents the school division’s proportionate share of the VRS Teacher Employee HIC Plan net HIC OPEB liability using the discount rate of 6.75%, as well as what the school division’s proportionate share of the net HIC OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

|                                                                                                        | Rate         |                  |              |

| School division's proportionate share of the VRS Teacher Employee HIC OPEB Plan Net HIC OPEB Liability | \$ 3,054,995 | \$ 2,686,302     | \$ 2,373,800 |

**Teacher Employee HIC OPEB Fiduciary Net Position**

Detailed information about the VRS Teacher Employee HIC Plan’s Fiduciary Net Position is available in the separately issued VRS 2024 Annual Comprehensive Financial Report (ACFR). A copy of the 2024 VRS annual report may be downloaded from the VRS website at <http://www.varetire.org/pdf/publications/2024-annual-report.pdf> or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

**NOTE 20 - GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN):**

***Plan Description***

The Group Life Insurance (GLI) Plan was established pursuant to §51.1-500 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of the state agencies, teachers, and employees of participating political subdivisions are automatically covered by the VRS GLI Plan upon employment. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic GLI benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional GLI Plan. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured plan, it is not included as part of the GLI Plan OPEB.

The specific information for GLI OPEB, including eligibility, coverage and benefits is described below:

***Eligible Employees***

The GLI Plan was established July 1, 1960, for state employees, teachers, and employees of political subdivisions that elect the plan. Basic GLI coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their accumulated retirement member contributions and accrued interest.

***Benefit Amounts***

The GLI Plan is a defined benefit plan with several components. The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled. The accidental death benefit is double the natural death benefit. In addition to basic natural and accidental death benefits, the plan provides additional benefits provided under specific circumstances that include the following: accidental dismemberment benefit, seatbelt benefit, repatriation benefit, felonious assault benefit, and accelerated death benefit option. The benefit amounts are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value. For covered members with at least 30 years of service credit, the minimum benefit payable was set at \$8,000 by statute in 2015. This will be increased annually based on the VRS Plan 2 cost-of-living adjustment calculation. The minimum benefit adjusted for the COLA was \$9,532 as of June 30, 2025.

**NOTE 20 - GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (CONTINUED)*****Contributions***

The contribution requirements for the GLI Plan are governed by §51.1-506 and §51.1-508 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the GLI Plan was 1.18% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.71% (1.18% x 60%) and the employer component was 0.47% (1.18% x 40%). Employers may elect to pay all or part of the employee contribution; however, the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2025 was 0.47% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the Group Life Insurance Plan from the entity were \$57,767 and \$63,224 for the years ended June 30, 2025 and June 30, 2024, respectively, for the County; \$14,351 and \$15,450 for the years ended June 30, 2025 and June 30, 2024, respectively, for the School Board (nonprofessional); and \$134,506 and \$134,506 for the years ended June 30, 2025 and June 30, 2024, respectively, for the School Board (professional).

***GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Group Life Insurance Plan OPEB***

At June 30, 2025, the entity reported a liability of \$508,860, \$124,314, and \$1,082,561 for the County, School Board Nonprofessional, and School Board Professional, respectively, for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2024 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2023, and rolled forward to the measurement date of June 30, 2024. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the GLI Plan for the year ended June 30, 2024 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2024 the participating employer's proportion was 0.04560%, 0.01114%, and 0.09701% as compared to 0.04174%, 0.01020%, and 0.09713% at June 30, 2023 for the County, School Board Nonprofessional, and School Board Professional, respectively.

For the year ended June 30, 2025, the participating employer recognized GLI OPEB expense of \$33,773, (\$79), and \$4,714 for the County, School Board Nonprofessional, and School Board Professional, respectively. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

**NOTE 20 - GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (CONTINUED)**

***GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Group Life Insurance Plan OPEB: (Continued)***

At June 30, 2024, the employer reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB from the following sources:

|                                                                                      | <b>Deferred Outflows<br/>of Resources</b> | <b>Deferred Inflows<br/>of Resources</b> |

***Actuarial Assumptions***

The total GLI OPEB liability was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024. The assumptions include several employer groups. Salary increases and mortality rates included herein are for relevant employer groups. Information for other groups can be referenced in the VRS Annual Report.

