## PLANNING COMMISSION STAFF REPORT

**To:** Fluvanna County Planning Commission  
**Request:** Camp request in Fluvanna County

**From:** Douglas Miles, AICP, CZA  
**District:** Cunningham Election District

**General Information:** This Special Use Permit (SUP) request is to be heard by the Planning Commission on Tuesday, December 12, 2023 at 7:00 pm at the Carysbrook Performing Arts Center.

**Applicant:** Sun Reventon Farm, LLC (Briery Creek Farm)

**Representative:** Steven W. Blaine, Esquire – Woods, Rogers, Vandeventer & Black

**Requested Action:** SUP 23:04 Sun Reventon Farm, LLC – A Special Use Permit request in the A-1, Agricultural, General District to construct a **Central water system** / major utilities use under § 22-4-2.2 on 298 +/- acres and known as Tax Map 26 Section A Parcels A2, A5A, A37, A38 and 3. These parcels are generally located west of Rolling Road S (SR 620) and north of Briery Creek Road (SR 761) and along the Albemarle County line in the Rural Preservation Area and Cunningham Election District.

**Existing Zoning:** A-1, General Agricultural Zoning District

**Existing Land Uses:** Farmland, open fields, and agricultural outbuildings

**Planning Area:** Rural Preservation Planning Area

**Camp Request:** The proposed Camp request will include cabin structures that will be served by a Central water system that will be served by three (3) existing wells and Central sewer system that will include treatment facilities and subsurface disposal much in the same way as homes.

The proposed Camp use includes amenities that are located within Albemarle County and Fluvanna County and the amenities include:

Albemarle County: Arts and Crafts house, Camp store, Dining facility, Pool and Fitness center, Health and Wellness center, Lake with beach areas and water sports, and several walking path areas with most of the proposed cabins located in Albemarle County.

Fluvanna County: Guest meeting space building (Event facility), an Equestrian center with Horse barn and riding ring, Guest check-in gate house building, and open fields and pastureland to remain in its natural state and with several walking path areas. The current Water's Edge barn will become their Camp maintenance facility where the Camp construction vehicles and farm equipment could be housed and insured for Fluvanna commercial taxation purposes.

### **Community Meeting:**

The Applicant held an informal meeting prior to submitting applications to either locality. This meeting was held on the Property back on March 30th and was attended by approximately 120 persons. The primary concern raised at the meeting was that this would be an RV campground. Other comments included, transportation impacts, water and sewer availability, fire protection, noise, lighting, the potential of use of amenities by day users, quality of the construction and the maintenance of proposed cabins and amenities buildings and the Camp's construction schedule.

A formal community meeting was held on June 29th on the Property in the Water's Edge Barn after filing their applications with each locality for review and approval of the Camp use and supporting requests. This meeting was attended by approximately 50 persons with some of the same persons attending the March 30th meeting at the same location. Most comments included concerns about the transportation impacts, particularly to the current roads and intersections in Fluvanna County. Additional comments included the potential change in the rural character of the area, the potential of trespassing onto adjoining property, noise from Camp events and well water and central sewer availability to serve the proposed cabins and their supporting buildings.

### **Comprehensive Plan:**

The 2015 Fluvanna County Comprehensive Plan has this farmland and fields property within our Rural Preservation Planning Area that calls for rural residential uses that include both working farms and agricultural fields with limited, low-density residential development. The existing farm contains agricultural uses such as haymaking and livestock husbandry and it contains woodlands, streams, ponds and several outbuildings.

These existing land uses are matching the comprehensive plan goals and objectives and the proposed family-oriented Camp would feature guest cabins, with outdoor amenities reflecting the rural character of the land and its surroundings within the County and also it would generally be in compliance with the Fluvanna County Comprehensive Plan goals.

### **Economic Development Chapter:**

The Comprehensive Plan recommends that development within Rural areas preserve the character of the overall surrounding area and while promoting economic development. Accordingly, some commercial services for the convenience of those living out in the country are appropriate and may be considered if these uses are designed and arranged to complement the overall rural character of the area and its surrounding uses. These uses

are encouraged around existing communities, such as the Scottsville area, and landowners in and around these planning areas could be given the opportunity to pursue options that will supplement or provide income and may provide additional employment opportunities to the surrounding community. The Camp and Event facility uses, may provide seasonal employment to those who reside in Fluvanna County, in order to operate these land uses.

### **Applicant Summary:**

The Applicant proposes to develop the Property into a family-oriented Camp featuring up to 250 guest cabins, with outdoor amenities reflecting the rural character of this farm land and its surroundings. Other improvements that would be constructed to support the guest experience include up to 45,000 square feet of accessory buildings with uses to include food and beverages to registered guests, fitness and wellness, group gathering spaces, educational spaces for arts, crafts cooking and other creative endeavors, retail and goods provisioning related to the Camp experience, along with facilities for outdoor adventure programming such as playgrounds, a ropes course, hiking, cycling and water based recreational activities and the support buildings for servicing the Property as a Camp use.

The Applicant plans to construct a new Event facility building under a Special Use Permit request or as they have shown on the Conceptual Plan, a Guest meeting space building in Fluvanna County that would replace the current Water's Edge Event facility barn use. The proposed Event facility will be a common Guest meeting space for the Camp's registered guests to host and/or to gather at for on-site events. Camp guests can book the Event facility for a wedding or anniversary event for the registered Camp guests.

### **Water and Sewer:**

The water and sewer impacts have been analyzed for the potential impacts to some of the adjacent properties and within the general vicinity of this request. A July of 2023 Draft Groundwater Management Plan has been submitted for review and analysis as a part of this request. The Plan's overall conclusion is adequate groundwater is available to serve the proposed land uses. The Applicant has submitted a request for approval of a central water and sewer system. This request will be reviewed by the Board of Supervisors in both localities in conjunction with the Virginia Department of Health Blue Ridge Health District in Charlottesville for further analysis during the Site Plan and permitting process.

### **Zoning Definitions:**

**Camp:** A tract of land, complete with all necessary and accessory uses and structures, used for organized recreational activities under trained supervision. Seasonal accommodations may be provided and such uses shall include boarding camps, day camps and summer camps.

**Campground:** An area to be used for transient occupancy by camping in tents, camp trailers, travel trailers, motor homes, or similar transportable or temporary sleeping

quarters of any kind. For purposes of this definition, transient shall be for no more than 120 days.

### **Fluvanna Building Official: Note New Section**

ANSI 119.5 standard – In my review of this, these are and always will be defined as Recreational vehicles no matter if wheels are there or not. They are constructed and setup to this standard which deals with nothing but recreational vehicles whether known as “Park models” or mobile recreational vehicles with wheels on them and a towing tongue.

The “Park Models” are not regulated by the Virginia Uniform Statewide Building Code and the only item that we would have regulation over is the electrical power to the outside of the “Park Model” but no inspection and enforcement of the “Park Models” RVs there.

### **Special Use Permits:**

When evaluating all proposed uses for a special use permit, in addition to analyzing the potential adverse impacts of the use, staff utilizes two (2) general guidelines for evaluation as set forth in the Zoning Ordinance. First, the proposed use should not tend to change the character and established pattern of the area or community. The proposed location of the Camp and the Event facility building has been designed to blend in with the farm and the pastoral setting area as an agricultural-style building will be considered the main Guest meeting space on Saturday nights or weekends. Overall, the Camp use itself intends to become a part of the continuing rural character within Albemarle County and Fluvanna County and in Central Virginia overall by also providing for a rural destination location to better serve and enhance the available agri-tourism land uses that are found within both localities that offer up day trip experiences to orchards and to wineries.

An analysis of the 2015 Comprehensive Plan indicates general support for tourism activities and including the potential for lodging provided any such negative impacts on the character of the rural area and natural resources are protected which County staff believes the Applicant has addressed in its Special Use Permit applications to each locality for the proposed Camp request.

The impacts of this Camp request on the rural character of the area are minimal and that natural resources and farmland will be protected both by the recommended conditions of the special use permit and the Zoning Ordinance requirements included in the review and approval of a site plan and related state and county building permits. Potential traffic impacts have been addressed with the VDOT - Louisa Residency Office and with the Applicant’s traffic engineer for this Camp use.

Second, the proposed use should be compatible with the uses permitted by right in that zoning district and shall not adversely affect the use of or the value of neighboring property. The proposed Camp and Event facility uses on the premises would seek to enhance the serene, rural lifestyle in the immediate area. The recommended case conditions would seek to ensure that the proposed indoor and outdoor events would remain in compliance with all State and/or County requirements as they relate to health, safety, noise and traffic purposes to not adversely affect the value of the neighboring properties and surrounding community with its unique, rural character.

### **Transportation Planning:**

The proposed access to the Property consists of one main, one-way ingress off of Briery Creek Road (SR 671) and one main, one-way egress out to Rolling Road South (SR 620) at the existing entrance location to the current Event barn; and one ingress and egress to the proposed equestrian center to Rolling Road South (SR 620) and one emergency only ingress and egress access to Rolling Road South (SR 620) and one Camp employee only ingress and egress access to Rolling Road South (SR 620) at the existing entrance to the existing Event barn which would become the Camp's maintenance facility barn. This Camp would have circular and redundant access points.

The Applicant's attorney, Fluvanna's Planning Commission Chair and Community Development Director, in conjunction with the Applicant's traffic engineer and VDOT's land use engineer all performed field work this Summer to actively address and identify where the potential Camp use traffic would find its way through Albemarle and Fluvanna County from the main interstate roads and onto the secondary roads to reach the Camp location. This work was done specifically to be able to avoid having potential tourists or other visitors from crossing the Briery Creek ford area.

There would be several signs to be coordinated and located as approved by VDOT in accordance with their state guidelines for Tourist-oriented directional signs during VDOT's review of the detailed site engineering plans for Briery Creek Farm. This will allow for Albemarle County and Fluvanna County to both benefit from the increased tourism visits to the Camp location while maintaining a safe, and welcoming environment. While also in the end allowing for area farming and livestock activities from being interrupted within this very rural portion of Fluvanna County.

### **Summary Conclusion:**

The Planning Commission members should consider any potential adverse impacts, such as the slight increase in Camp traffic along Rolling Road South and on Briery Creek Road during the planned indoor and outdoor events on the Property. The Applicant and their traffic engineering consultant have worked with the VDOT – Louisa Residency Office engineer, Albemarle County and Fluvanna County staff members to limit and/or remove any perceived, adverse impacts due to perceived higher traffic counts during peak periods for the Camp and Event facility land uses.

The Fluvanna County Sheriff's Office and the Fluvanna County Fire members have reviewed and provided comments relative to the proposed Event facility planned events. These same agencies will provide additional comments during both the site plan and building permit review processes.

These recommended conditions provide further guidance for the Applicant to coordinate these events with Fluvanna County staff, and especially with the Sheriff's Office, on traffic control on Rolling Road South and Briery Creek Road when entering or exiting the Camp during the larger functions at the Event facility building. The Applicant its management team will need to remain in constant contact with the Fluvanna County Sheriff's Office to make them aware the larger Event facility functions in order to remain in compliance with these recommended conditions.