|                                        |                                                           |
|----------------------------------------|-----------------------------------------------------------|
| Inflation                              | 2.50%                                                     |
| Salary increases, including inflation: |                                                           |
| Teachers                               | 3.50%-5.95%                                               |
| Locality - General employees           | 3.50%-5.35%                                               |
| Locality - Hazardous Duty employees    | 3.50%-4.75%                                               |
| Investment rate of return              | 6.75%, net of investment expenses,<br>including inflation |

**Mortality Rates – Teachers**

Pre-Retirement:  
Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males

Post-Retirement:  
Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year;  
105% of rates for females

**NOTE 20 - GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (CONTINUED)**

***Actuarial Assumptions: (Continued)***

**Mortality Rates – Teachers: (Continued)**

Post-Disablement:

Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally

Mortality Improvement Scale:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

|                                                                         |                                                                                                                                                                  |
|-------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Update to Pub-2010 public sector mortality tables. For future mortality improvements replace load with a modified Mortality improvement Scale MP-2020            |
| Retirement Rates                                                        | Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all |
| Withdrawal Rates                                                        | Adjusted rates to better fit experience at each year age and service through 9 years of service                                                                  |
| Disability Rates                                                        | No change                                                                                                                                                        |

NET GLI OPEB Liability

The net OPEB liability (NOL) for the GLI Plan represents the plan’s total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement date of June 30, 2024, NOL amounts for the GLI Plan are as follows (amounts expressed in thousands):

|                                                                                |    | Group Life<br>Insurance OPEB Plan |
|--------------------------------------------------------------------------------|----|-----------------------------------|
| Total GLI OPEB Liability                                                       | \$ | 4,196,055                         |
| Plan Fiduciary Net Position                                                    |    | 3,080,133                         |
| GLI Net OPEB Liability (Asset)                                                 | \$ | 1,115,922                         |
| Plan Fiduciary Net Position as a Percentage<br>of the Total GLI OPEB Liability |    | 73.41%                            |

The total GLI OPEB liability is calculated by the System’s actuary, and each plan’s fiduciary net position is reported in the System’s financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System’s notes to the financial statements and required supplementary information.

**NOTE 20 - GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (CONTINUED)*****Long-Term Expected Rate of Return***

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| <b>Asset Class (Strategy)</b>         | <b>Long-Term<br/>Target<br/>Asset<br/>Allocation</b> | <b>Arithmetic<br/>Long-term<br/>Expected<br/>Rate of Return</b> | <b>Weighted<br/>Average<br/>Long-term<br/>Expected<br/>Rate of Return*</b> |

| Expected arithmetic nominal return*   |                                                      |                                                                 | <u>7.07%</u>                                                               |

\*The above allocation provides a one-year expected return of 7.07% (includes 2.50% inflation assumption) . However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.10%, including expected inflation of 2.50%.

\*\* On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 45<sup>th</sup> percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

NOTE 20 - GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (CONTINUED)

Discount Rate:

The discount rate used to measure the total GLI OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ended June 30, 2024, the rate contributed by the entity for the GLI OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 113% of the actuarially determined contribution rate. From July 1, 2024 on, employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB’s fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

Sensitivity of the Employer’s Proportionate Share of the Net GLI OPEB Liability to Changes in the Discount Rate

The following presents the employer’s proportionate share of the net GLI OPEB liability using the discount rate of 6.75%, as well as what the employer’s proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

|                                                                                         |    | Rate        |                  |             |

**NOTE 22 - UPCOMING PRONOUNCEMENTS:**

Statement No. 103, *Financial Reporting Model Improvements*, improves key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025.

Statement No. 104, *Disclosure of Certain Capital Assets*, requires certain types of assets (lease assets, subscription assets, intangible right-to-use assets, and other intangible assets) to be disclosed separately in the capital asset note disclosures by major class of underlying asset. It also requires additional disclosures for capital assets held for sale. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025.

Implementation Guide No. 2025-1, *Implementation Guidance Update—2025*, effective for fiscal years beginning after June 15, 2025.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

**NOTE 23 - ARPA AND ESF FUNDING:**

**ARPA Funding**

On March 11, 2021, the American Rescue Plan (ARPA) Act of 2021 was passed by the federal government. A primary component of the ARPA was the establishment of the Coronavirus State and Local Fiscal Recovery Fund (CSLFRF). Local governments received funds in two tranches, with 50% provided beginning in May 2021 and the balance delivered approximately 12 months later.

On June 25, 2021, the County received its share of the first half of the CSLFRF funds. The County received an additional allotment in 2022. As a condition of receiving CSLFRF funds, any funds unobligated by December 31, 2024, and unexpended by December 31, 2026, will be returned to the federal government. There were no unspent funds from the initial allocation as of June 30, 2025.

**ESF Funding**

The CARES Act also established the Education Stabilization Fund (ESF) and allocated \$30.75 billion to the U.S. Department of Education. The ESF is composed of three primary emergency relief funds: (1) a Governor’s Emergency Education Relief (GEER) Fund, (2) an Elementary and Secondary School Emergency Relief (ESSER) Fund, and (3) a Higher Education Emergency Relief (HEER) Fund. The Coronavirus Response and Relief Supplemental Appropriations Act (CRRSA Act) was signed into law on December 27, 2020 and added \$81.9 billion to the ESF. In March 2021, the American Rescue Plan Act (ARP Act), in support of ongoing state and institutional COVID-19 recovery efforts, added more than \$170 billion to the ESF. The School Board received this funding from the Virginia Department of Education on a reimbursement basis.

**NOTE 24 – ADOPTION OF ACCOUNTING PRINCIPLES**

During the current year, the County implemented GASB Statement No. 101, *Compensated Absences*. In addition to the value of unused vacation time owed to employees upon separation of employment, the County now recognizes an estimated amount of sick leave earned as of year-end that will be used by employees as time off in future years as part of the liability for compensated absences.

The change in accounting principle resulted in the following restatement of net position:

|                                              | <b>Governmental<br/>Activities</b> | <b>Discretely Presented<br/>Component Unit<br/>School Board</b> |
|----------------------------------------------|------------------------------------|-----------------------------------------------------------------|
| Net Position as<br>reported at June 30, 2024 | \$ 67,118,719                      | \$ 11,025,849                                                   |
| Implementation of GASB 101                   | (569,409)                          | (2,565,657)                                                     |
| Net Position as<br>restated at July 1, 2024  | \$ 66,549,310                      | \$ 8,460,192                                                    |

### **REQUIRED SUPPLEMENTARY INFORMATION**

Note to Required Supplementary Information:

Presented budgets were prepared on the modified accrual basis of accounting which is in accordance with accounting principles generally accepted in the United States of America. The basis of budgeting is the same as generally accepted accounting principles.

\*Excludes contributions (mandatory and match on voluntary) to the defined contribution portion of the Hybrid plan.

Notes to Required Supplementary Information - Pension  
Year Ended June 30, 2025

**Changes of benefit terms** – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

**Changes of assumptions** – The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Notes to Required Supplementary Information - County and School Board OPEB  
Year Ended June 30, 2025

---

Valuation Date: 7/1/2023  
Measurement Date: 6/30/2025

Actuarially determined contribution rates are calculated as of July 1, 2023, prior to the fiscal year in which they are reported, and have been projected to June 30, 2024 on a "no gain/no loss" basis.

*Methods and assumptions used to determine contribution rates:*

|                            |                                                                                                                                                                                                                                                                                       |

Schedule is intended to show information for 10 years. Information prior to the 2017 for the County, and 2021 for the Component Unit School Board (nonprofessional) is not available. However, additional years will be included as they become available.

Notes to Required Supplementary Information  
County and Component Unit School Board (nonprofessional)  
Health Insurance Credit (HIC) Plan  
Year Ended June 30, 2025

---

**Changes of benefit terms** – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

**Changes of assumptions** – The actuarial assumptions used in the June 30, 2023, valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

**Non-Largest Ten Locality Employers - General Employees**

|                                                                         |                                                                                                                                                                  |

Notes to Required Supplementary Information  
Teacher Health Insurance Credit (HIC) Plan  
Year Ended June 30, 2025

---

**Changes of benefit terms** – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

**Changes of assumptions** – The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

|                                                                         |                                                                                                                                                                  |
|-------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020           |
| Retirement Rates                                                        | Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all |
| Withdrawal Rates                                                        | Adjusted rates to better fit experience at each age and service decrement through 9 years of service                                                             |

Schedule is intended to show information for 10 years. Information prior to the 2017 is not available. However, additional years will be included as they become available.