### **Recommended Conditions:**

Fluvanna County Staff recommends Approval of the proposed Event facility use provided that the impact upon the surrounding property owners is minimal. Staff has proposed recommended conditions to ensure that this use complies with all Federal, State and County Code requirements:

**Note: Recommended condition changes are shown in bold as discussed with the applicant.**

**The applicant intends to discuss these changes since the October 10, 2023 Public Hearing.**

1. Development of the Camp use shall be in general accordance, as determined by the Zoning Administrator, with the Reventon Farms Conceptual Plan – Special Use Permit Application, dated April 28, 2023 and known as Exhibit A. In order to be in general accordance with the Conceptual Plan, development must reflect the following major elements within the development essential to the design of the development:
  - a. The maximum number of cabins is 40 in Fluvanna County.
  - b. The location of improvements shall generally be shown on the Conceptual Plan.
2. Use of recreational facilities and other facilities, to include the Event facility on-site, is limited to Camp guests staying in the on-site cabins as their registered guests, in either Albemarle County or in Fluvanna County, as shown on the Conceptual Plan.
3. No **motorized** Recreational vehicles or Travel trailers nor any other temporary vehicles or tents as defined in Campgrounds in the Fluvanna County Zoning Ordinance shall be permitted on the Property. Camp structures as defined in Camp in the Fluvanna County Zoning Ordinance shall be permitted **which states that all necessary and accessory uses and structures used for organized recreational activities under trained supervision. For the purpose of this condition, “Park Model” cabins shall be deemed permanent structures if they meet the ANSI 119.5 standards and once established at the Camp have had their wheels and towing tongue removed and are located on a foundation.**
4. Prior to commencing the Camp use, the Developer shall provide contact information for on-site Camp management to all property owners within 1,000 feet of the exterior boundaries of the area that is included in the Conceptual Plan. The notice shall be re-sent to these same property owners if the contact information changes or additional information needs to be provided by the Camp management.
5. The boundary of the Property shall be posted to alert Camp guests that they are approaching the boundary of the property and that they are not permitted to trespass onto the abutting property.
6. The Developer shall inspect and record Briery Creek Road (SR 761) prior to any site construction. The VDOT – Louisa Residency will need in writing that the Developer is responsible to repair all damages done to Briery Creek Road (SR 761) during site construction of the Camp property.
7. The Developer shall construct or bond for construction the site entrance(s) to the proposed Camp property to meet VDOT entrance and intersection requirements prior to the issuance of a Zoning Permit.
8. The Developer shall notify VDOT, Albemarle County and Fluvanna County in writing thirty (30) days prior to commencing any site construction or logging activity on the Camp property.

9. The Developer shall construct a right turn, taper and/or transition lane on Rolling Road South (SR 620) onto Briery Creek Road (SR 761) to serve the Main Entrance as shown on the Site Access Plan which is a part of the Conceptual Plan. The proposed improvements shall be constructed per VDOT specifications and as shown on the approved site development plans for the Camp property.
10. A minimum twenty-five (25) foot buffer shall be maintained along all property lines that adjoin agricultural or residential zoning districts. Land clearing is not permitted within this buffer area, except for the removal of dead or diseased vegetation, utilities installation and/or for maintenance purposes. The Developer may meet the required Zoning Ordinance buffer and screening requirements by supplementing the existing screening materials to the reasonable satisfaction of the Zoning Administrator.
11. The Developer will be responsible for compliance with the Fluvanna County lighting and noise ordinance requirements, as amended.
12. The Fluvanna County Board of Supervisors, or its representative, reserves the right to inspect the property for compliance with these conditions at any time and upon reasonable notice.
13. Under Section 22-17-4(F) (2) of the Fluvanna County Code, the Board of Supervisors has the authority to revoke a Special Use Permit if the property owner has substantially breached the conditions of the Special Use Permit.

**Suggested Motion:**

I move that the Planning Commission recommends (Approval / denial / deferral) of SUP 23:03, a request to permit a Camp use with respect to 298 +/- acres of Tax Map 26 Section A Parcels A2, A5A, A37, A38 and 3 subject to the thirteen (13) conditions listed in the staff report.

**Special Use Permit Checklist**

The following information shall be submitted with the application and is to be provided by the applicant for the processing of the application:

Applicant must supply	Staff Checklist
Completed Special Use Permit signed by the current owner(s) or lessee or written confirmation from the current owner or lessee granting the right to submit the application	
Ten (10) copies of a Site Plan for any expansion or new construction Include: <ul style="list-style-type: none"> <li>• Plot plan or survey plat at an appropriate scale</li> <li>• Location and dimension of existing conditions and proposed development</li> <li>• <i>Commercial and Industrial Development:</i> parking, loading, signs, lighting, buffers and screening</li> <li>• Copy of the Tax Map showing the site (preferred)</li> <li>• General Location Map (preferred)</li> </ul>	
Supporting photographs are not required, but suggested for evidence	

*All maps and plans submitted are to be either 8.5"x 11" or 11"x 17". One original of any size may be for staff use at the public hearing.*

Staff Only	Staff Checklist
Preliminary review by planning staff for completeness and content: <ul style="list-style-type: none"> <li>• Technical Review Committee review and comment</li> <li>• Determine all adjacent property owners</li> <li>• Placed as a Public Hearing on the next available agenda of the Planning Commission.</li> </ul>	
Notification of the scheduled Public Hearing to the following: <ul style="list-style-type: none"> <li>• Applicant</li> <li>• All adjacent property owners</li> <li>• Local Newspaper advertisement</li> </ul>	
Staff Report to include, but not be limited to: <ul style="list-style-type: none"> <li>• General information regarding the application</li> <li>• Any information concerning utilities or transportation</li> <li>• Consistency with good planning practices</li> <li>• Consistency with the comprehensive plan</li> <li>• Consistency with adjacent land use</li> <li>• Any detriments to the health, safety and welfare of the community.</li> </ul>	

The Special Use Permit application fee is made payable to the **County of Fluvanna**.

### **Meetings for the processing of the application**

Applications must be submitted by the first working day of the month to have the process start that month. Applications received after the first working day will have the process start the following month.

#### **Process:**

1. Placed on next available Technical Review Committee Agenda.
2. Placed as a Public Hearing on the next available agenda of the Planning Commission the following month. Staff Report and Planning Commission recommendation forwarded to the Board.
3. Placed as a Public Hearing on the next available agenda of the Board of Supervisors (usually the same month as the Planning Commission).

#### **Applicant or a representative must appear at the scheduled hearings.**

The Technical Review Committee provides a professional critique of the application and plans. The Planning Commission may recommend to the Board of Supervisors: approval; approval subject to resubmittal or correction; or denial of the special use permit.

#### **Board Actions**

After considering all relevant information from the applicant and the public, the Board will deliberate on points addressed in the Staff Report.

The Board may approve; deny; or defer the request pending further consideration; or remand the case back to the Planning Commission for further consideration.

With **approval**, the development may proceed.

If **denied**, an appeal to the Courts may be prescribed by law

*No similar request for a Special Use Permit for the same use at the same site may be made within one year after the denial.*

## Reventon Farm

### Special Use Permit Application Narrative [Utilities, Major - Water]

Original Submission: May 1, 2023

## Project Proposal

On behalf of Sun Reventon Farm LLC (“Sun” or the “Applicant”), we hereby request the approval of a Special Use Permit (“SUP”) for Tax Map Parcels 26-A-A2, 26-A-A5A, 26-A-A37, 26-A-A38, and 26-A-3 (the “Property”). We specifically request a permit for the 298 acres comprising the Property located in Fluvanna to allow a central water system, with private wells (Section 22-4-2.2) to serve a camp and accessory uses, as described in this Application (the “Project”). Enclosed as Attachment A is the Project’s Conceptual Plan, entitled, “Reventon Farms – Conceptual Plan-Special Use Permit Application,” dated April 28, 2023, consisting of five sheets: **Cover Sheet (Sheet 1 of 4), Vicinity Map (Sheet 2 of 4), Existing Conditions (Sheet 3 of 4), and Master Plan (Sheet 4 of 4), together comprise the four -page “Conceptual Plan.”**

### The Applicant:

The Applicant’s Manager, Sun Communities Inc., is a publicly traded Real Estate Investment Trust (NYSE: SUI) which has been in operation since 1975 and today owns and stewards over 660 properties in the US, Canada, and the United Kingdom. The company is responsible for over \$20 Billion in real estate assets and has the financial capacity to ensure the full completion of the proposed project as envisioned and the track record to ensure its long-term success. One of Sun Communities’ main subsidiaries is Sun Outdoors, which is the nation’s premier operator of outdoor recreational resorts with 179 locations throughout the US and Canada. The company’s portfolio of properties comprises a spectrum of accommodation types and experiences, and the proposed project at Reventon Farm is intended to be a unique proposition of exceptional character reflecting the passion for the outdoors that is at the core of our leadership’s values.

It is the Applicant’s intention to develop a project that captures the beauty and pace of the rural and agricultural setting; to preserve, sustain and enhance the environmental features of the Property, and to provide visitors to the region an opportunity to experience outdoor recreation in a setting that is authentic, peaceful and reflective of the regions character.

### Proposed Use:

The Applicant proposes developing the Project into a family-oriented camp featuring up to 250 guest cabins, with outdoor amenities reflecting the rural character of the land and its surroundings. Guest cabins may be built in phases over time subject to assessment of market demand. Other improvements that would be constructed to support the guest experience include up to 45,000 square feet of accessory buildings with uses to include provision of food and beverages to guests of the Project, fitness and wellness, group gathering spaces, educational

spaces for arts & crafts, cooking, and other creative endeavors, retail and goods provisioning relating to the camp experience, facilities for outdoor adventure programming such as playgrounds, a ropes course, hiking, cycling and water based recreational activities, and support buildings for servicing the Property. The Project will be served by private wells as part of a central water system for potable water. The Property is not located within the jurisdictional area for County water and sanitary sewer service.

#### Existing Conditions:

The existing site is served by 3 onsite private wells. The Red Barn Well is located near Rolling Road South and serves the existing event barn onsite. The Pavilion Well is located near Reventon Lake and serves the Pavilion Well, and the Cabin Well is located near the existing private residence and serves the existing residential building onsite.

#### Approach:

Preliminary fracture tracing and electric resistivity testing were performed under the supervision of a licensed hydrogeologists to identify potential test well locations. The hydrogeologist and well driller achieved consensus on the well locations, and both are experts in well siting and drilling in the piedmont area of the Commonwealth. Based on the prior mentioned analysis, two test wells were drilled recently onsite with the siting of those wells being approved by the Virginia Department of Health (VDH). Additional electric resistivity testing is ongoing in the southern portion of the property to identify additional redundant well sites. The existing and proposed well sites can be seen in the Illustrative Plan- Potable Water Sources..

#### Design:

Test Well B was sited, drilled, and tested to a depth of 600 feet below ground surface. When Test Well B was tested at a depth of 600' the yield of the well at the time of drilling was determined to be roughly 32 GPM during the air-lift yield test. Upon further analysis of the existing wells onsite, the Red Barn Well was investigated for conversion from a private well to a public well. Upon further coordination with VDH, conversion of the Red Barn Well was determined to be an acceptable approach and was investigated further. The step drawdown test of the Red Barn Well resulted in a yield of 28 GPM. The Red Barn Well will be modified to deepen the well, replace the casing per VDH standards, and provide the appropriate grouting for public well applications.

Both Test Well B and the Red Barn Well supply roughly 60 GPM of available yield to the development site.

Well B will include the installation of a small, prefabricated building to house the treatment system, hydropneumatics tank, and well pumps for use in the proposed development.

The Red Barn Well is in the process of upgrades to convert the well to public well standards including modification to the casing pipe depth and material, grouting, and deepening of the well.

Similarly, it is anticipated that a small, prefabricated building will be installed to house the treatment system, hydropneumatics tank, and well pumps for use in the proposed development.

The locations of Well B, Red Barn Well, and preliminary water main routing are shown on the Illustrative Plan- Potable Water Sources.

At this time, the Red Barn Well and Test Well B locations are anticipated to provide adequate yield for the proposed development. All well yields, water quality and drawdown impacts will be analyzed and coordinated with the County and VDH during the permitting stage of the project.

A Tier 4 assessment in accordance with Section 17-1004 of the Albemarle Code, and the comparable assessment required by Fluvanna County shall be completed prior to final County approval.

I. **Necessity of Use**. Describe the reason for the requested change.

The Project provides a public need for well-planned, rural and agri-tourism.

The proposed plan concentrates lodging to an area where impact on the rural character is minimized while providing needed accommodations to capture regional economic benefits. The Applicant has an interest in partnering with other farmers and heritage destinations to provide access to and promote the area's offerings to its guests. Furthermore the Property's character as an operating farm and destination for outdoor recreation is consistent with the tourism values of the region.

The Project offers a more stable, unified accommodations alternative to the rapid growth and fragmentation of short-term rentals or Homestays in the rural areas.

According to recent market data<sup>i</sup>, the short term rental market in the Charlottesville, Albemarle, and Fluvanna area has experienced unprecedented levels of occupancy following the onset of the pandemic. The seasonality of short term rentals that was prevalent before 2020 has also become less variable, with occupancy in February 2023 well above prior winter levels. Short term rentals occupancy averaged 47.7% from 2018 to 2019 but increased to 61.6% average occupancy from June 2020 to February 2023 the latest market data. This trend has prevailed despite an increase listings in 2022. It is estimated that with the continued growth of demand for short term occupancy in the rural areas of Fluvanna and Albemarle County, in particular, by the time the Project is completed (likely around 2024 to 2025 at the earliest), demand for short term rentals will outpace supply for several years, creating unmet demand for roughly 325 short term rentals.

**II. Protection of adjoining property:** Describe the effects of the proposed use on adjacent property and the surrounding neighborhood. What protection will be offered adjoining property owners?

As shown on the Conceptual Plan, preservation of extensive open space will serve to buffer visual and other impacts to adjacent lots. Agricultural activities such as pasture, equestrian activities, hay and other traditional crops within the open space areas adjacent to lots along Rolling Road will help preserve the existing, visual and cultural experience of those currently residing in the neighborhood.

The existing, natural stream buffers, wetlands and mature woodlands adjacent to the waterways, all of which contribute to the natural and scenic character of the Property are essential characteristics of the area. These elements are intended for protection to the maximum extent practicable as they are also essential features for the experience of camp guests. The Conceptual Plan depicts wooded areas and open spaces that will remain minimally disturbed, as well protection for important buffers and environmentally sensitive areas where no development is proposed.

The proposed use will be compatible with the uses permitted by right in the zoning district and shall not adversely affect the uses or values of neighboring properties. The Property's character as an operating farm and destination for outdoor recreation is consistent with the character of the surrounding area.

The approach to the clustering of cabins, as illustrated on the Conceptual Plan offers additional protection of scenic vistas and mutual enjoyment by the neighborhood by maximizing contiguous open space to embody rural land character. As depicted in the Conceptual Plan, development envelopes are contained toward the center of the larger, 743 acre property, preserving view corridors from roadways and ensuring that the rural character of the surrounding area remains minimally disturbed.

The Applicant will employ best management practices for protecting the public health and safety in all aspects of operations. The Applicant has developed highly effective operations practices designed to protect health and safety over the many years, and extensive experience in the hospitality industry.

For the protection of the general welfare, best management practices will also be implemented for forest health, maintenance of wetlands and streams, management of human/wildlife interaction, sustainability of soil productivity for agricultural uses, water conservation and energy efficiency, and will seek to minimize impact on the natural environmental features of the Property.

### **III. Enhancement of the County: Why does the applicant believe this requested change would be advantageous to the County of Fluvanna?**

The Project provides substantial public benefits in the form of public revenues from tourism.

A Fiscal and Economic Impact Analysis for the proposed boarding camp was conducted by RCL CO, real estate consultants, dated March 30, 2023 ("Economic Analysis"). The Economic Analysis is attached to this Application for reference.

Among the findings of the Economic Analysis were that the one time economic benefits arising from this project would include \$48.6 million in total labor output (wages, salaries, and benefits paid to direct indirect and workers) associated with construction of the project.

RCL CO estimates 809 total job years (including direct onsite jobs plus the multiplier effect of indirect and induced jobs with 689 of these jobs years estimated to be construction jobs) located directly on site.

RCL CO also estimates that the total economic output associated with construction would be \$110.4 million in the regional economy of which \$87.9 million reflects the value of direct project construction that occurs on site.

The recurring, annual economic impacts from the operations include the creation of up to 163 total jobs. Of these jobs, 118 are estimated to be directly created on site by the businesses or in the local economy by employee/visitor spending.

RCL CO also estimates that \$ 6.7 million in total labor out output on an annual basis. Of this amount, \$4.4 million is projected to be directly generated on site annually.

The total, annual economic output with operations is estimated at \$37.5 million in the regional economy, of which \$32.2 million reflects the value of direct project operations.

### **Suggested Conditions to Address Impacts**

The Applicant proposes the following conditions:

1. The Project shall be developed consistent with the Conceptual Plan.

# Illustrative Plan - Site Access

↑ One-Way Traffic

● Main Entrance (Entry Only)

● Emergency Access Only

● Service Entrance for Existing Barn

● Main Egress

● Service Entrance for Equestrian Barn

## PRELIMINARY TRAFFIC ASSESSMENT

Coordination with VDOT Residency ongoing

Proposed project increases peak hour trips from 6% to 8% of roads traffic capacity