Notes to Required Supplementary Information  
Group Life Insurance (GLI Plan)  
Year Ended June 30, 2025

---

**Changes of benefit terms** – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

**Changes of assumptions** – The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Detailed explanation of adjustments from fund statements to government-wide statement of net position:

When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets among the assets of the School Board as a whole.

38,731,836

Items related to measurement of net pension and OPEB liability/asset not available to pay for current-period expenditures

|                                       |             |
|---------------------------------------|-------------|
| Deferred inflows related to pensions  | (4,378,520) |
| Deferred inflows related to OPEB      | (706,124)   |
| Deferred outflows related to pensions | 8,669,972   |
| Deferred outflows related to OPEB     | 999,986     |
| Net Pension and OPEB Assets           | 1,923,389   |

Long-term liabilities applicable to the School Board's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the statement of net position.

### Tables

#### Financial Trends

These tables contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.

|                                                |   |
|------------------------------------------------|---|
| Net Position by Component                      | 1 |
| Changes in Net Position                        | 2 |
| Fund Balances of Governmental Funds            | 3 |
| Changes in Fund Balances of Governmental Funds | 4 |

#### Revenue Capacity

These tables contain information to help the reader assess the factors affecting the County's ability to generate its property and sales taxes.

|                                                               |   |
|---------------------------------------------------------------|---|
| Assessed Value and Estimated Actual Value of Taxable Property | 5 |
| Property Tax Rates                                            | 6 |
| Principal Property Taxpayers                                  | 7 |
| Property Tax Levies and Collections                           | 8 |

#### Debt Capacity

These tables present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue debt in the future.

|                                                                                   |    |
|-----------------------------------------------------------------------------------|----|
| Ratios of Outstanding Debt by Type                                                | 9  |
| Ratio of Net General Bonded Debt to Assessed Value and Net Bonded Debt Per Capita | 10 |
| Debt Policy Information                                                           | 11 |

#### Demographic and Economic Information

These tables offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place and to help make comparisons over time and with other governments.

|                                     |    |
|-------------------------------------|----|
| Demographic and Economic Statistics | 12 |
| Principal Employers                 | 13 |

#### Operating Information

These tables contain information about the County's operations and resources to help the reader understand how the County's financial information relates to the services the County provides and the activities it performs.

|                                                              |    |
|--------------------------------------------------------------|----|
| Full-time Equivalent County Government Employees by Function | 14 |
| Operating Indicators by Function                             | 15 |
| Capital Asset Statistics by Function                         | 16 |

**Independent Auditors' Report on Internal Control over Financial Reporting and on  
Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance with *Government Auditing Standards***

---

**To the Honorable Members of the Board of Supervisors  
County of Fluvanna, Virginia**

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Fluvanna, Virginia, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the County of Fluvanna, Virginia's basic financial statements, and have issued our report thereon dated December 10, 2025.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the County of Fluvanna, Virginia's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Fluvanna, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the County of Fluvanna, Virginia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as item 2025-001 that we consider to be significant deficiencies.

## Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Fluvanna, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditors' Report on Compliance For Each Major Program and on  
Internal Control over Compliance Required by the Uniform Guidance**

---

**To the Honorable Members of the Board of Supervisors  
County of Fluvanna, Virginia**

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited County of Fluvanna, Virginia's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of County of Fluvanna, Virginia's major federal programs for the year ended June 30, 2025. County of Fluvanna, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, County of Fluvanna, Virginia's complied, in all material respects, with compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of County of Fluvanna, Virginia and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of County of Fluvanna, Virginia's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to County of Fluvanna, Virginia's federal programs.

## ***Auditors' Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on County of Fluvanna, Virginia's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about County of Fluvanna, Virginia's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding County of Fluvanna, Virginia's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of County of Fluvanna, Virginia's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of County of Fluvanna, Virginia's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

## Report on Internal Control over Compliance (Continued)

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## COUNTY OF FLUVANNA, VIRGINIA

### Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2025

---

#### Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the County of Fluvanna, Virginia under programs of the federal government for the year ended June 30, 2025. The information in this Schedule is presented in accordance with the requirements of the Uniform Guidance. Because the Schedule presents only a selected portion of the operations of the County of Fluvanna, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County of Fluvanna, Virginia.