### ROLLING ROAD

Maximum capacity: 1,300 vehicle/hr/lane\*

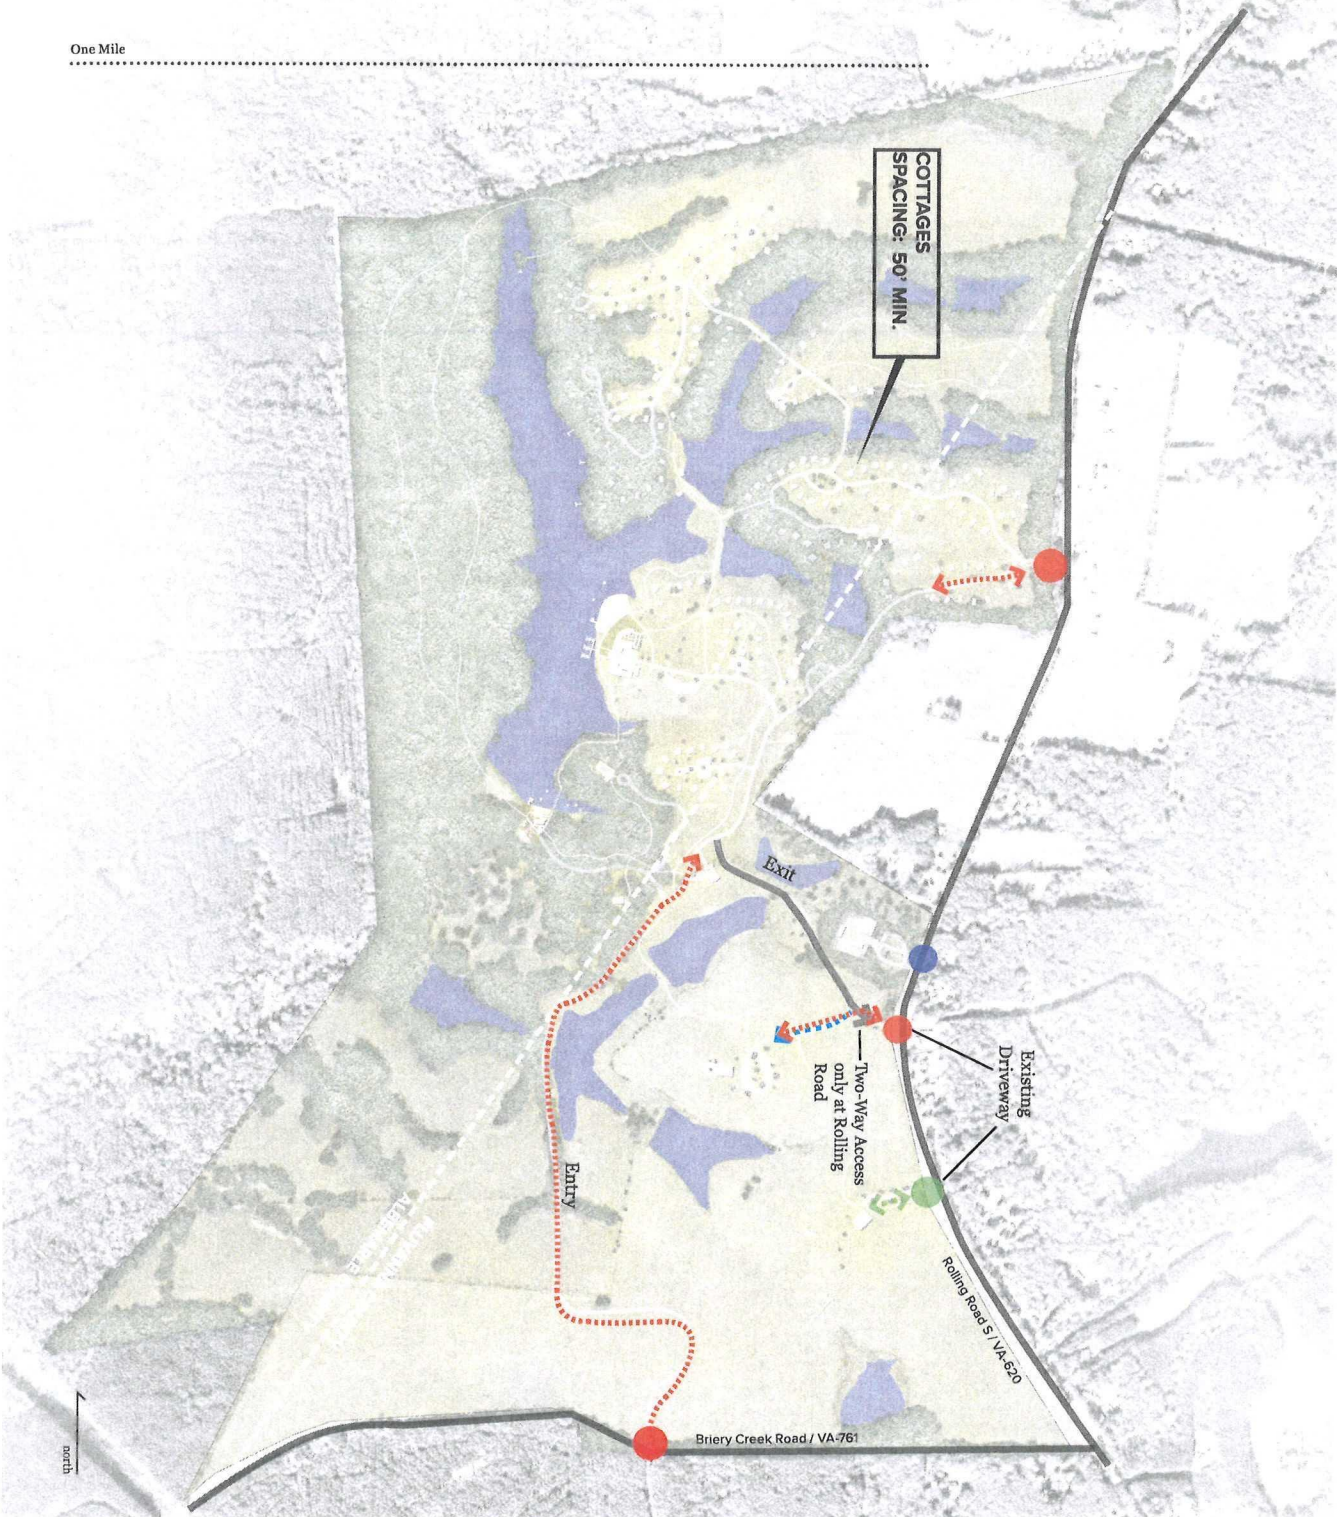

Existing Peak Hour trips: 167

Proposed Peak Trips  
 AM: 43  
 PM: 47

### REQUIRED IMPROVEMENTS

- No off-site improvements are warranted
- Turn lanes not warranted for access locations
- Review of sight distance ongoing for access points
- Considerations for signage "entrance ahead"

\*Based on capacity of two lane collector road (Rolling Road S) (per Hwy. Capacity Manual)

## Illustrative Plan - Fire Coordination

 Emergency Access

### FIRE DEMAND

- To be supplied by dry fire hydrants (NFPA 1142) and will follow Department of Forestry standards

### ROADS

- Any emergency access route is to be 20' wide minimum and capable of supporting fire truck
- Potential dam crossings planned

### FIRE PITS

- Requires approval from county fire marshal (15' for gas / 25' for wood).

# PRELIMINARY SOIL ABSORPTION STUDY REVENTON FARMS - ALBEMARLE/FLUVANNA COUNTIES, VIRGINIA

## Illustrative Plan - Wastewater

### COTTAGE AREAS

Each cottage area will discharge sewer to a gravity collection system that flows to pump station serving each area.

Pump stations will then flow to decentralized treatment systems for treatment. (These systems will generally consist of storage tanks and nitrogen removal.)

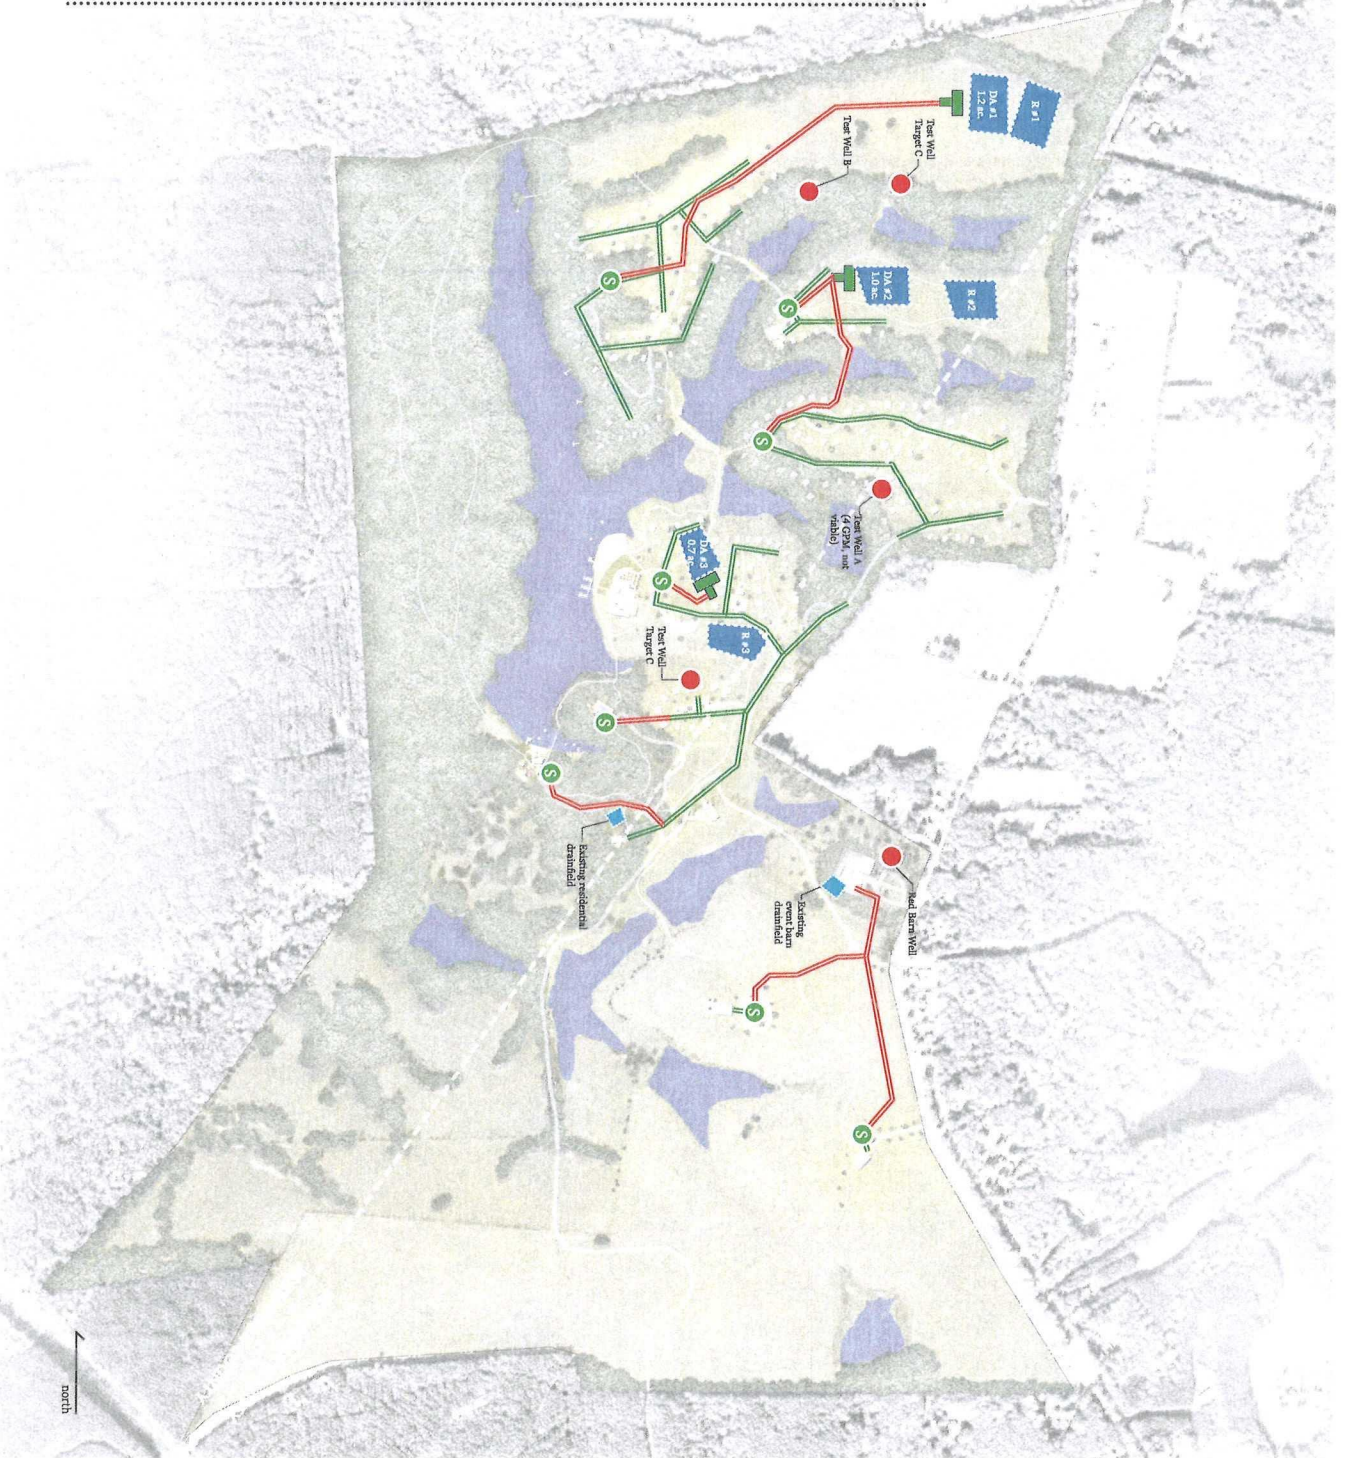

From the decentralized treatment systems, wastewater will flow via gravity and/or pump to distribution boxes, and then to mass drainfields located in various locations.

### TREATMENT SYSTEMS

- Multiple 3-4 decentralized treatment systems and drainfields
- Arterial features included in cabin flow
- Preferred treatment systems being coordinated with VDH
- Nutrient of concern Nitrogen in discussions with VDH
- Each drainfield area will require an additional reserve area of equal size
- Additional planning, sizing of drainfields, sewer layouts and testing is ongoing

Preliminary Engineering Report will be prepared and submitted to VDH ahead of detailed design

Source: EDSA, Reventon Farms - Master Planning Preliminary Layout Sheet, revised October 14, 2022

### Illustrative Plan - Wastewater

-  Drainfield Area (DA) & Reserve (R) - (+/- 3 acres)
  -  Approximate Location of Existing Drainfield
  -  Test Well Location
  -  Wastewater Treatment System
  -  Lift Station
  -  PVC Force Main Pipe
  -  PVC Gravity Sewer Main
- Expansion of one existing drainfield and treatment system for Event Barn, BOH and Equestrian Facility
  - Existing residential drainfield to be abandoned

## Illustrative Plan - Grading & Drainage Concept Plan

- 65' Vegetated Filter Strip with Compost Amendments
- Culvert Under Road - two end sections, riprap
- = Twin Culverts Under Road, two headwalls, riprap outlet protection

### Grading Guidelines

- Cabin Areas:**
  - Maximum Road Slopes: 8%
  - Maximum Slopes within Parking Area: 5%
  - ADA Parking spaces to be designed per ADA Standards (2% slope in any direction)
  - 5-ft Sidewalks: To be graded to meet ADA standards
  - 10-ft Trails: Average Slope 5%
  - Sections of trails may exceed 5% slope but not to exceed 8%. Any ADA planned route that exceeds 5% running slope will require hand rails and landings per ADA regulations.

- Road Design:**
  - All road vertical and horizontal curves will be designed per the AASHTO Greenbook for streets at a speed of minimum 25mph
  - The-In Grading**
    - A maximum of the 3:1 tie in slopes is recommended and will be verified by future geotechnical analysis

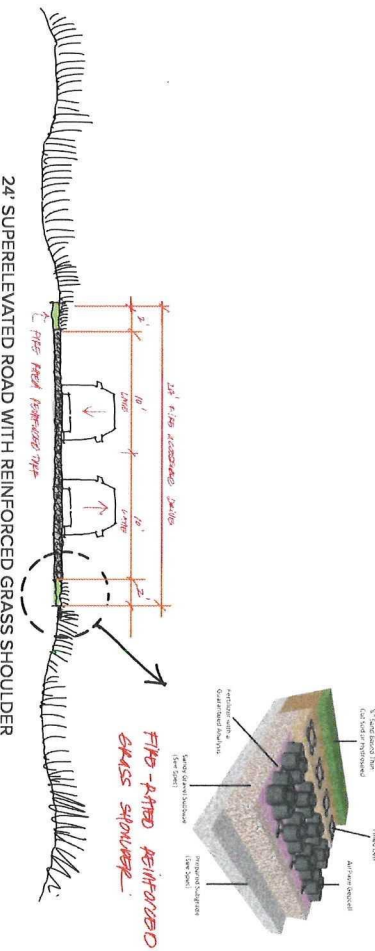

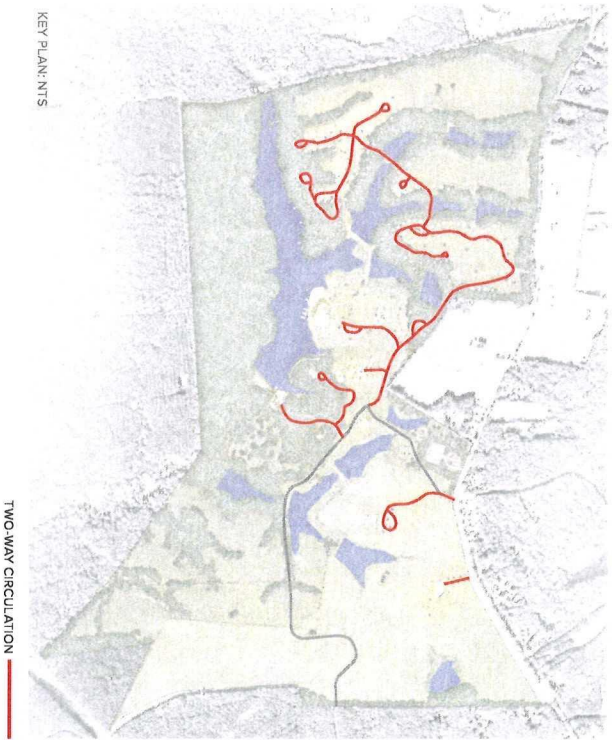

### Drainage Guidelines

- Minimal storm pipe conveyance is proposed at this time and is mostly limited to road culvert crossings
  - End Sections / Headwalls: +/- 10
  - Grass-lined Swale with Compost Amendments (with Grouted Rock Dams at 50LF spacing): +/- 2,275 LF
  - Rooftop Disconnections to Dry Well
  - (45) 3'Dx3'WX30'L Dry Well topped with River Rock
  - (15) 3'Dx4'WX30'L Dry Well topped with River Rock
- Sheet Flow to Vegetated Filter Strip (With Compost Amendments)
  - +/- 14 acres of vegetated filter strip with compost amendments

New York, NY 10022

**Re: Reventon Farms**  
**6055 Rolling Road South, Scottsville, Virginia**  
**Traffic Assessment**

Dear Mr. Lee:

Kimley-Horn and Associates, Inc. has performed a traffic assessment for the proposed Reventon Farms RV/camping resort generally located at 6055 Rolling Road South in Scottsville, Virginia. Currently, the 700-acre site proposed for development is vacant. The proposed development consists of a 250 camp-site RV/camping resort. A conceptual site plan is provided in **Attachment A**. Access to the site will be provided via one full access driveway along Rolling Road South approximately 3,400 feet north of Route 761/Briery Creek Road.

**TRIP GENERATION**

A trip generation analysis was conducted using the Institute of Transportation Engineers (ITE) *Trip Generation Manual*, 11<sup>th</sup> Edition. The analysis utilized ITE Land Use Code (LUC) 416 (Campground/Recreational Vehicle Park). As **Table 1** indicates, the proposed RV/Camping resort will result in 43 AM peak hour trips 47 PM peak hour trips. Detailed trip generation calculations are included in **Attachment B**.

Table 1: Trip Generation Summary				
AM Peak Hour (PM Peak Hour)				
Land Use (ITE Code)	Scale	Total Trips	Entering Trips	Exiting Trips
<i>Proposed</i>				
Campground/Recreational Vehicle Park (416)	250 camp-sites	43(47)	15(31)	28(16)
<b>Total</b>		<b>43(47)</b>	<b>15(31)</b>	<b>28(16)</b>

**EXISTING ROADWAY CONDITIONS**

Rolling Road South is a two-lane major collector, undivided, roadway in the vicinity of the project site. The Virginia Department of Transportation (VDOT) daily traffic estimates for Rolling Road South indicate that the peak hour traffic on Rolling Road South is 167 vehicles per hour (vph) in the vicinity of the project site. According to the Highway Capacity Manual (HCM), the maximum per-lane capacity for this type of roadway is approximately 1,300 vphpl. Therefore, it is estimated that the roadway is operating at ± 6% of its capacity under existing conditions and ±8% of its capacity with the addition of the site traffic.

**TURN LANE WARRANTS**

Turn lane warrant analyses were prepared for the proposed project driveway along Rolling Road South in accordance with VDOT's Road Design Manual. The analysis determined that neither left-turn nor right-turn lanes are warranted based on the anticipated trip generation of the proposed site. Relevant sections from the Road Design Manual are included in **Attachment C**.

If you have any questions regarding this analysis, please feel free to contact me.

Sincerely,

KIMLEY-HORN AND ASSOCIATES, INC.

Omar Kanaan, P.E.

### WARRANT FOR LEFT-TURN STORAGE LANES ON TWO-LANE HIGHWAY

FIGURE 3-4 WARRANT FOR LEFT TURN STORAGE LANES ON TWO LANE HIGHWAY

FIGURE 3-5 WARRANT FOR LEFT TURN STORAGE LANES ON TWO LANE HIGHWAY

**FIGURE 3-26 WARRANTS FOR RIGHT TURN TREATMENT (2-LANE HIGHWAY)**

Appropriate Radius required at all Intersections and Entrances (Commercial or Private).

**LEGEND**

**PHV** - Peak Hour Volume (also Design Hourly Volume equivalent)

**Adjustment for Right Turns**

For posted speeds at or under 45 mph, PHV right turns > 40, and PHV total < 300.

Adjusted right turns = PHV Right Turns - 20

If PHV is not known use formula:  $PHV = ADT \times K \times D$

K = the percent of AADT occurring in the peak hour

D = the percent of traffic in the peak direction of flow

Note: An average of 11% for K x D will suffice.

When right turn facilities are warranted, see [Figure 3-1](#) for design criteria.\*

## **OBJECTIVES & KEY FINDINGS**

# OBJECTIVES

Sun Revention Farms LLC ("Client") is evaluating the opportunity to develop a boarding camp, Revention Farms, on 700 acres near Scottsville, Virginia. The property is anticipated to include up to 250 guest cottages at buildout, with provision of food and beverages and recreational amenities. The site will include a variety of rural recreational uses and agritourism. We have studied the full 250 cottage buildout for this analysis, though it is possible a smaller number of cottages will ultimately be constructed.

RGLCO performed a market study for the Client in July 2022, and this study provides updates to the transient guest accommodations component which helps outline market demand for this product type in Albemarle and Fluvanna Counties. RGLCO has also conducted a new fiscal and economic impact analysis of the proposed development project on Fluvanna and Albemarle Counties.

The goal of this study is to calculate the fiscal impact to Albemarle County, which contains the majority of the built development including cottages and the central amenities, and a portion of this impact will be distributed to Fluvanna County (assuming the cost to service is roughly similar, without performing a detailed fiscal impact there). The distribution assumptions are still being finalized and will be made at a later date. Due to the site's location on the two-county border, the economic impact study has been calculated for the combined Albemarle and Fluvanna two-county region – as many of the spillover impacts will occur in the surrounding areas of both counties.

The fiscal impact portion of the study includes the following:

- ▶ One Time Revenues Arising From Construction
  - ▶ Impacts to General Fund Revenues & Expenditures
  - ▶ Net Fiscal Impacts over the 30 Year Study Period
- The economic impact portion of the study includes the following:
- ▶ Direct & Multiplier Effects from Construction
  - ▶ Effects from Operations within a Stabilized Year

## Site Plan

Subject Site: July 2022

Image Source: Client

# KEY FINDINGS

## TOURISM AND TRANSIENT ACCOMMODATIONS MARKET REBOUNDS STRONGLY

Visitation and demand for short-term rentals have both grown in Virginia in general, and in the subject site area in specific, in 2021 and 2022 rebounding from 2020 pandemic lows. Tourism data in 2021 (the most recent available) showed an increase in overnight visitors, and in visitor spending in the state as well as the two-county region. Short term rentals have performed strongly through the pandemic, achieving peak occupancies in 2021 and stabilizing in 2022 above pre-recession levels. ADRs have grown 22% for short term rentals from 2020 to 2022.

Data from STR indicates that the accommodations market in Charlottesville was relatively stable prior to the pandemic, and after a dip in 2020 it rebounded strongly in 2021 and 2022. In 2022, luxury product continued to demonstrate its strength relative to all product, with luxury ADR growth increasing 21% from 2021 to 2022 compared to 18% for all types. The competitive properties surveyed in Virginia also demonstrated rate growth, though it was more varied in level. **This strong performance by the accommodations market, as well as the short-term rental market, shows that there is demand and a supportable need for the visitor accommodations planned in cottages at the subject site.**

## ONE-TIME ECONOMIC IMPACT FROM CONSTRUCTION

RCLCO estimated the one-time construction-related economic impacts using the IMPLAN input-output model and estimated construction (hard and soft) costs.

- ▶ We estimate **809 total job years** (including direct onsite jobs plus the “multiplier effect” of indirect and induced jobs), with 689 of these job years estimated to be construction jobs located directly onsite. This excludes off-site construction labor that is involved in prefabrication of construction components.
- ▶ We estimate **\$48.6 million in total labor output** (wages, salaries, and benefits paid to direct, indirect, and induced workers associated with construction), of which \$41.6 million is projected to be paid to onsite construction employees.

- ▶ We estimate a total economic output associated with construction of **\$110.4 million** in the regional economy, of which \$87.9 million reflects the value of direct project construction that occurs on-site. \$35 million of construction output is anticipated to occur when the prefabricated components are constructed offsite and are therefore not factored into this analysis.