#### Note 2 - Summary of Significant Accounting Policies

(1) Expenditures on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(2) Pass-through entity identifying numbers are presented where available.

#### Note 3 - Food Donation

Nonmonetary assistance is reported in the schedule at fair market value of the commodities received and disbursed.

#### Note 4 - De Minimis Cost Rate

The County did not elect to use the 15-percent de minimis indirect cost rate allowed under Uniform Guidance.

#### Note 5 - Subrecipients

No awards were passed through to subrecipients.

#### Note 6 - Loan Balances

The County has no loans or loan guarantees which are subject to reporting requirements for the current year.

#### Note 7 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:

|              |              |
|--------------|--------------|
| General Fund | \$ 2,227,511 |
|--------------|--------------|

|                          |              |
|--------------------------|--------------|
| Total primary government | \$ 2,227,511 |
|--------------------------|--------------|

Component Unit School Board:

|                       |              |
|-----------------------|--------------|
| School Operating Fund | \$ 1,682,956 |
|-----------------------|--------------|

|                       |           |
|-----------------------|-----------|
| School Cafeteria Fund | 1,446,585 |
|-----------------------|-----------|

|                                   |              |
|-----------------------------------|--------------|
| Total component unit school board | \$ 3,129,541 |
|-----------------------------------|--------------|

|                                                           |              |
|-----------------------------------------------------------|--------------|
| Total federal expenditures per basic financial statements | \$ 5,357,052 |
|-----------------------------------------------------------|--------------|

|                          |              |
|--------------------------|--------------|
| Federal Interest Subsidy | \$ (120,478) |
|--------------------------|--------------|

|                                                                               |              |
|-------------------------------------------------------------------------------|--------------|
| Total federal expenditures per the Schedule of Expenditures of Federal Awards | \$ 5,236,574 |
|-------------------------------------------------------------------------------|--------------|

COUNTY OF FLUVANNA, VIRGINIA

| Identification of major programs:                                                                           |               |

| Assistance Listing # | Name of Federal Program or Cluster                                                                    |
|----------------------|-------------------------------------------------------------------------------------------------------|
| 84.027/84.173        | Special Education Cluster                                                                             |
| 10.561               | State Administrative Matching Grants for the Supplemental Nutrition Assistance Program (SNAP Cluster) |

|                                                                          |           |
|--------------------------------------------------------------------------|-----------|
| Dollar threshold used to distinguish between Type A and Type B programs. | \$750,000 |
| Auditee qualified as low-risk auditee?                                   | Yes       |

Section II - Financial Statement Findings

2025-001: FUSD Billing Rates (Significant Deficiency)

**Criteria:**  
FUSD billing rates entered into the billing system should be the rate approved by the governing body. The County should have procedures in place to ensure the billing rates are entered into the system correctly.

**Condition:**  
The FUSD billing system did not have the correct rate as approved by the governing body.

**Cause:**  
When the new billing rates were entered into the system, the water rate per 1,000 gallons above the minimum usage was entered correctly from \$11.00 to \$11.22, but the water rate per 1,000 gallons was changed in error from 1,000 gallons to 2,000 gallons. This effectively divided those charges by 2.

**Effect:**  
The FUSD bills were calculated incorrectly for the months of September 2024 to June 2025. This caused the bills generated being lower than they should have been.

**Recommendation:**  
It is recommended that the County put procedures in place to ensure the correct rate is entered into the billing system and the bills are being calculated correctly.

**Management's Response:**  
When the governing body approves billing rate changes for FUSD, the Department of Public Utilities has implemented checks and balances prior to bills with new rate changes being sent out. When it comes time to make changes in the billing system, the first verification step to take place is the Director of Public Utilities or leadership designee visually observes the staff person making the necessary rate changes in the FUSD billing system as approved by the governing body. The second step after rate changes in the FUSD billing system are made, the Director of Public Utilities or leadership designee works with billing employees to create at minimum 5 TEST sample bill scenarios based upon different water usages to verify the proper charges are being calculated as approved by the governing body. The third step is the Director of Public Utilities or leadership designee will review and approve of all monthly Utility billing reports prior to bills being sent out to customers.

Section III - Federal Award Findings and Questioned Costs

There are no federal award findings and questioned costs to report.

Section IV - Prior Year Findings

There were no prior year findings.