## RECURRING (ANNUAL) ECONOMIC IMPACTS FROM OPERATIONS

RCLCO estimated the recurring annual economic impact from the operations of the onsite uses at the project at build-out, relying on Client inputs and RCLCO estimates for hospitality performance metrics, business revenues for commercial uses, and visitor spending.

- ▶ We estimate **163 total jobs** (including direct onsite jobs plus the “multiplier effect” of indirect and induced jobs). Of these jobs, 118 are estimated to be directly created onsite by businesses or in the local economy by employee/visitor spending.
- ▶ We estimate **\$6.7 million in total labor output** (wages, salaries, and benefits paid to direct, indirect, and induced workers associated with onsite businesses and household spending). Of this compensation, \$4.4 million is projected to be directly generated onsite by businesses or throughout the local economy by residential spending.
- ▶ We estimate a total economic output associated with operations of **\$37.5 million** in the regional economy, of which \$30.2 million reflects the value of direct project operations.
- ▶ More details about the including definitions, methodology, and details about the IMPLAN model may be found starting on page 9.

*Note: Economic impact values expressed in constant 2022 dollars (no inflation). Employment expressed as total full-time and part-time jobs. Construction employment is expressed in job-years, i.e. one employee who works for three years would be three job-years.*

# KEY FINDINGS

## ONE-TIME FISCAL IMPACTS FROM CONSTRUCTION

RCLCO estimated the project-construction related one-time revenues to Albemarle County from the proposed development, including sales taxes from construction materials and BPOL tax on building/development. These revenues would amount to approximately **\$485,000**, detailed in Exhibit III-1. Additionally, we do not include any one-time planning and construction permit fees as we assume those are not a net benefit, as they account for time spent by the municipality to approve and monitor construction. A portion of these impacts would be distributed to Fluvanna County because the fiscal impact of this development will occur in both counties – but the assumptions as to what share of the impact will occur in Fluvanna has not yet been finalized.

## RECURRING FISCAL IMPACTS

The proposed development is anticipated to generate an overall positive net fiscal impact on the County's General Fund during construction, and when the project reaches stabilization in 2028. Though these impacts are calculated to Albemarle County in this study, a yet to be determined share would also be distributed to Fluvanna County.

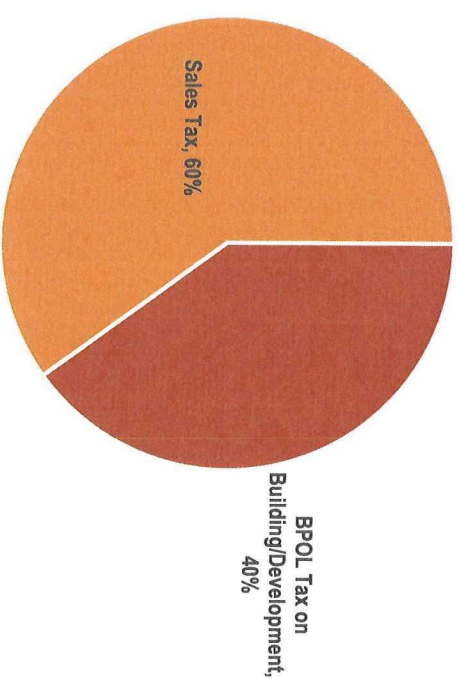

- ▶ At stabilization in 2028, General Fund revenues are projected at \$2.6 million less \$635,000 in increased expenditures to yield the **\$1.9 million in annual net fiscal impact**.
- ▶ Over a 25-year period from 2023 to 2047, Reventon Farms is projected to yield \$79.1 million cumulative new revenues, less \$19.2 million in new expenditures,, resulting in a **total cumulative net fiscal impact of \$60.0 million to Albemarle County's General Fund over a 25-year period**.
- ▶ From another statistical perspective, the proposed development would generate approximately **\$4.11 in additional revenue for each \$1.00 in incremental municipal service costs**.

More details about the fiscal impact calculations and methodology may be found in the report starting on page 13.

*Note: All fiscal impact values presented future dollars, adjusted for inflation.*

**MARKET SUPPORT**

# VIRGINIA TOURISM DATA

## VIRGINIA TOURISM GROWING

Tourism is an important part of the Virginia economy which generates significant economic benefits to households businesses, and the government. In 2021, Virginia saw an increase in overnight visitors to 38.5 million visitors, a 31% increase since 2020, and 88% compared with pre-pandemic levels. This tourism generated \$25.2 billion in tourism spending, which was a recovery of up to 87% of pre-pandemic levels. Overall the impact of tourism in Virginia in 2021 was \$39.4 billion, creating 273,150 jobs. Notably, total visitor spending in Albemarle County in 2021 was up 60% from 2020, and visitor spending in Fluvanna County was up 40% in the same time period, boding well for new accommodations, food and beverage, and recreational amenities planned at the subject site.

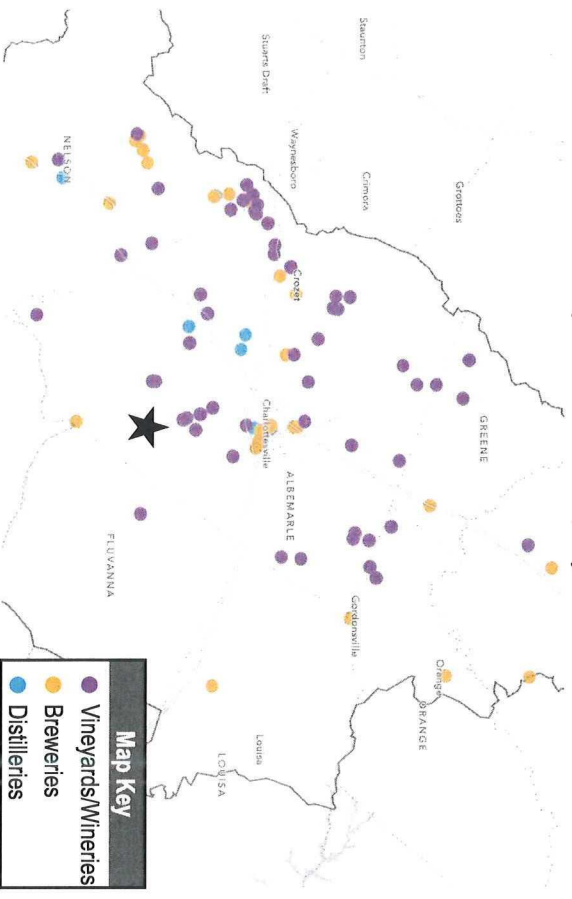

# WINE TOURISM

## VIRGINIA WINE COUNTRY GROWING IN POPULARITY AS WINE QUALITY HAS IMPROVED

- ▶ There are over 300 wineries in Virginia, up from six wineries in 1979. The Monticello American Viticulture Area (AVA) has steadily improved its domestic and international reputation and established itself as one of the East Coast's premier wine regions over the past few decades.
- ▶ Although there is a higher concentration of vineyards and wineries in the western part of Albemarle County, there are a number of wineries, breweries, and distilleries in close proximity to the subject site, making this an appealing amenity for on-site guests.
- ▶ The majority of visitors who list wine tourism as the primary motivation for their visit tend to travel with partners or immediate family members or children and stay between one and four nights. This trip length is consistent with the top states of visitor origin, with most visitors hailing from drivable locations such as Maryland, Washington D.C., North Carolina, New York, and other parts of Virginia.

**Wine Tourism Attractions**  
Competitive Market Area: July 2022

**Distribution of Nights Spent in the State**  
Virginia Wine Tourists; 2021

# HOSPITALITY TRENDS OVERVIEW

## SUPPLY AND DEMAND IN THE CHARLOTTEVILLE MARKET IS STABLE, HAS REBOUNDED FROM PANDEMIC

- ▶ In 2022, according to data collected by STR, luxury product continued to demonstrate its strength relative to all product, with luxury ADR growth having outperformed all, achieving an ADR growth rate of 21% compared to 18% for all types. Additionally, while luxury product's occupancies lag behind all properties, the gap narrowed slightly in 2022. This data is relevant to consider for the cottage accommodations planned on-site, and indicates strong market fundamentals.
- ▶ Luxury and upper upscale properties exhibited lower levels of occupancy, on average, than the studied set as a whole. This trend was reversed, however, when looking at the most exclusive and expensive properties in the set.
  - » Despite a significant difference in ADR for the most expensive luxury hotels in the market (\$1,000/night+), the ultra-luxury properties in this set exhibit the strongest occupancy levels, with weekends and holidays, in particular, booking out months in advance.
  - » These properties also have less room keys, on average, which contribute to the boutique feel and ability to offer a unique offering of service and amenities, which further drives demand for this product.

Average Daily Rate, Revenue Per Available Room, Occupancy  
Competitive Market Area: 2017-2022

Hotel Supply and Demand  
Competitive Market Area: 2017-2022

# SHORT-TERM RENTAL MARKET

## THE SHORT-TERM RENTAL MARKET IN THE COMPETITIVE MARKET AREA HAS EXPERIENCED UNPRECEDENTED LEVELS OF OCCUPANCY FOLLOWING THE ONSET OF THE PANDEMIC

- ▶ The seasonality of short-term rentals that was prevalent before 2020 has also become less variable, with occupancy in February 2023 well above prior winter levels. Short-term rental occupancy averaged 47.7% from 2018 to 2019 but increased to 61.6% average occupancy from June 2020 to Feb 2023, the latest month of data. This trend has prevailed despite an increase in available listings in 2022; occupancy has still remained above pre-pandemic levels.
- ▶ ADR grew rapidly since the onset of the pandemic, increasing 18% and 19% from 2020 to 2021, and an additional 5% and 4% from 2021 to 2022 for entire place listings and hotel comparable listings respectively.

# SHORT-TERM RENTAL DEMAND

## THE SHORT-TERM RENTAL MARKET WITHIN THE CMA DEMONSTRATES SUPPORT FOR THE COTTAGE PROGRAM

- ▶ By the time the subject site delivers, likely around 2024-2025 at the earliest, demand for short-term rentals will have outpaced supply for several years, creating unmet demand for roughly 325 short-term rentals.
- ▶ To support a short-term rental program of roughly 250 keys, the subject site will need to capture its fair share of the CMA market of approximately 10%, which is likely achievable due to the newness of the product and the amount of on-site amenities compared to most short-term rentals.

Short-Term Rental Demand  
Subject Site: 2019-2033

# **ECONOMIC IMPACT ANALYSIS**

Employment counts, labor income, and economic output related to the construction of the project and its annual operation once completed were estimated using the IMPLAN model, using data specific to the regional economy. The model enables analysis of the specific sectors of an area's economy that are impacted when a new investment or new employment, or other measure, is added to a particular sector or sectors. These inter-industry relationships can be expressed in terms of dollar impacts or employment impacts. The results are shown in their report as "employment", "labor income", and "economic output." Separate calculations are provided for two categories of benefits: temporary (construction phase) benefits; and permanent or recurring benefits associated with the ongoing operation of new businesses within the project.

## THE IMPLAN MODEL

Our analysis considers the direct (i.e., onsite) impacts associated with the proposed development, as well as "multiplier" impacts within the regional economy (these "indirect" and "induced" impacts are both calculated for the relevant county). These multiplier impacts have been projected using the IMPLAN model. IMPLAN was created in 1979 by the U.S. Forest Service to assist the Forest Service in land and resource planning management. In 1992, IMPLAN was transferred under a technology transfer agreement to the Minnesota IMPLAN Group, Inc, which is run by former researchers from the University of Minnesota (the university worked on the original program and subsequently developed the current modeling system). Minnesota IMPLAN Group is privately held and sells a suite of products and consulting services that involve the IMPLAN software.

The IMPLAN model can be used to generate estimates of direct, indirect and induced effects of a change in the local or regional economy created by new development, such as the proposed development.

- ▶ **Direct Effects** are the set of expenditures applied to the predictive model for impact analysis. These include the investment in project construction and operations of the onsite commercial land uses. The income and resulting employment of the new jobs that are employed at the project are also considered direct effects.
- ▶ **Indirect Effects** are impacts resulting from purchases of goods and services to support project construction and businesses selling goods and services to a project, specifically the retail, office, hotel uses, and new households.
- ▶ **Induced Effects** result when direct and indirect employees spend their compensation on different goods and services within the economy. The indirect and induced effects are together referred to as the "multiplier effect" of the direct expenditures associated with the development of a project.

The analysis quantifies the above benefits in terms of the following measures

- ▶ **Employment** – New full-time and part-time jobs, reflecting the number of jobs/workers employed in any given year.
- ▶ **Labor Income** – Payroll and benefits associated with the created jobs, along with additional proprietor income (payments received by self-employed individuals and unincorporated business owners)
- ▶ **Economic Output** – Increase in gross industry receipts, representing the total economic activity generated by the project.

# ECONOMIC IMPACTS - CONSTRUCTION

## ONE-TIME ECONOMIC IMPACTS FROM CONSTRUCTION

RCLCO's One-Time Economic Impact Analysis for the proposed Reventon Farms project estimated the following one-time impacts from the development of the project. Of the project's total construction cost of approximately \$123 million, a portion is expected to occur offsite in the form of prefabricated development components – and thus the construction economic impact is based on the \$88 million of output that occurs on-site. These impacts are calculated for the combined Albemarle and Fluvanna two-county region.

- ▶ **809 Cumulative Construction Jobs** (689 Direct + 120 Indirect/Induced)
- ▶ **\$48.6 Million in Labor Income from Construction**, including salary and benefits (\$41.6 Million Direct + \$7.0 Million Indirect/Induced)
- ▶ **\$110.4 Million in One-Time Economic Output from Construction** (\$87.9 Million Direct + \$11.2 Million Indirect/Induced)

### Cumulative Economic Impacts from Construction

IMPACT TYPE	FROM CONSTRUCTION		
	EMPLOYMENT	LABOR INCOME	ECONOMIC OUTPUT
Direct	689	\$41,607,970	\$87,889,500
Indirect	70	\$3,660,952	\$12,259,763
Induced	50	\$3,318,845	\$10,210,469
<b>Total Effect</b>	<b>809</b>	<b>\$48,587,767</b>	<b>\$110,359,732</b>
<b>Multiplier</b>	<b>1.17</b>	<b>1.17</b>	<b>1.26</b>

### TOTAL JOBS

### TOTAL LABOR INCOME

### TOTAL ECONOMIC OUTPUT

### EMPLOYMENT

■ Induced  
■ Indirect  
■ Direct

### LABOR INCOME

### ECONOMIC OUTPUT

Note: Economic impact values expressed in constant 2022 dollars (no inflation). Employment expressed as total full-time and part-time jobs. Construction employment is expressed in job-years, i.e. one employee who works for three years would be three job-years.

# ECONOMIC IMPACTS – RECURRING

Economic impacts were calculated for the recurring on-site employment, impacts from employees, and hotel visitor spending. These impacts are all calculated for the two-county Albemarle and Fluvanna region.

## RETAIL

**On-Site Retail/Restaurant Spending:** On-site retail impacts were calculated by using total annual retail sales across food and beverage stores, restaurants, and other amusement and recreation industries.

**Hotel Visitor Off-Site Spending:** Given the number of occupied nights, and assuming 15% of visitor retail spending occurring off site and 90% of that spending occurring in the two counties, we estimate off site-visitor retail spending. The impact of retail spending by hotel visitors off-site is determined by using an estimated \$43 per visitor per day, based on estimated on site visitor spending accounting for 85% of total visitor spending. We then distribute to retail spending categories based on an RGLCO assumption of total hotel guest spending patterns. Please see Exhibit II-6 for more detail.

The total direct employment generated by on-site retail revenues and off-site spending by hotel visitors and employees, results in 69 direct employees attributable to retail and amenities, with 54 jobs estimated on-site and the remaining 15 jobs attributed to visitor spending occurring off-site.

## HOTEL

Recurring hotel impacts were determined by using the total annual revenue generated by room rentals utilizing IMPLAN Sector 507 related to hotels, as shown on Exhibit II-5. This results in 49 direct employees.

# ECONOMIC IMPACTS - RECURRING

## RECURRING ECONOMIC IMPACTS AT FULL BUILD-OUT & STABILIZATION

RCLCO's Economic Impact Analysis for the proposed Revention Farms project estimated the following impacts from the ongoing operations of future business and real estate operations.

- ▶ **163 Total Recurring Jobs at Full Build-Out** (118 Direct + 45 Indirect/Induced)
- ▶ **\$6.7 Million in Annual Recurring Labor Income at Full Build-Out**, including salary and benefits (\$4.4 Million Direct + \$2.3 Million Indirect/Induced)
- ▶ **\$37.6 Million in Annual Recurring Economic Output at Full Build-Out** (\$30.2 Million Direct + \$7.4 Million Indirect/Induced)

Summary of Recurring Economic Impacts from Project Operations at Stabilization

IMPACT TYPE	RECURRING AT BUILD-OUT		
	EMPLOYMENT	LABOR INCOME	ECONOMIC OUTPUT
Direct	118	\$4,396,813	\$30,201,484
Indirect	36	\$1,885,760	\$5,828,551
Induced	9	\$464,655	\$1,556,373
<b>Total Effect</b>	<b>163</b>	<b>\$6,747,228</b>	<b>\$37,586,408</b>
<i>Multiplier</i>	<b>1.39</b>	<b>1.53</b>	<b>1.24</b>

■ Induced  
■ Indirect  
■ Direct

Note: Economic impact values expressed in constant 2022 dollars (no inflation). Employment expressed as total part-time and full-time jobs.

---

**FISCAL IMPACT ANALYSIS**

## REAL PROPERTY TAX REVENUES

The client provided estimated construction costs for the proposed development which RCLCO translated to estimated market/assessed values by inflating by 20% to account for contingency/profit margins, various impact fees, etc. RCLCO utilized the client's site plan as well as Albemarle County Parcel data to retrieve land values based on 2022 assessments. The value of all real property within the subject site was assumed to increase by 3.0% annually. The assessed value of the existing prior real property is accounted for, prior to the site's delivery. Albemarle County's tax rate of \$0.854 per \$100 in assessed value was applied to the estimated assessed value to estimate the real property tax in each year. A portion of the real property taxes will occur in Fluvanna County, and this will be allocated in a future study.

## PERSONAL PROPERTY TAX REVENUES

RCLCO estimated personal property taxes based on FF&E and vehicle values provided by the client. Albemarle County's personal property tax rate of \$3.24 per \$100 in assessed value was used to estimate personal property tax revenues, as was the county's business tangible personal property tax assessment factor table. A portion of personal property taxes will be allocated to Fluvanna County.

## SALES TAX

RCLCO estimated the generation of sales taxes from two sources: spending on materials for construction of the project and spending by visitors of the proposed development. To calculate sales taxes associated with the former source, RCLCO used construction cost estimates provided by the client and assumed that that 30% of total costs within the two-county area would be attributed to materials and that materials purchased within the county would represent 80% of materials costs. The materials cost of prefabricated components is assumed to be taxed on delivery per Virginia state tax code. To calculate sales taxes associated with the latter source, RCLCO used estimates provided by the client regarding visitor on-site spending and assumed that 85% of visitor spending would occur on site. RCLCO then inflated these values by 3% per year and applied Albemarle County's 1% sales tax rate to these

*Note: Values expressed in future dollars, adjusted for inflation.*

Sun Communities | Fiscal & Economic Impact Analysis for Reventon Farms | Scottsville, VA

values. A portion of the sales tax will be allocated to Fluvanna County.

## BPOL TAX

Due to the hospitality use of the proposed development, RCLCO assumed BPOL tax generation from three sources. The first is from receipts of contractors involved in the construction of the project; in this case, RCLCO applied the BPOL tax rate of \$0.16 per \$100 of gross receipts to the estimated construction costs. The second is from the tax on retail expenditures within the county, including the estimated spending on construction materials for the proposed development and the estimated spending from visitors on-site and off-site; in this case, RCLCO applied the BPOL tax rate of \$0.20 per \$100 of gross receipts to the estimated retail expenditures. The third is from the receipts generated by hotel rooms; in this case, RCLCO applied the BPOL tax rate of \$0.20 per \$100 of gross receipts to the estimated rental revenue. A portion of the BPOL will be allocated to Fluvanna County in a future study.

## MISCELLANEOUS REVENUES

To forecast miscellaneous revenues—which include a variety of revenue items, such as fines, fees, and charges for specific services—RCLCO typically identifies the total amount collected in a given year and estimates the portions of those revenues that are likely attributable to employees and resident equivalents. On that basis, an average amount of miscellaneous revenue per employee and resident equivalent can be calculated. A portion of these revenues will be allocated to Fluvanna County in a future study.

## TRANSIENT OCCUPANCY TAX

Using hotel revenues provided by the client (which are assumed to increase by 3% annually), RCLCO applied the 5% transient occupancy tax that contributes to the County's general fund to the estimated revenues. An additional 3% tax goes to the Tourism fund, which was not accounted for in this analysis. It is assumed that all cottages will be taxed in Albemarle County.

*Source: RCLCO; Albemarle County*

R7-15649.09 | March 30, 2023 | 20

# FISCAL IMPACT ANALYSIS – SUMMARY OF ANNUAL RECURRING REVENUES

The proposed hospitality development at Reventon Farms is projected to generate \$2.58 million in recurring Albemarle County General Fund revenues from operations during its first stabilized year in 2028. This revenue generation to the County's General Fund arises from the development's impact on the following General Fund revenue categories: Real Property Tax, Personal Property Tax, Sales and Meals Tax, Transient Occupancy Tax, BPOL Tax, and Miscellaneous Revenues. The analysis assumes that all of the taxes and tax rates that now apply to the development would continue in the future. The four largest revenue sources are as follows: Transient Occupancy Tax, Sales and Meals Tax, Real Property Tax, and Personal Property Tax, accounting for 94% of the total annual recurring revenues together. A summary of total annual revenues is found in Exhibit I-1. A portion of this revenue is intended to be allocated to Fluvanna County in a later study, once the distribution amount is determined.

## Summary of Recurring General Fund Revenues

## Summary of Recurring General Fund Revenues: At Stabilization in 2028, Total Over 25-Year Analysis Period

ESTIMATED REVENUES	FIRST STABILIZED YEAR OF OPERATIONS (2028)	DEVELOPMENT, STABILIZATION, AND OPERATIONS FROM 2023-2047
	2023\$	Total Future \$

Real Property Tax	\$209,000	\$5,975,246
Personal Property Tax	\$184,000	\$8,156,128
Sales and Meals Tax	\$689,000	\$20,741,668
Transient Occupancy Tax	\$1,338,000	\$39,032,042
BPOL Tax	\$70,000	\$2,342,530
Miscellaneous Revenues	\$94,000	\$2,826,157
<b>Total Revenues</b>	<b>\$2,584,000</b>	<b>\$79,073,771</b>

Note: Values expressed in future dollars, adjusted for inflation unless otherwise specified.

R7-15649.09 | March 30, 2023 | 21

# ONE-TIME REVENUES FROM CONSTRUCTION

The proposed development is expected to generate one-time General Fund revenues during construction from several sources. The sources of these revenues include Construction Materials Sales Tax, and BPOL Tax on Building/Development. These taxes and fees would generate a one-time total of approximately \$485,000 in revenues to Albemarle County (a portion of which will be allocated to Fluvanna County). RCLCO used construction cost estimates and development characteristics provided by the Client in the projection of these one-time revenues (Exhibit I-2).

- ▶ **Construction Materials Sales Tax** – RCLCO assumed that 30% of total hard and soft construction costs would be attributed to materials and that 80% of these material expenditures would be attributed to materials taxable and purchased in Albemarle County. Using this figure, we then applied the 1% county share of the tax rate and concluded that the total Construction Materials Sales Tax revenue would be approximately \$291,000. The prefabricated components are anticipated to be taxed upon delivery, so their material value is factored into this analysis.
- ▶ **BPOL Tax on Building/Development** – Using the proposed development characteristics and Albemarle County Tax Rates, RCLCO concluded that the total BPOL Tax on Building/Development would be about \$194,000, utilizing a tax rate of \$0.16 per \$100 gross receipts.

Summary of One-Time Revenues from Construction

Note: Values expressed in future dollars, adjusted for inflation unless otherwise specified.

# EXPENDITURES

## OPERATING EXPENDITURES

The estimation of operating expenditures follows a similar methodology to that of miscellaneous revenues. The total county general fund expenditures, as shown in the FY 2023 adopted budget, were divided among the estimated number of employees and resident equivalents (including population and visitors) in the county to arrive at average expenditure estimates per employee and resident equivalent. Details are shown on Exhibit I-4a. Due to the fact that there are no residents and therefore no school children generated on-site, the resident equivalent calculation excluded school operating expenditures. Average operating expenditures per visitor and per employee were assumed to increase by 3% per year. Similar to revenues, a portion of expenditures are assumed to occur within Fluvanna County.

Summary of Recurring General Fund Expenditures by General Fund Expenditure Category (Future Dollars)

Note: Values expressed in future dollars, adjusted for inflation unless otherwise specified.

# NET FISCAL IMPACT

## TOTAL NET FISCAL IMPACT TO THE ALBEMARLE COUNTY GENERAL FUND

From its first stabilized year in 2026 and throughout the analysis period extending into 2047, Reventon Farms positively contributes to the Albemarle County General Fund. In 2028 the site is expected to contribute roughly \$2.58M dollars in revenue to the County's General Fund and to increase county expenditures by roughly \$636K, given the relatively limited cost of servicing the site's expected employees and visitors. This results in a net fiscal impact of roughly \$1.95M in 2028. Between 2023 and 2047, the site is expected to generate roughly \$79.1M in revenues, less approximately \$19.2M in expenditures. A portion of this net fiscal impact will accrue to Fluvanna County.

ESTIMATED REVENUES	FIRST STABILIZED YEAR OF OPERATIONS		DEVELOPMENT, STABILIZATION, AND OPERATIONS FROM 2023-2047
	(2028)	2023\$	
Real Property Tax	\$209,000	\$5,975,246	Total Future \$
Personal Property Tax	\$184,000	\$8,156,128	
Sales and Meals Tax	\$689,000	\$20,741,668	
Transient Occupancy Tax	\$1,338,000	\$39,032,042	
BPOL Tax	\$70,000	\$2,342,530	
Miscellaneous Revenues	\$94,000	\$2,826,157	
<b>Total Revenues</b>	<b>\$2,584,000</b>	<b>\$79,073,771</b>	
<b>ESTIMATED EXPENDITURES</b>			
Less: Resident Equivalent Expenditures	\$636,000	\$19,242,207	
<b>NET FISCAL IMPACT</b>	<b>\$1,948,000</b>	<b>\$59,831,563</b>	

Note: Values expressed in future dollars, adjusted for inflation unless otherwise specified.

**DISCLAIMERS**

# CRITICAL ASSUMPTIONS

Our conclusions are based on our analysis of the information available from our own sources and from the client as of the date of this report. We assume that the information is correct, complete, and reliable.

We made certain assumptions about the future performance of the global, national, and local economy and real estate market, and on other factors similarly outside either our control or that of the client. We analyzed trends and the information available to us in drawing these conclusions. However, given the fluid and dynamic nature of the economy and real estate markets, as well as the uncertainty surrounding particularly the near-term future, it is critical to monitor the economy and markets continuously and to revisit the aforementioned conclusions periodically to ensure that they are reflective of changing market conditions.

We assume that the economy and real estate markets will experience a period of slower growth in the next 12 to 24 months, and then return to a stable and moderate rate in 2024 and beyond. However, stable and moderate growth patterns are historically not sustainable over extended periods of time, the economy is cyclical, and real estate markets are typically highly sensitive to business cycles. Further, it is very difficult to predict when inflection points in economic and real cycles will occur.

With the above in mind, we assume that the long-term average absorption rates and price changes will be as projected, realizing that most of the time performance will be either above or below said average rates.

Our analysis does not consider the potential impact of future economic shocks on the national and/or local economy, and does not consider the potential benefits from major "booms" that may occur. Similarly, the analysis does not reflect the residual impact on the real estate market and the competitive environment of such a shock or boom. Also, it is important to note that it is difficult to predict changing consumer and market psychology.

As such, we recommend the close monitoring of the economy and the marketplace, and updating this analysis as appropriate.

Further, the project and investment economics should be "stress tested" to ensure that potential fluctuations in revenue and cost assumptions resulting from alternative scenarios regarding the economy and real estate market conditions will not cause failure.

In addition, we assume that the following will occur in accordance with current expectations:

- ▶ Economic, employment, and household growth
- ▶ Other forecasts of trends and demographic and economic patterns, including consumer confidence levels
- ▶ The cost of development and construction
- ▶ Tax laws (i.e., property and income tax rates, deductibility of mortgage interest, and so forth)
- ▶ Availability and cost of capital and mortgage financing for real estate developers, owners and buyers
- ▶ Competitive projects will be developed as planned (active and future) and that a reasonable stream of supply offerings will satisfy real estate demand
- ▶ Major public works projects occur and are completed as planned

Should any of the above change, this analysis should be updated, with the conclusions reviewed accordingly (and possibly revised).

# GENERAL LIMITING CONDITIONS

Reasonable efforts have been made to ensure that the data contained in this study reflect accurate and timely information and are believed to be reliable. This study is based on estimates, assumptions, and other information developed by RCLCO from its independent research effort, general knowledge of the industry, and consultations with the client and its representatives. No responsibility is assumed for inaccuracies in reporting by the client, its agent, and representatives or in any other data source used in preparing or presenting this study. This report is based on information that to our knowledge was current as of the date of this report, and RCLCO has not undertaken any update of its research effort since such date.

Our report may contain prospective financial information, estimates, or opinions that represent our view of reasonable expectations at a particular time, but such information, estimates, or opinions are not offered as predictions or assurances that a particular level of income or profit will be achieved, that particular events will occur, or that a particular price will be offered or accepted. Actual results achieved during the period covered by our prospective financial analysis may vary from those described in our report, and the variations may be material. Therefore, no warranty or representation is made by RCLCO that any of the projected values or results contained in this study will be achieved.

Possession of this study does not carry with it the right of publication thereof or to use the name of "Robert Charles Lesser & Co." or "RCLCO" in any manner without first obtaining the prior written consent of RCLCO. No abstracting, excerpting, or summarization of this study may be made without first obtaining the prior written consent of RCLCO. This report is not to be used in conjunction with any public or private offering of securities or other similar purpose where it may be relied upon to any degree by any person other than the client without first obtaining the prior written consent of RCLCO. This study may not be used for any purpose other than that for which it is prepared or for which prior written consent has first been obtained from RCLCO.

## II. ECONOMIC IMPACT

### Exhibit II-1

Summary of Economic Impacts - Full Build-Out  
 Reventon Farms  
 Albemarle and Fluvanna Counties, Virginia  
 February 2023

IMPACT TYPE	EMPLOYMENT	FROM CONSTRUCTION		RECURRING AT BUILD-OUT		
		LABOR INCOME	ECONOMIC OUTPUT	LABOR INCOME	ECONOMIC OUTPUT	
Direct	689	\$41,607,970	\$87,889,500	118	\$4,396,813	\$30,201,484
Indirect	70	\$3,660,952	\$12,259,763	36	\$1,885,760	\$5,828,551
Induced	50	\$3,318,845	\$10,210,469	9	\$464,655	\$1,556,373
<b>Total Effect</b>	<b>809</b>	<b>\$48,587,767</b>	<b>\$110,359,732</b>	<b>163</b>	<b>\$6,747,228</b>	<b>\$37,586,408</b>
<b>Multiplier</b>	<b>1.17</b>	<b>1.17</b>	<b>1.26</b>	<b>1.39</b>	<b>1.53</b>	<b>1.24</b>

Note: "Employment" is expressed as Full-Time Equivalents. "Labor Income" includes salary and benefits. "Economic Output" is a summary measure of all spending and economic activity, including labor income.

Note: "Direct Impacts" include the investment in project construction, which occur primarily at the project site. "Indirect Impacts" result from purchases of goods and services to support project construction, which occur elsewhere in the Two County area. "Induced Impacts" result when direct and indirect employees spend their compensation on goods and services in the Two County area.

Note: All values expressed in constant 2023 dollars.

RE: Special Use Permits for Boarding Camp and Water Related Facilities in the  
Agricultural (A-1) Zoning District; Fluvanna Tax Map Parcels 26-A-A2, 26-A-A38, 26-  
A-A58 and 26-A-3; Sun Reventon Farm LLC (“Applicant”)

To Whom it May Concern:

Please be advised that the undersigned is the record owner of Tax Map Parcels 26-A-A2, 26-A-A38, 26-A-A58 and 26-A-3 and has authorized the referenced Applicant to submit Applications for Special Use Permit for a Boarding Camp and Water Related Facilities in the Agriculture (A-1) Zoning District. The Applicant is the designated and authorized agent for all matters concerning such requests for a Special Use Permit.

The undersigned also authorizes entry onto the Property by County employees, the Planning Commission and the Board of Supervisors during the normal discharge of their duties in regard to the request contained in such application and acknowledges that County employees will make regular inspections of the site provided that, for any access needed, the undersigned is given at least 24 hours notice and the opportunity to approve the access or work with the County find an alternate date if the requested access interferes with business operations.

Respectfully,

  
Thomas Sullivan,  
Manager
